3.100   ADMISSIONS

3.101   Pre-Kindergarten Programs

The information pertaining to the Infant/Toddler Program was deleted from this section because it is no longer part of the Pre-Kindergarten (Pre-K) Programs.

3.200   PROGRAM OF STUDY

3.202   Experiences and Activities

The major changes in this section were made due to changes in the Head Start Child Outcomes Framework. The name changed as well as the way the outcomes were written. Although the eleven domains of learning are within the Head Start Child Development Early Learning Framework, they have been placed within five broad areas which are Approaches to Leaning, Cognition and General Knowledge, Language and Literacy, Physical Health and Development, and Social and Emotional Development. Every Head Start Program is mandated to write readiness goals that align with Head Start Standards, State Standards, and District Expectations. The readiness goals must include skills in all the domains within the five broad areas. Experiences are planned to help students master the goals that have been written. Student data is tracked to determine the progress students have made throughout the year. Expectations for students are that they will be ready for kindergarten and a lifetime of learning.

3.300   PLACEMENT

3.302   Voluntary Pre-Kindergarten (VPK)

The additional information in this section pertains to the state of Florida mandate that School Districts have a 300 instructional hour Summer VPK Program.

3.600   COMPLETION

3.605   Section 504

This section was deleted because Pre-Kindergarten students do not receive Section 504 Services.
