December 10, 2014

Dear Colleagues

Given the onset of the “Race –To-The-Top” grant initiative, Santa Rosa Professional Educators (SRPE) and Santa Rosa District Schools (SRDS) began collaborating several years ago to develop an innovative instructional evaluation instrument. In accordance to F.S.1012.34, it was our collective intent to create an electronic based document that would meet state requirements and local needs. Both parties strived to develop a document that reflected evidence of instructional accountability of the Florida Educators Accomplished Practices with application of Mazano’s theories. Theories which were meant to enhance instruction for students by assisting teachers in continuous quality improvement of their professional skills. Additionally, we formulated a document that encompassed student learning growth segments, school-wide parent and student involvement, and deliberate practices.

The prevailing challenge has been to link student growth data on statewide assessments to teacher performance. We have been aware of the need to effectively utilize the value added measures formula. We aimed to be reasonable, while applying practical measures for the instructional personnel that are affected by this process or development of this instrument.

This is a fluid document that is always in transitional state. The main success in our district has been Santa Rosa District’s continued willingness to keep open dialogue, along with the recognition of the needed transparency in this process with Santa Rosa Professional Educators.

Sincerely,  
*Rhonda Chavers*

**Santa Rosa District Schools  
Teacher Evaluation System**

**Explanation of Terms**

Academic Performance- Term which includes student learning growth, achievement level, and learning gains.

Artifacts – Copies of student work or teacher produced products that are used to support learning in the classroom.

Assessment – Measurement of student achievement.

CELLA – Comprehensive English Language Learners Assessment

Deliberate Practice – Implementing specific research based strategies to target student growth.

Design Questions – There are nine design questions used in Robert Marzano’s The Art and Science of Teaching. These questions help organize the key strategies in Domain One that are part of his model.

Developing – This is a final overall evaluation category which is above “unsatisfactory” but below “effective.” It is to be used with Level I and Level II teachers. The “developing” rating would not result in performance pay.

Domains – There are four domains as part of Robert Marzano’s The Art and Science of Teaching. Domain one is the largest area of his organization model.

Effective – This is a final overall evaluation category just below “highly effective.” This rating would qualify for performance pay.

End of Course Exam (EOC): Assessment administered at the end of a course of study. Typically this will be at the end of a semester or year long course. EOCs may be developed and required by the state for specific courses or may be locally developed for courses that do not have a state EOC associated with them.

Florida Alternative Assessment (FAA) – This is the test used to measure learning gains with our most challenged ESE students. The results from this test will be used to measure our ESE teachers.

Florida State Assessment (FSA) – This is a major test used to measure student performance in the State of Florida core area classes.

Florida Educator Accomplished Practices (FEAPs) – These are the practices identified by Florida Department of Education, which all teachers are expected to demonstrate as professional educators. The evaluation system (Marzano Model) is designed to measure these practices.

Highly Effective – This is the highest category on the overall teacher evaluation system. This rating would qualify the teacher for performance pay.

**Instructional Assignment: The type of instructional support an instructor provides for students. It is defined by 1 of 4 types:**

**Direct: An assessment is tied directly to a course. For example, a student is in a reading course and takes the state reading assessment. The instructor serves as the primary instructor responsible for the course standards. The student academic performance data used in this instructor’s student performance evaluation data is limited to the students assigned to the instructor.**

**Student Support Instructors: This includes instructors that provide academic support for specific students within a course but are not the responsible instructor. The student academic performance data used in this instructor’s student performance evaluation data is limited to the students assigned to the instructor.**

**School Wide: This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school. The data used is based upon all school academic performance measurements that have been approved and are appropriate for the assignment.**

District: This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators for the district. The data used is based upon all school academic performance measurements that have been approved and are appropriate for the assignment.

Instructional Personnel – Any teacher in the school district. This includes not only classroom teachers, but also media, guidance, deans, TSAs, liaisons.

Job Code: Each employment position is assigned a job code which describes their job title and the students included in their student performance portion of their evaluation. Each job code is classified as receiving a “C” for Classwide Score (these instructors have a student roster indicating the specific students that will count as part of their student performance score) “S” for Schoolwide Score, or “D” for Districtwide score for calculating the instructor’s student performance score.

Key Strategies – These are the basic measurements used in the Marzano model of The Art and Science of Teaching.

Lesson Segments – This is how a lesson is divided in the Marzano Model – The Art and Science of Teaching. Lessons can be one of three types: Involving routine events, addressing content or enacted on the spot. Many lessons have a combination of these segments.

Marzano, Robert – A leading authority in the field of teacher evaluation and observations. His model, The Art and Science of Teaching, provides the philosophy of our evaluation system.

Needs Improvement – This is a final overall evaluation rating. It is above “unsatisfactory” but below “effective.” It does not qualify for performance pay. For teachers at Level III – V, this rating replaces “developing” as a rating.

Observation (Formal) – At least thirty minutes in length, scheduled and preceded by a meeting between teacher and administrator, and followed up by a post-conference.

Observation (Informal) – Between five and ten minutes in length, not scheduled, (but during the scheduled work day), and no pre- or post-conference required. Each teacher should receive one informal observation each quarter of the school year and during scheduled work time.

Peer Assistant Program – The district provides a mentor (trained veteran teacher) to help the teacher work on their Professional Improvement Plan.

Performance Level – Refers to how a student does on the state assessment such as FCAT.

Pre-Observation Conference – Meeting between teacher and administrator to discuss the upcoming formal observation and what the lesson is designed to cover

Post-Observation Conference – Meeting held within forty-eight hours of a formal observation. Teacher brings self-evaluation to this meeting and the administrator reviews their notes from the observation. The purpose of this meeting is to help the teacher become more effective.

Professional Development Plan (PDP) – All teachers complete a PDP each year and completion of the plan will count ten percent of their overall evaluation. The plan should consider student learning goals, the school improvement plan, and focus on the teacher’s professional development.

Proficiency Level (1) Student – This refers to student results on state wide assessments where learning gains are not measured. Example: FCAT Writes

Proficiency Level (2) Teacher – This outlines the graduated expectations of performance of a teacher as they move from Instructional Personnel I to Instructional Personnel IV.

Studer Group – Research group that supports the Santa Rosa School District in various ways including conducting and interpreting surveys and providing leadership training.

Tally – Refers to each recording by the administrator during observations or interactions with teachers. The total of these tally marks is used along with the proficiency scale to determine a teacher’s effectiveness in the classroom.

TrueNorthLogic – This is a company the Santa Rosa School District works with to provide our evaluation system in an electronic format. This company will work with us to incorporate the student assessment data to complete teacher evaluations.

Unsatisfactory – This is the lowest overall rating on the teacher evaluation system. It does not qualify for performance pay.

## Santa Rosa District Schools Instructional Evaluation System

### Overview of System

In school year 2010-2011, the State of Florida and Santa Rosa District Schools received the Race to the Top grant which required major revisions of the Instructional Evaluation System. This same year, the Florida legislature passed the Student Success Act which required all school districts in Florida to rewrite their Instructional Evaluation System and count student learning as 50% of each teacher's evaluation. This document is the result of the Santa Rosa District School's efforts to comply with these requirements.

In preparation for this project, the Florida Department of Education sponsored a series of statewide webinars and multiday academies for teacher evaluations. Santa Rosa District Schools participated in each one of these activities and also attended a workshop held in Tallahassee conducted by Charlotte Danielson, a noted authority on teacher evaluation. These webinars and academies focused on the research into teacher evaluations. Santa Rosa also participated in the Leading the Way Conference sponsored by Hillsborough County in 2011. The State of Florida adopted Robert Marzano's model and gave each district the flexibility to choose either the Marzano model, Danielson model, or some variation or combination of the two. Santa Rosa District Schools decided to adopt the Marzano model with some revisions. The District also consulted with the Studer Group throughout the development of this new evaluation system. The District has also consulted with True North Logic, a company we currently work with to provide our evaluation system online. The District plans will be to use this online delivery system with our new evaluation system.

To complete the writing and construction of the Instructional Evaluation System the Santa Rosa District School's appointed a committee of teachers and administrators. This committee included:

~~Vickie Beagle, Director of Inservice and Instructional Technology~~  
~~Kim Berry, Personnel Assistant, Human Resources~~  
Debbie Anderson, Deputy Director Exceptional Student Education  
Michele Brown, Academic Intervention Specialist, Pea Ridge Elementary  
~~Conni Carnley, Director of Employee Evaluations and Accountability~~  
~~Rhonda Chavers, President of Santa Rosa Professional Educators~~  
~~Susan Crawford, Language Arts Teacher, Central School~~  
~~Sandi Eubanks, Principal, West Navarre Primary School~~  
~~David Godwin, Mathematics Teacher, Pace High School~~  
~~David Gunter, Director of Middle School Education~~  
Amanda Makar, Assistant Principal, Hobbs Middle School  
~~David Johnson, Coordinator of Continuous Improvement~~  
~~Sharon Patrick, Principal, Sims Middle School~~  
~~Beverly Ransom, Kindergarten Teacher, Holley Navarre Primary School~~  
~~Pam Smith, Director of Elementary Education~~  
Jason Weeks, Principal, Gulf Breeze High School  
Liz West, Principal, Holley Navarre Intermediate  
~~Cathy Wray, ESE Teacher, Milton High School~~

In addition to attending the webinars and academies, this committee met several times including full day and evening meetings. This document will be presented to the Santa Rosa School Board for approval in May 2011 before being submitted to the Department of Education for approval in June 2011. Training for teachers and administrators

~~will take place in July and August of 2011 with implementation to begin in the school year 2011-2012.~~ This committee will meet each summer to make revisions to the system as needed.

### Philosophy

The purpose of the new teacher evaluation system is to improve student learning and to guide professional development for teachers. In selecting the Marzano model over other options, Santa Rosa District Schools preferred the focus on classroom strategies and behavior. This approach best fits the philosophy of the Santa Rosa District School system. In this model more than 60% of the section of the evaluation the administrator completes on the teacher focuses on what happens in the classroom. Dr. Marzano's model divides the art of teaching into four domains: Domain (1) – Classroom Strategies, Domain (2) – Planning and Preparing, Domain (3) – Reflecting on Teaching, and Domain (4) – Collegiality and Professionalism. This model is summarized in **Attachment "A"**. The legislative requirements of the Student Success Act require the new evaluation system to measure the Florida Educator Accomplished Practices (FEAPs) adopted in January 2011. A copy of the FEAPs is included as **Attachment "B"**. To document that Dr. Marzano's model measures the FEAPs, a crosswalk has been developed which is included in this document as **Attachment "C"**.

### Teacher Levels

For purposes of grouping teachers together so the observation process is as efficient as possible, Santa Rosa District School has divided its teachers into one of four levels.

**Instructional Personnel I** – Beginning teachers in their first year of teaching in Santa Rosa District Schools; these teachers will be formally observed once in the fall and once in the spring and an overall evaluation will be given near the end of each semester.

**Instructional Personnel II** – Teachers in the second and third year of teaching with an effective or highly effective evaluation; teachers will receive two formal observations (one in the fall and one in the spring) and an overall evaluation in the spring.

**Instructional Personnel III** – Teachers in the fourth through ninth year of teaching with an effective or highly effective evaluation; these teachers will be formally observed once during the school year and receive an overall evaluation in the spring.

**Instructional Personnel IV** – Teachers with more than nine years of teaching with an effective or highly effective evaluation; these teachers do not have to be formally observed during a school year unless their certificate is up for renewal. During that year, they will receive one formal observation. These teachers receive an overall evaluation in the Spring. IP IV instructors that do not require a formal observation will have their overall observation scores based upon the informal observations conducted during the current school year.

\*The Instructional Levels are included in **Attachment "D"**.

\*Veteran teachers new to Santa Rosa District School will be required to have two formal observations during their first year in the district.

\* Every teacher, regardless of category, should be informally observed at least once every nine weeks during the school year (See "Informal Observations/Interactions".)

\*Instructional personnel must have the minimum number of Effective or Highly Effective overall evaluations ratings to move from one IP level to the next. If an instructor, regardless of IP level receives a Need/ Improvement or Unsatisfactory Evaluation rating, he/she will be placed on Professional Improvement Plan (see Professional Improvement Plan section) and is not eligible to move forward in the Instructional Level system. Failure to satisfactorily complete the Professional Improvement Plan may result in termination of the employee. Any IP Level IV instructor who receives an Unsatisfactory or Needs Improvement overall evaluation rating will be required to have a formal observation for the current year regardless of their certificate renewal date.

### Observations

It is the philosophy of the Santa Rosa District Schools that school administrators should be proactive in their approach to teacher observations and interactions. Administrators should spend as much time as possible in the classrooms observing teachers interacting with students. To help enable them in this process, the District will provide each administrator with an iPad with access to all observation documents beginning with the 2011-2012 school year. This will make the record keeping task more manageable for the administrators as they increase the number of formal and informal observations. To enable the administrator to manage the observation in an efficient effective manner, the observation tool will be digitized and the administrator should use this format of recording observations electronically. Each teacher will be observed and evaluated by their school principal unless the principal delegates that responsibility to an assistant principal. If the principal does delegate this responsibility the principal will still be responsible for reviewing the evaluation before it is finalized. An administrators marks must be based on what the administrator witnesses during a formal or informal observation or during pre/post observation conferences.

### Observation Ratings

When completing each section of the observation, the following ratings will be used:

Highly Effective	4.0
Effective	3.0
Needs Improvement/Developing	2.0
Unsatisfactory	1.0

Unsatisfactory is the lowest overall rating on the employee evaluation system. An overall evaluation of unsatisfactory does not qualify for a level increase. Any mark of unsatisfactory below effective on the evaluation instrument must have supporting comments and any mark of unsatisfactory must indicate ways for the employee to improve.

Formal Observations – These are observations that have been mutually agreed upon by the teacher and administrator as to date and time of the observation. They should last at least thirty minutes in length. Each formal observation shall be preceded by a pre-observation conference. Following each formal observation, there shall be a post observation conference which should occur within 48 hours of the observation. In this post observation conference, the teacher will bring a self-assessment of the observation. The administrator and teacher will then review and discuss their perspective on the lesson observed.

Should an administrator determine a formal observation is preferred on a teacher, the administrator will inform the teacher and a mutually agreed upon date and time will be determined for the observation to take place. may require a formal observation as long as the dates and time are mutually agreed upon. A teacher who is not required to have formal observations may request that one be done as part of their annual evaluation. Pre and Post Observation Conferences shall be individual face to face meetings unless the employee waives the face to face meeting in writing to the principal.

Informal Observations/Interactions – These are unscheduled and generally last about five minutes to ten minutes in length. It is within the administrator's authority to decide to stay longer than five minutes if appropriate, but the informal observation should not last longer than 25 minutes. If the administrator feels the need to stay longer than 25 minutes, a formal observation should be scheduled with the classroom teacher. Informal observations/interactions can also take the form of a classroom walkthrough, conversation in the hallway or office, parent conference, or any other setting which allows the administrator to observe the teacher performing their responsibilities.

Every teacher, regardless of category, should be informally observed at least once every nine weeks during the school year.

Observation Documents, including the detailed rubric for the Observation Instrument, are included as **Attachment "E"**.

### Domain Weights

Santa Rosa District Schools modifies the Marzano model of 41 elements to address them in 18 elements that make up the Santa Rosa District Schools FEAPs Observation Tool (SRDSFOT, See the crosswalk in **Attachment “C”** noting the inclusion of where the Santa Rosa District Schools FEAPs Observation Tool (SRDSFOT) addresses the FEAPs and Marzano elements using a numbered system for the SRDSFOT located in **Attachment “E”**.) An effort was made to keep the percentage of elements measured by each domain near the Marzano model. **The Santa Rosa District Schools version includes the following percentage of total elements (18) included in each Domain:**

Domain I	Classroom Strategies and behaviors	61%	(11 of 18 elements)
Domain II	Planning and Preparing	17%	(3 of 18 elements)
Domain III	Reflection on Teaching	5%	(1 of 18 elements)
Domain IV	Collegiality and Professionalism	17%	(3 of 18 elements)

### Proficiency Scale for all Instructional Personnel Levels I thru IV

This scale will be used as part of the Marzano model when completing Section III of the teacher evaluation.

### Proficiency Scale for Santa Rosa District Schools All Levels of Instructional Personnel

IPI	Highly Effective (4)	Effective (3)	Developing (2)	Unsatisfactory (1)
D1:	At least <del>50</del> 55% at Level 4 and <del>0%</del> at Level 1	At least 50% at Level 3 or higher	Less than 50% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1
D2:				
D3:				
D4:				
IPII	Highly Effective (4)	Effective (3)	Developing (2)	Unsatisfactory (1)
D1:	At least <del>60</del> 65% at Level 4 and <del>0%</del> at Level 1	At least 60% at Level 3 or higher	Less than 60% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1
D2:				
D3:				
D4:				
IPIII	Highly Effective (4)	Effective (3)	Developing (2)	Unsatisfactory (1)
D1:	At least <del>70</del> 75% at Level 4 and <del>0%</del> at Level 1	At least 70% at Level 3 or higher	Less than 70% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1
D2:				
D3:				
D4:				
IPIV	Highly Effective (4)	Effective (3)	Developing (2)	Unsatisfactory (1)
D1:	At least <del>80</del> 85% at Level 4 and <del>0%</del> at Level 1	At least 80% at Level 3 or higher	Less than 80% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1
D2:				
D3:				
D4:				

**\*Beginning in the 2015-16 school year, the Categories for FEAPs evaluation will be changed from Highly Effective (4), Effective (3), Developing/Need Improvement (2) and Unsatisfactory (1) to Innovating (4), Applying (3), Developing (2), and Not Using (1) respectively.**

This Proficiency Scale for Santa Rosa District Schools All Levels of Instructional personnel is also included as **Attachment “F”**.

### Evaluation Instrument Organization

The Santa Rosa District Schools Teacher Evaluation Instrument is organized into six sections. These sections are listed below including the assigned percentages for each and a timeline for that section.

#### Self-Assessment:

In this section the employee will complete a self-assessment regarding their performance of the FEAPs.

### Verify Assignments

In this section the employee will complete demographic data and review their teaching assignment and teaching location. They will also verify the assessments/percentages to be used in their annual evaluation.

Surveys

This section will include two surveys – Parent and Student. These surveys will be conducted near the end of each school year. The school wide results from the end of the year survey will be used on the teacher evaluation. In these surveys, the parents and the students will answer questions concerning their school. In order to address the reading comprehension level of the students, the student surveys will be divided into two levels: Elementary, Middle/High. A copy of each survey is included as **Attachment “G”**. Each survey will count 5% of the teacher evaluation for a **total of 10% of the overall evaluation**. These surveys were constructed with the help of the Educator Ready a division of the Studer Group. The Studer Group is also responsible for conducting the surveys and providing the results. Their consultants will also provide feedback and discussion with district level administrators regarding survey results. More information about the Studer Group and the services they provide are included in **Attachment “H”**. The data from the end of the year surveys should be available by June 1 of each school year.

Head Start and pre-K students will not complete a student survey. Teachers of these students will count parent survey results as 10% of their evaluation. The parents of students at Santa Rosa Adult School and Locklin Technical Center **and Santa Rosa Youth Academy** will not complete surveys. Teachers of these students will count student survey results as 10% of their evaluation.

The Studer Group’s research with surveys is based on a 5.0 scale: 1=Strongly Disagree, 2=Disagree, 3=Neutral, 4=Agree, 5=Strongly Agree. The Studer Group believes changing the scale would not support the research conducted on surveys. The state of Florida’s evaluation system is based on a 4.0 scale: 1=Unsatisfactory, 2=Needs Improvement, 3=Effective, 4=Highly Effective. In order to use the results of the Studer surveys (student, parent, employee and principal) we will use the following conversion scale.

<u>Studer Group School Wide Survey Results</u>	<u>Evaluation Score</u>
4.00 – 5.00	Highly Effective (4.0)
2.75 -3.99	Effective (3.0)
2.00 – 2.74	Needs Improvement (2.0)
Below 2.00	Unsatisfactory (1.0)

Date Certain

~~For purposes of identifying which school’s data is to be used in the case of a teacher who transfers during the middle of a school year, the date certain will be May 1 of that school year. Whichever school the teacher is working at on this date is the data that will be used. Example: Student and parent survey data.~~

Professional Development Plan

Every educator in the Santa Rosa District School system is required to complete a professional development plan. These plans are initiated by the end of the first quarter of the school year. The administrator will evaluate the professional development plan. This section of the evaluation should be completed by June 1 of each school year. **This section will count 10%** of the overall teacher evaluation. **Best practice is that the professional development plan be individualized for specific growth of the individual teacher.** See Section II **in Attachment “O” (Sample Evaluation)** of the Evaluation Instrument for a copy of the Professional Development Plan.

Administrator’s Evaluation of the Florida Educator Accomplished Practices (FEAPs)

This section of the evaluation is where the administrator is measuring the teacher’s implementation of the Florida Educators Accomplished Practices. This section is based on the Marzano model and will total the data collected from formal and informal observations and other teacher interactions to determine **effectiveness performance level**. **This section will count 30%** of the overall evaluation and should be completed by June 1 of each school year. See Section III of the Evaluation Instrument **in Attachment “O” (Sample Evaluation)** to see a copy of how this section is totaled.

## Student Performance

**This section will count 50%** of the total teacher evaluation. This section will be completed as soon as the data has been received and appropriately processed according to the negotiated method. It is to all employee's benefit that this process is completed in a timely manner. ~~within two weeks of the date the district receives the information from the State . We will use up to three years of data when available or any years less than that when calculating scores.~~ This section will count the full 50% for all teachers regardless of the number of years of data available. ~~To help understand which assessments will be used at each grade level and what percentages would be used, Santa Rosa District Schools brought all school principals together by grade levels to make a suggestion as to how we would propose implementing this section for school year 2011-2012. For the 2013-14 school year, the assessments and assignment of assessment scores reflect the current legislative requirements based upon the students that teachers serve with regard to their instructional assignment.~~ An employee's assignment is identified by a job code. Each job code is classified as receiving a "C" for Classwide Score (these instructors have a student roster indicating the specific students that will count as part of their student performance score) "S" for Schoolwide Score, or "D" for Districtwide score for calculating the instructor's student performance score (See Attachment "I"). Each job code is further identified by type regarding the instructional services they provide and which students count as part of the instructor's student performance score. The types of instructional assignments are as follows: A teacher's assignment is categorized as one or more of the following with regard to the type of student performance score they receive:

**Direct:** An assessment is tied directly to a course. For example, a student is in a reading course and takes the state reading assessment. The instructor serves as the primary instructor responsible for the course standards. The student academic performance data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

**Indirect:** There is an assessment tied indirectly to a course. For example : a student in a Social Studies course which does not have a direct assessment; however, the student takes the state assessment. Therefore the state assessment is tied indirectly to the Social Studies course. The instructor serves as the primary instructor responsible for the course standards. The student growth measurement data used in this instructors student performance evaluation data is limited to the students assigned to the instructor.

**Student Support Instructors:** This includes instructors that provide academic support for specific students within a course but are not the responsible instructor. The student academic performance data used in this instructors student performance evaluation data is limited to the students assigned to the instructor.

**School Wide:** This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school. The data used is based upon all school academic performance data that have been approved and are appropriate for the assignment.

**District:** This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators for the district. The data used is based upon all school academic performance data that have been approved and are appropriate for the assignment.

Santa Rosa County District Schools Guidelines for Local Assessments, Board Approved 8/21/2014, describes the selection process, development, administration, and scoring of local assessments.

Each course assigned to an instructor will have an associated assessment. For all courses that have a state assessment provided, that assessment will be used. For all other courses, a local End of Course assessment will be developed/determined. All students scheduled for a course will take the assessment associated with the course. Each student will receive an assessment "Raw Score" which will utilize a conversion scale that has been developed based upon specific content that will return a "Scaled Score" of a 1, 2, 3 or 4. (See Attachment "J")

Students who are identified due to special considerations such as SWD (Students with Disabilities), ELL (English Language Learners), or students at alternative schools that take local end of course exams will use an alternate conversion scale to return a scale score of 1, 2, 3 or 4. Each student's scaled score will be used as part of the teacher's student performance score unless they have been removed from the Roster Verification Tool due to failure to meet following minimum attendance requirements:

For a year-long course: The student must be present for both Survey 2 & 3 in the same instructor's course and be membership (enrolled) in the class for a minimum of 90% of the number of days the course/section is scheduled to meet and have less than 10 days of absences during each semester.

For semester courses: the student must be in membership (enrolled) during the FTE Survey period of the course and a minimum of 90% of the number of days a course/section is scheduled to meet and have less than 10 days of absences during the semester.

Required use of a state assessment VAM score will be utilized as, each student's final raw score will equal the teacher's VAM score which will then utilize a scale to return a score converted to a scaled score of 1,2, 3 or 4. There are no alternative scales associated with the VAM score since the VAM calculation takes into consideration student factors that can impact student performance.

Courses that have an associated assessment that returns a required VAM score for the teacher will utilize a scale to convert the VAM score to a 1,2,3, or 4. Each student assigned to the teacher in the course will receive the teacher's scaled VAM score as their converted assessment score. There are no alternative scales associated with the VAM score since the VAM calculation takes into consideration student factors that can impact student academic performance.

Once students receive a converted scale score, each student's score for a specific instructor's course will be added together. The sum of the student's scores which are associated with an instructor will be divided by the total number of student scores included in the sum. The result will equate to the instructor's overall student performance score. The instructor's overall student performance score will count as 50% of the instructor's overall evaluation score.

An example of an instructor's student performance calculation is included in **Attachment "K"** as well as a flow chart showing the process of including student scores in an instructor's student academic performance score.

**Attachment "L"** Provides a list of Student Academic Performance Measures utilized in the calculation of student performance.

The "Santa Rosa County District Schools Guidelines for Local Assessments", Board Approved 8/21/2014, describes the selection process, development, administration, and scoring of local assessments. This document will be reviewed annually.

The documents listed under **Attachment I** shows how each teacher would be evaluated based upon the type of position they are assigned to. Much time was spent in discussion between "proficiency level" and "performance level". Some assessments only provide one or the other. These assessments and percentages were reviewed by the Santa Rosa Professional Educators. For local student performance measurement tools (such as DEA), the district will annually review the availability of practice tests for instructor and student use.

#### Defaults/ Reassignment/Redistribution

Many of our job titles have multiple assessments. There is a possibility some job titles could include an assessment with no students being assessed.

In the event that an instructional employee has no scores for a particular assessment, the instructor will receive a default school wide score. This list of default scores will be provided once a determination/agreement is made on the most appropriate school wide default score to use depending on the "zero" score return. In the event that an

instructional employee does not return a VAM score ( this is for instructors of K-2 and 11<sup>th</sup> and 12<sup>th</sup> grade courses predominantly as well as instructional personnel that provide student support in classrooms but are not the instructor of record and these instructors typically are not in the classroom for the entire class period) the instructor will receive the “Local” FCAT Learning Gain Score for Reading and Math “ for the students he/she is assigned.

For instructors assigned to a course that is associated with the FCAT assessment and return a VAM score, the VAM score will be the only assessment score used to determine the teacher’s student performance score for that course. Use of any local assessment in conjunction with the VAM score to determine a teacher’s student performance score for a course that returns a VAM score is prohibited.

### Overall Evaluation

This section totals the scores for the Professional Development Plan, surveys, student performance, and the FEAPs and identifies an overall annual evaluation. This section will be completed as soon as the data has been received and appropriately processed according to the negotiated method. It is to all employee’s benefit that this process is completed in a timely manner. ~~This section will be completed within two weeks of the date the district receives student performance data from the state. In the event that there is a delay in completing this section, instructional personnel will be notified what the cause of the delay is and an anticipated completion date.~~

The administrator must provide access to a copy of the evaluation to the teacher within 10 days of the completion of the evaluation. The administrator will be available to discuss the overall evaluation with the teacher at an agreed upon meeting time. The teacher shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file. ~~The administrator may amend an evaluation based upon assessment data from the current school year if the data becomes available 90 days after the close of the school year.~~

To determine the overall evaluation, each section will be totaled and weighted using the assigned percentages. The total evaluation will use the following ratings to determine the overall evaluation:

Highly Effective	4.00 – 3.50
Effective	3.49 – 2.25
Needs Improvement/Developing	2.24 – 1.75
Unsatisfactory	Below 1.75

The Santa Rosa District Schools will continue to work ~~with TrueNorthLogic during the 2011-2012 school year to improve the~~ create an electronic version of this Instructional evaluation. ~~More information concerning TrueNorthLogic is included as Attachment K.~~

A sample of the Santa Rosa Districts Schools Evaluation Document is located in **Attachment “O”** along with a completed sample .

### Instructional Personnel I – First Semester Evaluation

All first year teachers and teachers new to Santa Rosa District Schools will be assigned as Instructional Personnel Level I. This level requires two evaluations – one at the end of the first semester and one at the end of the school year. The second evaluation will use the instrument as all other instructional levels and include section IV with student performance. The first evaluation is different due to the fact that the evaluation takes place in the middle of the school year. A separate instrument is used for First Semester Evaluations. **See Attachment “P”** for a copy of the First Semester Evaluation Form. It includes a section on initiation of the Professional Development Plan (20%) and a section measuring the Accomplished Practices using the modified Marzano model (80%).

In addition to the two evaluations for first year teachers ~~and the observations/feedback provided as part of that process,~~ they also go through our Professional Orientation Program. As part of this process they are assigned a support team of three members: an administrator, peer educator and other educator. This team meets several times during the year, helps the new teacher build and maintain a portfolio documenting their work on the accomplished practices and conducts a minimum of six formal observations and four informal.

#### Teachers On Leave of Absence, Interim Teachers, Teachers Working Less Than Full Time, Evaluation Assignment Date

An evaluation will be completed on teachers who are on a leave of absence or interim teachers if they work a minimum of 99 days during the school year. If they work less than 99 days during a school year, no annual evaluation will be completed.

If a part-time teacher works the equivalent of 3.75 hours or less per day, an annual evaluation is not required. If a part-time teacher works the equivalent of more than 3.75 hours per day, an annual evaluation will be required.

In circumstances in which an instructor has a different year long teaching assignment for FTE Survey 2 & 3, the instructor's student performance data and stakeholder survey data will be determined based upon the teaching assignment they are assigned to for a minimum of 99 days.

#### Professional Improvement Plan/Peer Assistance Program

Any returning teacher who receives an overall evaluation rating of needs improvement or unsatisfactory the previous year will be placed on a Professional Improvement Plan and receive assistance through our Peer Assistance Program. This improvement plan will ~~spell~~ **identify** ~~out the~~ deficiencies in performance and outline a plan for improvement. The teacher needing assistance will select a peer mentor from a district approved list. This mentor will not work at the school site of the teacher needing assistance. This peer mentor will be given release time to work with the teacher when planning and observing the teacher during classroom instruction. The peer mentor will not be involved in the evaluation process and will help the teacher meet the goals of the Professional Improvement Plan. Teachers who are identified by the Principal as in need of a Professional Improvement Plan may be placed on one at any time during the school year. These plans should be specific in the nature of the area(s) of improvement and should be limited to less than the length of a school year. See **Attachment "M"** for a copy of the Professional Improvement Plan.

Currently the District Mentor Teacher Program provides initial mentor training for new mentors as well as annual training for all district Mentors. Initial training consists of an online 12 hour module (BEACON Learning Center) and is a requirement to be a Mentor Teacher. The online module provides an introductory research-based model for mentoring. Annual Mentor Training is provided by District staff and consultants for 1-2 days each year to share best practices in mentoring, review surveys provided by mentees, plan New Employee Orientation curriculum, and to provide face-to-face training for district-wide initiatives. In addition, online book studies are offered to Mentor Teachers to provide follow up in areas of interest.

#### Notification of Unsatisfactory Performance

If an employee who holds a professional service contract as provided in s.1012.33 is not performing his or her duties in a satisfactory manner, the evaluator shall notify the employee in writing of such determination. The notice must describe such unsatisfactory performance and include notice of the following procedural requirements:

- (a) Upon delivery of a notice of unsatisfactory performance, the evaluator must confer with the employee who holds a professional service contract, make recommendations with respect to specific areas of unsatisfactory performance, and provide assistance in helping to correct deficiencies within a prescribed period of time.
- (b) The employee who holds a professional service contract shall be placed on performance probation and governed by the provisions of this section for 90 calendar days following the receipt of the notice of unsatisfactory performance to demonstrate corrective action. School holidays and school vacation periods are not counted when calculating the 90-calendar-day period. During the 90 calendar days, the employee who holds a professional service contract must be evaluated periodically and apprised of progress achieved and must be provided assistance and in-service training opportunities to help correct the noted performance deficiencies. At any time during the 90 calendar days, the employee who holds a professional service contract may request a transfer to another appropriate position with a different supervising administrator; however, if a transfer is granted pursuant to ss. 1012.27(1) and 1012.28(6), it does not extend the period for correcting performance deficiencies. Within 14 days after the close of the 90 calendar days, the evaluator must evaluate whether the performance deficiencies have been corrected and forward a

recommendation to the district school superintendent. Within 14 days after receiving the evaluator's recommendation, the district school superintendent must notify the employee who holds a professional service contract in writing whether the performance deficiencies have been satisfactorily corrected and whether the district school superintendent will recommend that the district school board continue or terminate his or her employment contract. If the employee wishes to contest the district school superintendent's recommendation, the employee must, within 15 days after receipt of the district school superintendent's recommendation, submit a written request for a hearing. The hearing shall be conducted at the district school board's election in accordance with one of the following procedures:

- a. A direct hearing conducted by the district school board within 60 days after receipt of the written appeal. The hearing shall be conducted in accordance with the provisions of ss.120.560 and 120.57. A majority vote of the membership of the district school board shall be required to sustain the district school superintendent's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment; or
- b. A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings of the Department of Management Services. The hearing shall be conducted within 60 days after receipt of the written appeal in accordance with chapter 120. The recommendation of the administrative law judge shall be made to the district school board. A majority vote of the membership of the district school board shall be required to sustain or change the administrative law judge's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment.

#### Employment

Beginning July 1, 2011, annual contracts will not be offered to teachers who have received two consecutive annual performance evaluation ratings of unsatisfactory, two annual performance evaluation ratings of unsatisfactory within a 3-year period, or three consecutive annual performance evaluation ratings of needs improvement, or a combination of needs improvement and unsatisfactory under s.1012.34.

A professional service contract shall not be renewed if the teacher receives two consecutive annual performance evaluation ratings of unsatisfactory under s.1012.34, two annual performance evaluation ratings of unsatisfactory within a 3-year period under s.1012.34, or three consecutive annual performance evaluation ratings of needs improvement or a combination of needs improvement and unsatisfactory under s.1012.34.

#### Training Requirement for Administrators and Teachers

New administrators will be trained annually on the new evaluation system. This will include training on the observation process including viewing clips of effective teaching, practicing marking and totaling the evaluation instrument, reviewing the surveys used and data collected, and the writing and evaluation of the Professional Development Plan. Administrators who used the system the previous year will receive a review of the evaluation system. New teachers will be trained during new employee orientation. Experienced teachers will receive updates and reviews of the system during pre-planning by the site based administrator. The section on student performance will require in depth analysis and will be a part of all district level discussion as we continue with this process through the development of end of course exams and full implementation in school year 2014-2015.

In July 2011, Santa Rosa District Schools will attend the state sponsored academy to help plan for the training and orientation of our employees to this new evaluation system. As of this date we have contacted Discovery Education and PD360 to help with our initial training of administrators who will in turn train their faculties. This training will focus on the research base, use of iPad in the observation process, and an understanding of the evaluation instrument and timelines. We will also work with Truenorthlogic to implement this evaluation instrument online.

## Florida Educator Accomplished Practices

## Florida Educator Accomplished Practices

### (1) Purpose and Foundational Principles.

(a) Purpose. The Educator Accomplished Practices are set forth in rule as Florida's core standards for effective educators. The Accomplished Practices form the foundation for the state's teacher preparation programs, educator certification requirements and school district instructional personnel appraisal systems.

(b) Foundational Principles. The Accomplished Practices are based upon and further describe three essential principles:

1. The effective educator creates a culture of high expectations for all students by promoting the importance of education and each student's capacity for academic achievement.
2. The effective educator demonstrates deep and comprehensive knowledge of the subject taught.
3. The effective educator exemplifies the standards of the profession.

(2) The Educator Accomplished Practices. Each effective educator applies the foundational principles through six (6) Educator Accomplished Practices. Each of the practices is clearly defined to promote a common language and statewide understanding of the expectations for the quality of instruction and professional responsibility.

#### (a) Quality of Instruction.

1. Instructional Design and Lesson Planning. Applying concepts from human development and learning theories, the effective educator consistently:

- a. Aligns instruction with state-adopted standards at the appropriate level of rigor;
- b. Sequences lessons and concepts to ensure coherence and required prior knowledge.
- c. Designs instruction for students to achieve mastery;
- d. Selects appropriate formative assessments to monitor learning;
- e. Uses a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, adjust planning and continuously improve the effectiveness of the lessons; and
- f. Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies.

2. The Learning Environment. To maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative, the effective educator consistently:

- a. Organizes, allocates, and manages the resources of time, space, and attention;
- b. Manages individual and class behaviors through a well-planned management system;
- c. Conveys high expectations to all students;
- d. Respects students' cultural, linguistic and family background;
- e. Models clear, acceptable oral and written communication skills;
- f. Maintains a climate of openness, inquiry, fairness and support;
- g. Integrates current information and communication technologies;
- h. Adapts the learning environment to accommodate the differing needs and diversity of students; and
- i. Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals.

3. Instructional Delivery and Facilitation. The effective educator consistently utilizes a deep and comprehensive knowledge of the subject taught to:

- a. Deliver engaging and challenging lessons;
- b. Deepen and enrich students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter;
- c. Identify gaps in students' subject matter knowledge;
- d. Modify instruction to respond to preconceptions or misconceptions;

- e. Relate and integrate the subject matter with other disciplines and life experiences;
  - f. Employ higher-order questioning techniques;
  - g. Apply varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding;
  - h. Differentiate instruction based on an assessment of student learning needs and recognition of individual differences in students;
  - i. Support, encourage, and provide immediate and specific feedback to students to promote student achievement; and
  - j. Utilize student feedback to monitor instructional needs and to adjust instruction.
4. Assessment. The effective educator consistently:
- a. Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process;
  - b. Designs and aligns formative and summative assessments that match learning objectives and lead to mastery;
  - c. Uses a variety of assessment tools to monitor student progress, achievement and learning gains;
  - d. Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge;
  - e. Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s); and
  - f. Applies technology to organize and integrate assessment information.
- (b) Continuous Improvement, Responsibility and Ethics.
- 1. Continuous Professional Improvement. The effective educator consistently:
    - a. Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs;
    - b. Examines and uses data-informed research to improve instruction and student achievement;
    - c. Collaborates with the home, school and larger communities to foster communication and to support student learning and continuous improvement;
    - d. Engages in targeted professional growth opportunities and reflective practices, both independently and in collaboration with colleagues; and
    - e. Implements knowledge and skills learned in professional development in the teaching and learning process.
  - 2. Professional Responsibility and Ethical Conduct. Understanding that educators are held to a high moral standard in a community, the effective educator adheres to the Code of Ethics and the Principles of Professional Conduct of the Education Profession of Florida, pursuant to State Board of Education Rules 6B-1.001 and 6B1.006, F.A.C, and fulfills the expected obligations to students, the public and the education profession.

## Observation Documents

**Santa Rosa District Schools**  
**Pre Observation Conference Instrument**

This instrument will be used by all classroom and non classroom based teachers for all formal observations.

Name of Teacher \_\_\_\_\_ Name of Administrator \_\_\_\_\_

Planning Conference Date \_\_\_\_\_ Observation Date \_\_\_\_\_ Post Conference Date \_\_\_\_\_

Please attach any appropriate lesson plans, activity schedules, assessments, scoring guides, and/or rubrics to this document. Please be prepared to discuss the following questions in preparation for the planning conference.

Classroom Demographics
1. Briefly describe the students in your classroom or workspace (e.g. number of students, gender, special needs, reading levels, etc.)
Answer:
Routine Events
2. What are your learning goals for this lesson or activity?
Answer:
3. What will you do to establish or maintain an orderly learning environment?
Answer:
Content
4. What will you do to help students effectively interact with new knowledge?
Answer:
Enacted on the Spot
5. What will you do to engage students in the lesson or activity?
Answer:
6. How will this lesson or activity be organized as part of a cohesive unit?
Answer:

# Santa Rosa District Schools Observation Instrument

Name of Teacher \_\_\_\_\_ Name of Administrator \_\_\_\_\_

Informal Observation \_\_\_\_\_ Formal Observation \_\_\_\_\_

<b>Domain I – Classroom Strategies and Behaviors (11 elements)</b>				
Routine Events (3 elements)				
What does the teacher do to establish and communicate learning goals, track student progress, and celebrate success?				
1. Providing <b>clear learning goals</b> and scales to measure those goals (e.g. the teacher provides or reminds students about a specific learning goal)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
2. <b>Tracking student progress</b> (e.g. using formative assessment, the teacher helps students chart their individual and group progress on a learning goal)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
3. <b>Celebrating student success</b> (e.g. the teacher helps students acknowledge and celebrate their current status on a learning goal as well as acknowledge gain)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
Addressing Content (5 elements)				
What will the teacher do to help students to effectively interact with new knowledge?				
1. <b>Reflecting on learning</b> (e.g. the teacher asks students to reflect on what they understand or what they do not understand)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
What will the teacher do to help students deepen and practice their understanding of new knowledge?				
1. Organizing students to <b>practice and deepen knowledge</b> (e.g. the teacher organizes students into small groups to deepen knowledge of content)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
What does the teacher do to help students generate and test hypotheses about new knowledge?				
1. <b>Organizing students</b> for cognitively complex tasks (e.g. the teacher organizes students into small groups to facilitate cognitively complex tasks)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
2. <b>Engaging students</b> in cognitively complex tasks (e.g. the teacher engages students in decision-making tasks, problem solving tasks, experimental inquiry tasks, and investigation tasks)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
3. <b>Providing resources and guidance</b> (e.g. the teacher makes resources available that are specific to cognitively complex tasks and helps students execute such tasks)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
Enacted on the Spot (3 elements)				
What will the teacher do to recognize and acknowledge adherence or lack of adherence to rules and procedures?				
1. <b>Demonstrating “withitness”</b> (e.g. the teacher is aware of variations in student behavior that might indicate potential disruptions and attends to them immediately)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
2. Acknowledging <b>adherence to rules and procedures and applying consequences</b> (e.g. the teacher acknowledges adherence to rules and procedures and applies consequences for lack of adherence to rules and procedures consistently and fairly)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			
What does the teacher do to communicate high expectations for all students?				
1. <b>Demonstrating value and respect</b> for all students (e.g. the teacher demonstrates the same positive affective tone with low-expectancy students as with high-expectancy students)	<b>Notes:</b> <div style="display: flex; justify-content: space-between; border-top: 1px solid black; border-bottom: 1px solid black;"> <span>HE (4)</span> <span>E (3)</span> <span>D (2)</span> <span>U (1)</span> </div>			

### Routine Events (3 elements)

**(1A) What does the IP do to establish and communicate learning goals, track student progress and celebrate success?**

**(1A1) Providing Clear Learning Goals and Scales**

Teacher Evidence	Student Evidence
Teacher has an age appropriate detailed learning goal posted so that all students can see.	When asked, the student can explain the learning goal for the lesson.
The learning goal is a clear statement of knowledge or information as opposed to an activity or assignment.	When asked, students can explain how their current activities relate to the learning goal.
Teacher makes reference to the learning goal throughout the lesson.	When asked, students can explain the meaning of the levels of performance articulated in the scale or rubric.
Teacher has a scale or rubric that relates to the learning goal posted so that all students can see.	
Teacher makes reference to the scale or rubric throughout the lesson.	

### SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1A1a</b>	<b>Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance, and monitors students' understanding of the learning goal and levels of performance</b>	<b>Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1A1b</b>	The IP has an age appropriate detailed learning goal posted so all students can see.	The IP has an age appropriate learning goal posted so all students can see.	The IP has an inappropriate learning goal posted.	No learning goal is posted.
<b>1A1c</b>	The learning goal is a very clear statement of knowledge or information as opposed to an activity or assignment.	The learning goal is a clear statement of knowledge or information.	The learning goal is unclear.	No learning goal is stated.
<b>1A1d</b>	IP makes reference to the learning goal throughout the lesson.	IP makes reference to the learning goal during the lesson.	IP makes inappropriate reference to the learning goal.	IP makes no reference to the learning goal.
<b>1A1e</b>	IP asks students to explain the learning goal for the lesson, and students can give detailed explanation of learning goal.	IP asks students to explain the learning goal for the lesson, and students can give explanation of learning goal.	IP asks students to explain the learning goal for the lesson, and students have difficulty explaining learning goal.	Students are not asked to explain learning goal.

### REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for providing clearly stated learning goals and rubrics that address unique student needs and situations?	In addition to providing a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance, how can you monitor students' understanding of the learning goal and the levels of performance?	How can you provide a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance?	How can you begin to incorporate some aspects of this strategy into your instruction?

## Routine Events

**(1A) What does the IP do to establish and communicate learning goals, track student progress and celebrate success?**

**(1A2) Tracking Student Progress**

Teacher Evidence	Student Evidence
Teacher helps students track their individual progress on the learning goal.	When asked, students can describe their status relative to the learning goal using the scale or rubric.
Teacher uses formal and informal means to assign student scale or rubric depicting student status on the learning goal.	Students systematically update their status on the learning goal.
Teacher charts the progress of the entire class on the learning goal.	

## SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1A2a</b>	<b>Facilitates tracking of student progress using a formative approach to assessment and monitors the extent to which students understand their level of performance</b>	<b>Facilitates tracking of student progress using a formative approach to assessment</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1A2b</b>	IP routinely helps students track their individual progress on the learning goal.	IP helps students track their individual progress on the learning goal.	IP infrequently helps students track their individual progress on the learning goal.	IP does not help students track their individual progress on the learning goal.
<b>1A2c</b>	IP uses formal and informal means to assign scores to students on the scale or rubric depicting student status on the learning goal.	IP uses formal or informal means to assign scores to students on the scale or rubric depicting student status on the learning goal.	IP inconsistently uses formal or informal means to assign scores to students on the scale or rubric depicting student status on the learning goal.	IP does not regularly assess or uses inappropriate assessment.
<b>1A2d</b>	Students demonstrate their status relative to the learning goal using the scale or rubric.	Students describe their status relative to the learning goal using the scale or rubric.	Students have limited understanding of their status relative to the learning goal using the scale or rubric.	Students have no understanding of their status relative to the learning goal using the scale or rubric.

## REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for facilitating tracking of student progress using a formative approach to assessment that address unique student needs and situations?	In addition to facilitating tracking of student progress using a formative approach to assessment, how can you monitor the extent to which students understand their level of performance?	How can you facilitate tracking of student progress using a formative approach to assessment?	How can you begin to incorporate some aspects of this strategy into your instruction?

### Routine Events

**(1A) What does the IP do to establish and communicate learning goals, track student progress and celebrate success?**

**(1A3) Celebrating Success**

Teacher Evidence	Student Evidence
Teacher acknowledges students who have achieved a certain score on the scale or rubric.	Students show sign of pride regarding their accomplishments in the class.
Teacher acknowledges students who have made gains in their knowledge and skill relative to the learning goal.	When asked, students say they want to continue to make progress.
Teacher acknowledges and celebrates the final status and progress of the entire class.	
Teacher uses a variety of ways to celebrate success (show of hands, certification of success, parent notification, round of applause, etc.).	

### SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1A3a</b>	<b>Provides students with recognition of their current status and their knowledge gain relative to the learning goal and monitors the extent to which students are motivated to enhance their status</b>	<b>Provides students with recognition of their current status and their knowledge gain relative to the learning goal</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1A3b</b>	IP acknowledges and reinforces students who have achieved a certain score on a scale or rubric.	IP acknowledges students who have achieved a certain score on a scale or rubric.	IP inconsistently recognizes students who have achieved a certain score on a scale or rubric.	IP does not recognize students who have achieved a certain score on a scale or rubric.
<b>1A3c</b>	IP acknowledges and reinforces students who have made gains in their knowledge and skill relative to learning goals.	IP acknowledges students who have made gains in their knowledge and skill relative to learning goals.	IP inconsistently acknowledges students who have made gains in their knowledge and skill relative to learning goals.	IP fails to acknowledge or inappropriately acknowledges students who have made gains in their knowledge and skill relative to learning goals.
<b>1A3d</b>	IP acknowledges and celebrates the final status and progress of the entire class.	IP acknowledges the final status and progress of the entire class.	IP inconsistently acknowledges the final status and progress of the entire class.	IP does not acknowledge the final status and progress of the entire class.
<b>1A3e</b>	IP monitors the extent to which students are motivated to enhance their status and modifies recognition program accordingly.	IP monitors the extent to which students are motivated to enhance their status.	IP inconsistently monitors the extent to which students are motivated to enhance their status.	IP does not monitor the extent to which students are motivated to enhance their status.

### REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for providing students with recognition of their current status and their knowledge gain relative to the learning goal that address unique student needs and situations?	In addition to providing students with recognition of their current status and their knowledge gain relative to the learning goal, how can you monitor the extent to which students are motivated to enhance their status?	How can you provide students with recognition of their current status and their knowledge gain relative to the learning goal?	How can you begin to incorporate some aspects of this strategy into your instruction?

### Addressing Content (5 elements)

**(1B) What will the IP do to help students effectively interact with new knowledge?**

**(1B1) Reflecting on Learning**

Teacher Evidence	Student Evidence
Teacher asks students to state or record what they are clear about and what they are confused about.	When asked, students can explain what they are clear about and what they are confused about.
Teacher asks students to state or record how hard they tried.	When asked, students can describe how hard they tried.
Teacher asks students to state or record what they might have done to enhance their learning.	When asked, students can explain what they could have done to enhance their learning.

#### SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1B1a</b>	<b>Engages students in reflecting on their own learning process and monitors the extent to which students assess their learning</b>	<b>Engages students in reflecting on their own learning process</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1B1b</b>	IP begins lessons by reviewing prior learning and explaining why upcoming content is important.	IP begins lessons by reviewing prior learning.	IP begins lessons with an inadequate or inappropriate review of prior learning.	IP does not review prior learning.
<b>1B1c</b>	IP cues the importance of upcoming information in some indirect fashion (tone of voice, body position, level of excitement).	IP announces the importance of upcoming information in a direct fashion.	IP occasionally announces the importance of upcoming information in a direct fashion.	IP does not give students any indication of upcoming important information.
<b>1B1d</b>	Students are consistently asked and are able to explain why the content is important.	Students are able to state why the content is important.	Students can occasionally explain why the content is important.	Students are unable to explain why the content is important.

#### REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for reflecting on learning that address unique student needs and situations?	In addition to engaging students in reflecting on their own learning and the learning process, how can you monitor the extent to which students self-assess their understanding and effort?	How can you engage students on reflecting on their own learning and the learning process?	How can you begin to incorporate some aspects of this strategy into your instruction?

## Addressing Content

**(1B) What will the IP do to help students to practice and deepen new knowledge?**

**(1B2) Organizing Students to Practice and Deepen Knowledge**

Teacher Evidence	Student Evidence
Teacher organizes students into groups with the expressed idea of deepening their knowledge of informational content.	When asked, students explain how the group work supports their learning.
Teacher organizes students into groups with the expressed idea of practicing a skill, strategy, or process.	While in groups, students interact in explicit ways to deepen their knowledge of informational content, or practice a skill, strategy, or process (asking each other questions, obtaining feedback from peers).

## SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1B2a</b>	<b>Organizes students into groups to practice and deepen their knowledge and monitors the extent to which the group work extends their knowledge</b>	<b>Organizes students into groups to practice and deepen their knowledge</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1B2b</b>	IP has established routines for student grouping and student interaction in groups and students demonstrate a clear understanding of those routines.	IP has established routines for student grouping and student interaction in groups.	IP has inconsistent routines for student grouping and student interaction in groups.	IP has no established routines for student grouping and student interaction in groups.
<b>1B2c</b>	IP organizes students into well-functioning small groups with clearly defined roles.	IP organizes students into small groups with common abilities or needs.	IP organizes students into small groups.	IP does not use small group instruction.
<b>1B2d</b>	An established area for small group instruction is evident and appropriate to the type of instruction.	An established area for small group instruction is evident.	An established area for small group instruction evident but may not be appropriate for instruction.	An established area for small group instruction is not evident.
<b>1B2e</b>	Students demonstrate an understanding about expectations for appropriate behavior in groups (respect opinions of others, add their perspective to discussions, ask and answer questions).	Students appear to understand expectations about appropriate behavior in groups.	Students somewhat appear to understand expectations about appropriate behavior in groups.	Students do not appear to understand expectations about appropriate behavior in groups.

## REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for organizing students to practice and deepen knowledge that address unique student needs and situations?	In addition to organizing students into groups to practice and deepen their knowledge, how can you also monitor the extent to which group work extends their learning?	How can you organize students into groups to practice and deepen their knowledge?	How can you begin to incorporate some aspects of this strategy into your instruction?

### Addressing Content

**(1B) What does the IP do to help students generate and test hypotheses about new knowledge?**

The IP uses grouping in ways that facilitate practicing and deepening knowledge.

**(1B3) Organizing Students for Cognitively Complex Tasks**

Teacher Evidence	Student Evidence
Teacher establishes the need to generate and test hypotheses.	When asked, students describe the importance of generating and testing hypotheses about content.
Teacher organizes students into groups to generate and test hypotheses.	When asked, students explain how groups support their learning.
	Students use group activities to help them generate and test hypotheses.

### SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1B3a</b>	<b>Organizes students into groups to facilitate working on cognitively complex tasks and monitors the extent to which group processes facilitate generating and testing hypotheses</b>	<b>Organizes students into groups to facilitate working on cognitively complex tasks</b>	<b>Uses strategy incorrectly or with parts missing</b>	<b>Strategy was called for but not exhibited</b>
<b>1B3b</b>	IP organizes students into groups with the express idea of practicing their knowledge or completing informational tasks through alternative methods to gain a deeper application level of informational content.	IP organizes students into groups with the express idea of practicing their knowledge or completing informational tasks.	IP organizes students into groups to complete informational tasks.	IP does not organize students into groups.
<b>1B3c</b>	While in groups, students interact in explicit ways to deepen their knowledge of informational content and practice a skill, strategy or process (asking each other questions, obtaining feedback from peers).	While in groups, students interact to deepen their knowledge of informational content or practice skills (asking each other questions and obtaining feedback from peers is not apparent).	While in groups, students interact with knowledge of informational content.	Students do not interact in groups.

### REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for organizing students to complete cognitively complex tasks?	In addition to organizing students into groups for cognitively complex tasks, how can you monitor the extent to which group processes facilitate generating and testing hypotheses?	How can you organize students in groups to facilitate working on cognitively complex tasks?	How can you begin to incorporate some aspects of this strategy into your instruction?

## Addressing Content

**(1B) What does the IP do to help students generate and test hypotheses about new knowledge?**

**(1B4) Engaging Students in Cognitively Complex Tasks Involving Hypothesis Generation and Testing**

Teacher Evidence	Student Evidence
Teacher engages students with an explicit decision making, problem solving, experimental inquiry, or investigation task that requires them to generate and test hypotheses.	Students are clearly working on tasks that require them to generate and test hypotheses.
Teacher facilitates students generating their own individual or group task that requires them to generate and test hypotheses.	When asked, students can explain the hypothesis they are testing.
	When asked, students can explain whether their hypothesis was confirmed or disconfirmed.
	Student artifacts indicate that they can engage in decision making, problem solving, experimental inquiry, or investigation.

## SCALE

Element Id Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1B4a</b>	Engages students in cognitively complex tasks (e.g., decision making, problem solving, experimental inquiry, investigation) and monitors the extent to which students are generating and testing hypothesis.	Engages students in cognitively complex tasks (e.g., decision making, problem solving, experimental inquiry, investigation).	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.
<b>1B4b</b>	IP engages students in cognitively complex tasks that encourage students to examine their thinking regarding the content being learned.	IP engages students in cognitively complex tasks.	IP does not consistently engage students in cognitively complex tasks.	IP does not engage students in cognitively complex tasks.
<b>1B4c</b>	When asked, students are able to explain IP expectations of high level of engagement for all activities.	When asked, students are able to explain IP expectations for high levels of engagement.	When asked, students are able to explain IP expectations for some activities.	Students are not able to explain IP expectations for activities.

## REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for organizing students to complete cognitively complex tasks?	In addition to engaging students into groups for cognitively complex tasks involving hypothesis generation and testing, how can you monitor the extent to which students are generating and testing hypotheses?	How can you engage students in cognitively complex tasks involving hypothesis generation and testing?	How can you begin to incorporate some aspects of this strategy into your instruction?

## Addressing Content

(1B) What will the IP do to provide students with resources and guidance?

(1B5) Providing Resources and Guidance

Teacher Evidence	Student Evidence
Teacher makes himself/herself available to students who need guidance or resources (circulates around room, provides easy access to himself/herself)	Students seek out the teacher for advice and guidance regarding hypothesis generation and testing tasks.
Teacher interacts with students during the class to determine their needs for hypothesis generation and testing tasks.	When asked, students can explain how the teacher provides assistance and guidance in the hypothesis generation and testing.
Teacher volunteers resources and guidance as needed by the entire class, groups of students, or individual students.	

## SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
1B5a	Acts as a guide and resource provider as students engage in cognitively complex tasks and monitors the extent to which students request and use guidance and resources.	Acts as a guide and resource provider as students engage in cognitively complex tasks.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.
1B5b	IP circulates around the room and is available to students who need guidance and resources and readily provides as needed.	IP circulates around the room and is available to students who need guidance and resources and provides as needed.	IP is not consistently available to students who need guidance and resources.	IP is not available to students who need guidance and resources.
1B5c	IP consistently interacts with students during the class to determine student needs for hypothesis generation, and testing tasks.	IP interacts with students during the class to determine student needs for hypothesis generation, and testing tasks.	IP interacts with students.	IP does not interact with students.

## REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies for providing resources and guidance?	In addition to acting as a guide and resource provider, how can you monitor the extent to which students request and use guidance and resources?	How can you act as a guide and resource provider as students engage in cognitively complex tasks?	How can you begin to incorporate some aspects of this strategy into your instruction?

Enacted on the spot (3 elements)

(1C) What will the IP do to recognize and acknowledge adherence or lack of adherence to rules and procedures?

(1C1) Demonstrating “Withitness”

Teacher Evidence	Student Evidence
Teacher physically occupies all quadrants of the room.	Students recognize that the teacher is aware of their behavior.
Teacher scans the entire room making eye contact with all students.	When asked, students describe the teacher as “aware of what is going on” or “has eyes on the back of his/her head.”
Teacher recognizes potential sources of disruption and deals with them immediately.	
Teacher proactively addresses inflammatory situations.	

#### SCALE

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
1C1a	Uses behaviors associated with “withitness” and monitors the effect on students’ behavior.	Uses behaviors associated with “withitness”.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.
1C1b	IP recognizes the potential sources of disruption, deals with them appropriately, making eye contact with all students and proactively addressing potential disruptions.	IP recognizes the potential sources of disruption, deals with them appropriately.	IP recognizes potential sources of disruption, but deals with them inconsistently.	IP does not recognize potential sources of disruption.
1C1c	When asked, students recognize that the IP is aware of their behavior.	When asked, students recognize that the IP is aware of their behavior most of the time.	When asked, students recognize the IP is aware of their behavior some of the time.	When asked, students do not recognize that the IP is aware of their behavior.

#### REFLECTION QUESTIONS

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new techniques for using behaviors associated with “withitness” that address unique student needs and situations?	In addition to using behaviors associated with “withitness,” how can you monitor the effect of students’ behavior?	How can you use behaviors associated with “withitness”?	How can you begin to incorporate this strategy into your instruction?

**Enacted on the spot****(1C) What will the IP do to recognize and acknowledge adherence or lack of adherence to rules and procedures?****(1C2) Acknowledging Adherence to Rules and Procedures and Applying Consequences**

Teacher Evidence	Student Evidence
Teacher provides nonverbal signals that a rule or procedure has been followed (smile, nod of head, high five).	Students appear appreciated of the teacher acknowledging their positive behavior
Teacher gives verbal cues that a rule or procedure has been followed (thanks student for following rule or procedure, describes student behaviors that adhere to rule or procedure)	When asked, students describe teacher as appreciated of their good behavior.
Teacher notifies home when a rule or procedure has been followed	The number of students adhering to rules and procedures increases.
Teacher uses tangible recognition when a rule or procedure has been followed (certificate of merit, token economies)	

**SCALE**

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1C2a</b>	<b>Acknowledges adherence to rules and procedures consistently and fairly and monitors the extent to which these actions affect students' behavior.</b>	<b>Acknowledges adherence to rules and procedures consistently and fairly.</b>	<b>Uses strategy incorrectly or with parts missing.</b>	<b>Strategy was called for, but not exhibited.</b>
<b>1C2b</b>	IP consistently and fairly acknowledges adherence to rules and procedures on a daily basis (e.g. verbal and non-verbal signals, home contact, and tangible recognition).	IP consistently and fairly acknowledges adherence to rules and procedures (e.g. verbal and non-verbal signals, home contact, and tangible recognition).	IP acknowledges adherence to rules and procedures.	IP does not acknowledge adherence to rules and procedures.
<b>1C2c</b>	When asked, students describe IP as appreciate of their good behavior	When asked, students generally describe IP as appreciative of their good behavior.	When asked, students occasionally describe IP as appreciative of their good behavior.	When asked, students do not describe the IP as appreciative of their good behavior.

**REFLECTION QUESTIONS**

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies and techniques for acknowledging adherence to rules and procedures consistently and fairly that address unique student needs and situations?	In addition to acknowledging adherence to rules and procedures consistently and fairly, how can you monitor the extent to which new actions affect students' behavior?	How can you acknowledge adherence to rules and procedures consistently and fairly?	How can you begin to incorporate this strategy into your instruction?

**Enacted on the Spot****(1C) What will the IP do to communicate high expectations for all students?****(1C3) Demonstrating Value and Respect for All Students**

Teacher Evidence	Student Evidence
The teacher provides students with nonverbal indications that they are valued and respected (eye contact, smile, appropriate physical contact)	When asked, students say that the teacher cares for all students.
The teacher provides student with verbal indications that they are valued and respected (playful dialogue, addressing students in a manner they view as respectful)	Students treat each other with respect.
Teacher does not allow negative comments about students.	

**SCALE**

Element ID Number	Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
<b>1C3a</b>	Exhibits behaviors that demonstrate value and respect for all students and monitors the impact on all students.	Exhibits behaviors that demonstrate value and respect for all students.	Uses strategy incorrectly or with parts missing.	Strategy was called for, but not exhibited.
<b>1C3b</b>	IP engages all levels of student with questions requiring higher order thinking skills and monitors impact on students.	IP engages all levels of students with questions requiring higher order thinking skills.	IP engages some students with questions requiring higher order thinking skills.	IP does not engage students with questions requiring higher order thinking skills.
<b>1C3c</b>	IP provides all students with positive verbal or non-verbal indications that they are valued and respected and monitors student impact (eye contact, smile, appropriate physical contact, playful dialogue, addressing students in a manner they view as respectful).	IP provides all students with positive verbal or non-verbal indications that they are valued and respected.	IP inconsistently provides students with positive verbal or non-verbal indications that they are valued and respected.	IP does not provide students with positive verbal or non-verbal indications that they are valued and respected.
<b>1C3d</b>	When asked, the students say the IP cares for them and does not allow negative comments be made about others.	When asked, the students say the IP cares for them.	When asked, the students are consistently sure the IP cares for them.	When asked, the students do not believe the IP cares for them.

**REFLECTION QUESTIONS**

Highly Effective	Effective	Developing/Needs Improvement	Unsatisfactory
How might you adapt and create new strategies and techniques for behaviors that demonstrate value and respect for all students that address unique student needs and situations?	In addition to exhibiting behaviors that demonstrate value and respect for all students, how can you monitor the impact on all students?	How can you exhibit behaviors that demonstrate value and respect for all students?	How can you begin to incorporate this strategy into your instruction?

## Santa Rosa District Schools Observation Instrument

Element Id Number	Domain II – Planning and Preparing (3 elements)			
<b>2A1</b>	Planning and preparing for lessons			
<b>2A1a</b>	What does the IP do to <b>plan and prepare lessons</b> with a deep understanding of content?			
	<b>HE (4)</b>	<b>E (3)</b>	<b>D (2)</b>	<b>U (1)</b>
	The IP organizes lessons within a unit so that students move from an understanding to applying the content through consistent authentic tasks.	The IP organizes lessons within a unit so that students move from surface to deeper understanding of content but does not require students to apply the content in authentic tasks.	The IP organizes lessons within a unit so that students move from surface to deeper understanding of content but does not require students to apply the content in authentic ways.	The IP attempts to plan and prepare for lessons with a deep understanding of content but does not actually complete or follow through with these attempts.
<b>2A2</b>	Planning and preparing for use of materials and technology			
<b>2A2a</b>	What does the IP do to <b>plan and prepare for the use of technologies</b> such as interactive whiteboards, digital devices, etc.?			
	<b>HE (4)</b>	<b>E (3)</b>	<b>D (2)</b>	<b>U (1)</b>
	The IP consistently identifies the available technologies that can enhance student understanding and the manner in which they will be used.	The IP identifies the available technologies that can enhance student understanding but does not consistently identify the manner in which they will be used.	The IP identifies the available technologies that can enhance student understanding but does not identify the manner in which they will be used.	The IP attempts to plan and prepare for the use of technology but does not actually complete or follow through with these attempts.
<b>2A3</b>	Planning and preparing for special needs of students			
<b>2A3a</b>	What does the IP do to <b>plan and prepare for the special needs of students</b> ?			
	<b>HE (4)</b>	<b>E (3)</b>	<b>D (2)</b>	<b>U (1)</b>
	The IP consistently identifies the special needs of students and the adaptations that will be made to meet these needs.	The IP identifies the special needs of students but does not consistently articulate the adaptations that will be made to meet these needs.	The IP identifies the special needs of students but does not articulate the adaptations that will be made to meet these needs.	The IP attempts to plan and prepare for the special needs of students but does not actually complete or follow through with these attempts.

Element Id Number	Domain III – Reflection on Teaching (1 element)			
<b>3A1</b>	Evaluating personal performance			
<b>3A1a</b>	What does the IP do to <b>evaluate the effectiveness of individual lessons and units</b> ?			
	<b>HE (4)</b>	<b>E (3)</b>	<b>D (2)</b>	<b>U (1)</b>
	The IP determines how effective a lesson or unit was in terms of enhancing student achievement and consistently identifies cases of successes and failures.	The IP determines how effective a lesson or unit was in terms of enhancing student achievement but does not identifies causes of success and failure on a consistent basis.	The IP determines how effective a lesson or unit was in terms of enhancing student achievement but does not accurately identify causes of success or failure.	The IP attempts to evaluate the effectiveness of individual lessons or units but does not actually complete or follow through with these attempts.

Element Id Number	Domain IV – Collegiality and Professionalism (3 elements)			
<b>4A1</b>	Promoting a positive environment			
<b>4A1a</b>	What does the IP do to <b>promote positive interactions with colleagues?</b>			
	HE (4)	E (3)	D (2)	U (1)
	The IP interacts with other IPs in a positive manner and helps extinguish negative conversations about other IPs.	The IP interacts with other teachers in a positive manner but does not consistently help extinguish negative conversations about other IPs.	The IP interacts with other teachers in a positive manner but does not help to extinguish negative conversations about other IPs.	The IP attempts to promote positive interactions with colleagues but does not actually complete or follow through with these attempts.
<b>4A2</b>	What does the IP do to <b>promote positive interactions with students and parents?</b>			
	HE (4)	E (3)	D (2)	U (1)
	The IP interacts with students and parents in a positive manner and helps extinguish negative conversations about students and parents.	The IP interacts with students and parents in a positive manner but does not consistently help to extinguish negative conversations about students and parents.	The IP interacts with students and parents in a positive manner but does not help to extinguish negative conversations about students and parents.	The IP attempts to promote positive interactions with students and parents but does not actually complete or follow through with these attempts.
<b>4A3</b>	What does the IP do to <b>adhere to district and school rules and procedures?</b>			
	HE (4)	E (3)	D (2)	U (1)
	The IP is aware of district and school rules and procedures and adheres to them.	The IP is aware of district and school rules and procedures but does not consistently adhere to all of these rules and procedures.	The IP is aware of district and school rules and procedures but does not adhere to all of these rules and procedures.	The IP attempts to adhere to district and school rules and procedures but does not actually complete or follow through with these attempts.

**Santa Rosa District Schools**  
**Post Observation/Self Assessment Conference Instrument**

**This instrument will be used by all classroom and non classroom based teachers for all formal observations.**

Name of Teacher \_\_\_\_\_ Name of Administrator \_\_\_\_\_

Planning Conference Date \_\_\_\_\_ Observation Date \_\_\_\_\_ Post Conference Date \_\_\_\_\_

The administrator will give consideration to the teacher's self assessment of the lesson and provide written feedback. Please bring student work, assessments, scoring guides, activity schedules, and or rubrics and be prepared to discuss the following questions.

Classroom Demographics
1. Overall, how do you think the lesson or interaction went and why?
Answer:
Routine Events
2. Did students meet or not meet the learning goals or objectives you established for this lesson or activity?
Answer:
3. How effective is the classroom or workspace to maximize student learning or achievement?
Answer:
Content
4. How did the strategies you used to help students to deepen and practice their understanding of new knowledge support student learning?
Answer:
5. How did the strategies you used help students generate and develop new knowledge to support student learning?
Answer:
Enacted on the Spot
6. Which techniques for engaging students were most successful? Which techniques were not successful?
Answer:

## Parent and Student Surveys

**Santa Rosa District Schools**  
Student Surveys – Elementary School

This survey will count as 5% of the annual evaluation of teachers and administrators in this school.

Respond to each of the following statements using the following scale:

Strongly Agree (5)

Agree (4)

Neutral (3)

Disagree (2)

Strongly Disagree (1)

		Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
1.	Learning is fun at this school.	5	4	3	2	1
2.	I like going to this school each day.	5	4	3	2	1
3.	I enjoy art, music and P.E.	5	4	3	2	1
4.	My teacher cares about me.	5	4	3	2	1
5.	I feel safe at this school.	5	4	3	2	1
6.	The school rules are fair.	5	4	3	2	1
7.	My school is clean.	5	4	3	2	1
8.	My principal is a good leader.	5	4	3	2	1

**Santa Rosa District Schools**  
Student Surveys – Middle and High School

This survey will count as 5% of the annual evaluation of teachers and administrators in this school. (10% for Locklin Technical School and Santa Rosa High/Adult Schools)

Respond to each of the following statements using the following scale:

- Strongly Agree (5)
- Agree (4)
- Neutral (3)
- Disagree (2)
- Strongly Disagree (1)

1. My learning is important at my school.
2. School rules/disciplines plans are enforced consistently at my school.
3. I regularly receive feedback from school staff about my academic progress.
4. My family is treated with respect at my school.
5. I have opportunities to be successful at my school.
6. **Special area classes such as art, music and P.E. add to my school experience.**  
*(this questions is not used for Locklin Technical School, Santa Rosa High/ Adult Schools)*
7. I would recommend my school to others.
8. I feel safe at school.
9. I am recognized for good work and behavior at my school.
10. My school is clean and well maintained.
11. The teachers, staff, and administrators at my school demonstrate genuine concern for students.
12. The principal at my school is an effective leader.

## **Santa Rosa District Schools**

### **Parent Surveys**

This survey will count as 5% of the annual evaluation of teachers and administrators in this school. (10% for T.R. Jackson Pre-K Center)

Respond to each of the following statements using the following scale:

Strongly Agree (5)

Agree (4)

Neutral (3)

Disagree (2)

Strongly Disagree (1)

1. My child's learning is a high priority at this school.
2. School rules/discipline plans are enforced consistently at this school.
3. I regularly receive feedback from school staff on how well my child is learning.
4. My family is treated with respect at this school.
5. My child has every opportunity to be successful at this school.
6. My child has the necessary classroom supplies and equipment for effective learning.
7. I would recommend this school to other parents.
8. This school provides a safe environment for my child to learn.
9. My child is recognized for good work and behavior at this school.
10. The school is clean and well maintained.
11. The teachers, staff, and administration at this school demonstrate a genuine concern for my child.
12. I receive positive phone calls or notes about my child from the school.
13. I am proud to say I have a student at this school.
14. The principal at this school is an effective leader.
15. The Principal at this school is approachable and reachable.
16. The Superintendent of the Santa Rosa School District is an effective leader.

17. The Superintendent of Santa Rosa School District makes decisions that are in the best interest of children of the School District.
18. The school provides materials and training to help parents and guardians work with their children to improve their children's achievement.
19. I receive information about the quality of my child's teachers.
20. I receive information about my child's academic progress in school (report cards, test results, progress reports, etc.)
21. I feel the special areas (art, music, and P.E.) available at my child's school help make my child's educational experience more well-rounded.
22. I receive information about the progress of my child's school (the yearly progress review including grade and Adequate Yearly Progress report, etc.).
23. I receive information about the school's parent/guardian involvement policy.
24. Information in the *Santa Rosa District Schools Family Guide* helps me understand my child's school work.
25. I have opportunities for involvement at my child's school.
26. My child has elective opportunities that promote career readiness.
27. My child has opportunities to participate in programs that promote success after graduation.

**Elementary Schools (excluding Gulf Breeze Elementary) and King Middle School only.**

28. Signing a parent/guardian "compact" (agreement) helps me understand the responsibility that I accept as a parent/guardian to help educate my child.

**Open Ended Questions**

1. What is working well at your child's school?
2. Is there anything that could be improved at your child's school?
3. Is there anyone at your child's school that you want to recognize for good work?

# Attachment H

## Studer Group Information

## Studer Group/EducatorReady

The Studer Group Education Division called EducatorReady is focused on assisting school district to achieve leadership and teaching excellence. The leaders, Dr. Robin Lague and Dr. Janet Pilcher, have spent their lifetimes researching, leading and developing leaders and teachers. In the past several years they have been piloting Evidence-Based Leadership in several school districts in the United States. Their work is affiliated with the Studer Group, a 2010 Malcolm Baldrige Award recipient. From the research they have gathered with teachers and leaders they have created proven practices with districts that align to Race to the Top Guidelines on developing effective leaders and teachers. A summary of their actions is provided below which has led to increased student engagement and achievement, improved employee engagement, and higher parent satisfaction. Because their work has made improvements in school districts, leaders and teachers have become more energized and results-driven. Their work focuses on schools becoming great places for students to learn, employees to work and parents to send their children to school.

The following summary provides the areas of work by Studer Group/EducatorReady.

<b>Educatorready.com affiliated with Studer Group</b>	
<b>Leader Evaluation</b>	<p>Superintendents have implemented a measurable and aligned leader evaluation system for themselves, their senior team, district leaders, principals/assistant principals, and managers focusing on four major pillars of excellence:</p> <ul style="list-style-type: none"> <li>• Quality – student achievement</li> <li>• People – employee engagement</li> <li>• Service – parent satisfaction with schools and leader satisfaction with district services provided</li> <li>• Finance – financial efficiency ratio (cost reduction &amp; savings)</li> </ul>
<b>Teacher Evaluation</b>	<p>We have worked with school districts by using a report from a focus group study we implemented with high performing teachers to work with their teacher groups on creating teacher evaluations. The report is free to districts. The teacher evaluations include:</p> <ul style="list-style-type: none"> <li>• Quality – student achievement</li> <li>• People – student engagement</li> <li>• Service – parent satisfaction</li> <li>• Growth – competency demonstration aligned to Danielson's Framework</li> </ul>
<b>Leader Development</b>	<p>We offer districts online and face to face training in the following areas as a way to assist them with achieving goals and measures for student achievement, employee engagement and parent satisfaction:</p> <ul style="list-style-type: none"> <li>• Professional Conversations: Making Rounds on Employees</li> <li>• Professional Conversations: Recognizing the Five ALWAYS Teaching Actions</li> <li>• Professional Conversations: Having High, Developing and Low Conversations with Employees</li> <li>• Professional Conversations: Gaining Employee Input From Survey Results</li> <li>• Professional Conversations: Answering Tough Questions</li> <li>• Recognizing and Rewarding Employees</li> <li>• Running Effective Meetings</li> <li>• Keeping Employees Informed</li> <li>• Keeping Parents Info</li> </ul>

## **Teacher Development**

We offer districts online and face to face training in the following areas as a way to assist Teachers to engage students in the learning environment to achieve.

- PLC 1: Foundations of Five ALWAYS Teaching Actions
- PLC 2: Classroom Rules and Procedures
- PLC 3: Learning Targets (Targets and Tasks)
- PLC 4: Practice and Feedback (Formative Assessment)
- PLC 5: Summative Assessments (Grades)
- PLC 6: Planning for Students to Achieve

## **Measurement**

We offer three tools to measure progress and outcomes that include an important roll out process for leaders to use to share the information with employees, parents and students and to gain their input to build excellence in the school district.

- Employee Engagement – the extent to which employees believe leaders do a good job creating an engaging work environment
- Parent Satisfaction – the extent to which parents are satisfied with their child’s learning environment and school
- Student Engagement – the extent to which students believe teachers care about their learning and create environments that provide them with opportunities to succeed.

## Job Codes/Scoring Classifications

## ~~Grade Level Assessments/ Percentages for Student Performance~~

## Job Code Classifications

- Direct : An assessment is tied directly to a course. For example, a student is in a reading course and takes the state reading assessment. The instructor serves as the primary instructor responsible for the course standards. The student growth measurement data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.
- Indirect There is an assessment tied indirectly to a course. For example; a students is in a Social Studies course which does not have a direct assessment; however, the student takes the state assessment. Therefore the state assessment is tied indirectly to the Social Studies course. The instructor serves as the primary instructor responsible for the course standards. The student growth measurement data used in this instructors student performance evaluation data is limited to the students assigned to the instructor. (Classroom and ESE Instructors)
- Student Support Instructors :This includes Instructors that provide academic support for specific students within a course but are not the responsible instructor. The student growth measurement data used in this instructors student performance evaluation data is limited to the students assigned to the instructor.
- School Wide: This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school (School-wide program facilitators). The data used is based upon all school growth/ achievement measurements that have been approved and are appropriate for the assignment (Media Specialists, Guidance Counselors, Physical education Teachers, School Wide Program Facilitators)
- District: This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators, instructional coaches (ie: Teachers on Special Assignment) for the district (District-wide program facilitators). The data used is based upon all school growth/ achievement measurements that have been approved and are appropriate for the assignment.

## Student Performance Conversion Scales Scales

SANTA ROSA COUNTY SCHOOL EMPLOYEE EVALUATION  
CONVERSION SCALES

SCALE ID 001

Student Learning Gain

4 = greater than 3% overall gain

3 = greater than 2% - 3% overall gain

2 = greater than 1% - 2% overall gain

1 = 0-1% overall gain

SCALE ID 002

Student Learning Gain

4 = Average increase of more than 6 months across all domains

3 = Average increase of more than 4-6 months across all domains

2 = Average increase of more than 2-4 months across all domains

1 = Average increase of more than 0-2 months across all domains

SCALE 003 Student Achievement Level

4= student achievement level score 4 or 5

3= student achievement level score of 3

2= student achievement level score of 2

1= student achievement level score of 1

SCALE 004 Value Added Model

4=Positive Value Added score minus one half of standard error equals positive number (+,+)

3=Positive Value Added score minus one half of standard error equals negative number (+,-)

OR

Negative Value Added score plus one half of standard error equals positive number (-,+)

2=Negative Value Added score plus one half of standard error equals negative number (top 2/3 of scores) (-,-)

1=Negative Value Added score plus one half of standard error equals negative number (lower 1/3 of scores) (-,-)

SCALE 006 Student Growth

4=Growth of 1 or more levels

3=Maintain at current level OR Maintain proficient range (with decrease of no more than 1 level)

2=Decrease of 1 level in non-proficient range OR  
Decrease of 2 or more levels in proficient range OR  
Decrease of 1 level which moves student from proficient to non-proficient

1=Decrease of 2 levels in non-proficient range OR  
Decrease of 3 or more levels in proficient range

-

SCALE 008 Student Achievement Rate

4=86-100% passing rate of students attempting industry certification  
3=67- 85% passing rate of students attempting industry certification  
2=51- 66% passing rate of students attempting industry certification  
1=50% or less passing rate of students attempting industry certification

SCALE 010 Student Achievement

4= student scoring above proficiency  
3= student scoring proficient  
2= student scoring below proficiency with increase  
1= student scoring below proficiency with no increase

SCALE 011 Student Learning Gain

4 = Average student increase of more than 4.00%  
3 = Average student increase of more than 3.00 - 4.0%  
2 = Average student increase of 2.00 - 3.0%  
1 = Average student increase of less than 2.0%

SCALE 015 Student Achievement

4= Student scoring Proficiency level 4 or 5  
3= Student scoring Proficiency level 3  
2= Student scoring Proficiency level 2  
1= Student scoring Proficiency level 1

SCALE 016 Student Achievement

4 = Student Achievement Score of 398 - 475  
3 = Student Achievement Score of 379 - 397  
2 = Student Achievement Score of 352 - 378  
1 = Student Achievement Score below 352

SCALE 017 Student Achievement

4 = Student Achievement Score of 82 - 100  
3 = Student Achievement Score of 65 - 81  
2 = Student Achievement Score of 45 - 64  
1 = Student Achievement Score of less than 45

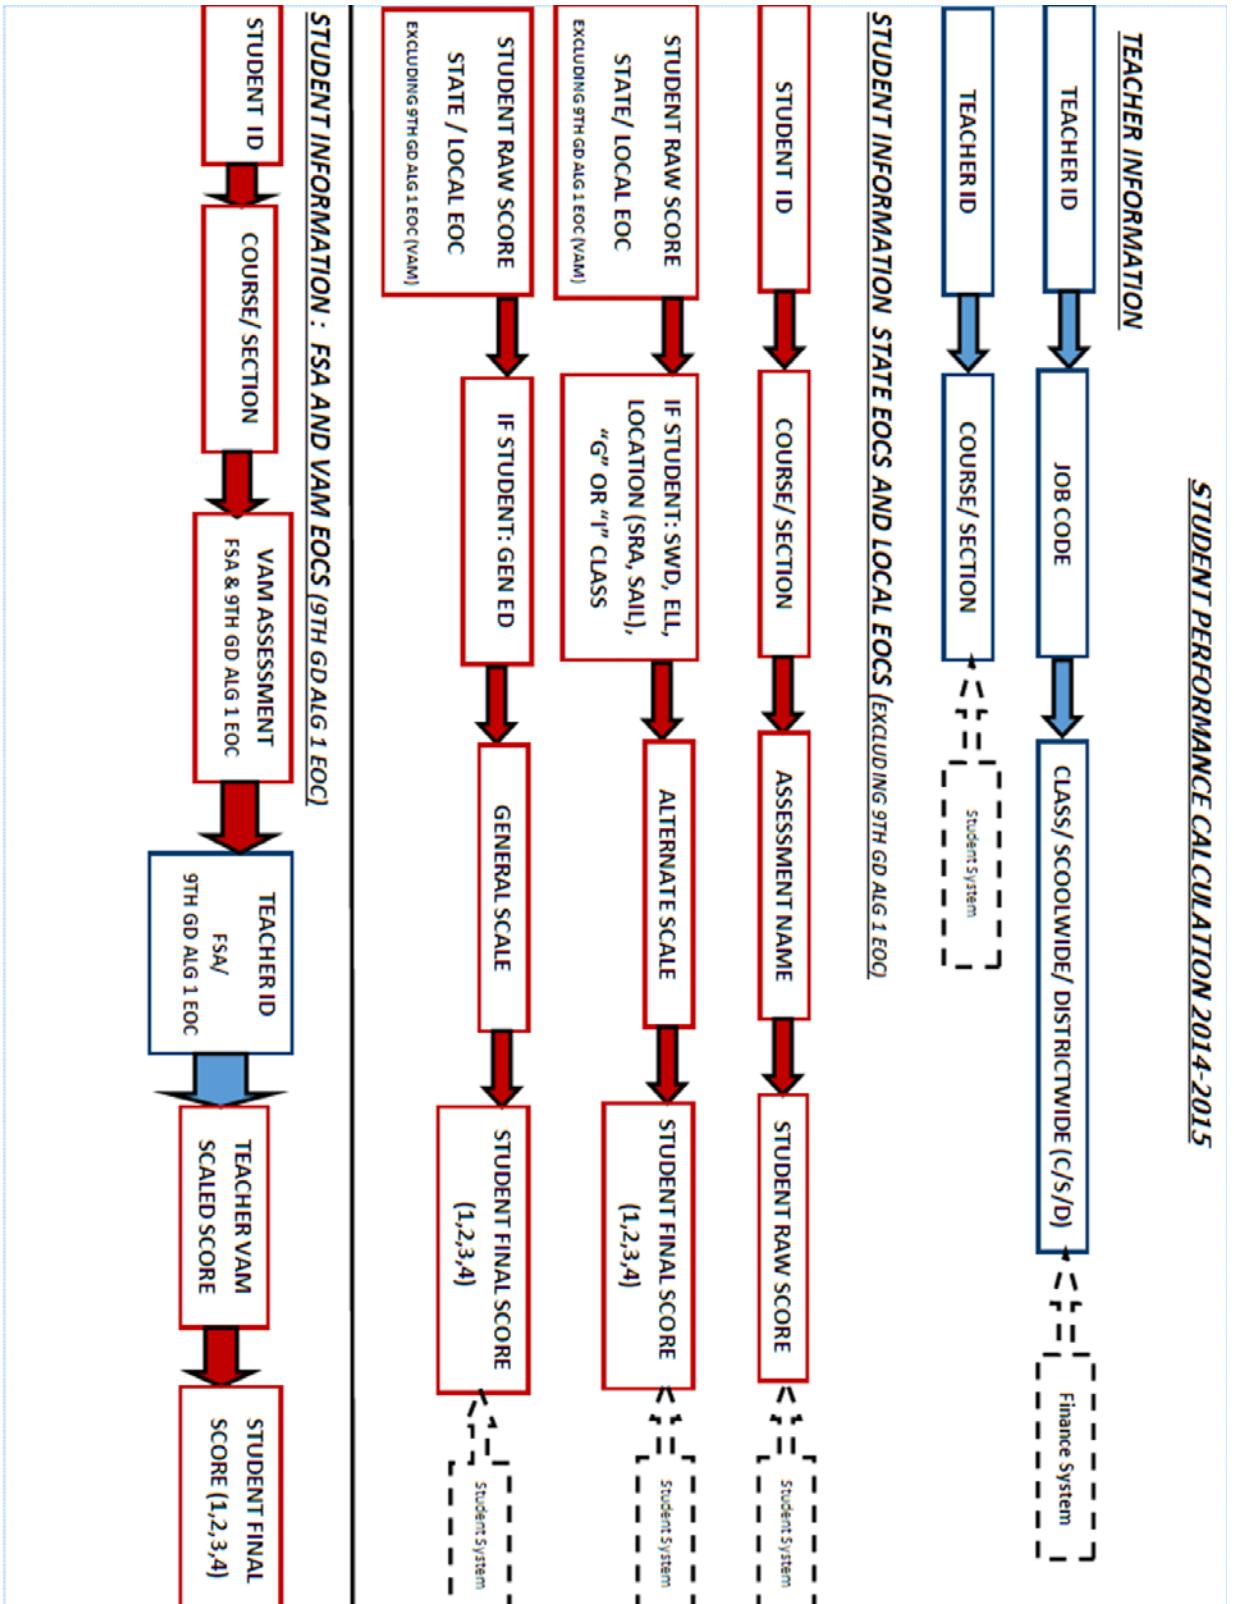

SCALE 018 Student Achievement

4 = Student Achievement Score of 76 - 100  
3 = Student Achievement Score of 60 - 75  
2 = Student Achievement Score of 40 - 59  
1 = Student Achievement Score of less than 40

## Truenorthlogic Philosophy for K-12 Human Capital Management

---

Truenorthlogic is the leading provider of comprehensive human capital management systems to K-12 education agencies working to increase educator effectiveness in support of improved student achievement. Our mission is to ensure an effective educator for every student. We work with state and local education agencies to streamline organizational processes and provide a platform for continuous improvement in human capital practices.

Our experience in working with leading school districts on teacher and leader development has formed our product philosophy and approach to performance improvement for sustained teacher and leader effectiveness. As shown in Diagram 1 below, TNL has found that effective leader and educator development is based on an iterative development cycle designed to move teachers and leaders through a client-defined growth continuum. TNL's solutions are designed to support, service and track this growth continuum and the processes, workflows, and data that surround it.

Diagram 1: Continuous improvement of teacher effectiveness

We have found that educator performance improvement typically begins with an assessment of a teacher's strengths and weaknesses. Teachers gain an understanding of these by using multiple sources of information: assessments, observations, student assessment data, mentor/coach feedback, principal input, career goals and more. This information helps them to define a focused development plan with growth goals that include specific actions. Goal attainment is measured and monitored by standards the District sets, and often includes forward momentum based on a defined competency continuum, student performance growth or any set of measures. The information and results from this cycle of continuous improvement is available as part of an evaluation or appraisal process to assist the end user, his/her principals and the District overall in the next round of development planning. Moreover, the system supports and ensures compliance with the policies that underlay the educator effectiveness program.

Truenorthlogic's solution — the K-12 Human Capital Management Platform — is designed specifically for K-12 settings and is methodology neutral, content agnostic, and adaptable over time. The system provides the scaffolding for whatever methodology and process a district decides to implement. Diagram 2 provides a visual overview of how the Truenorthlogic system supports the Great Teachers and Leaders vision. Each item in the diagram is serviced through TNL's configurable product suite. Custom integrations feed certain parts of the process in order to leverage a District's current infrastructure investments to the fullest extent possible.

Santa Rosa's vision is for Truenorthlogic to provide the venue that allows the district to support, service and track the professional development needs of our administrators and teachers to truly provide a continuous growth cycle. The district portal has been named the Professional Growth System (PGS) to portray the intent of the system. As we are able to identify individual needs, based on multiple data forms, PGS allows us to recommend and document professional development and mentoring. We are excited about the potential growth for our administrators and teachers as we implement PGS in our district.

## Santa Rosa School District Instructional Evaluation Instrument

### Section II: Stakeholder Satisfaction Surveys – 10% of Overall Evaluation

*This section should be completed by June 1.*

Parent and student satisfaction scores are used as part of the evaluation for all instructional staff. In completing parts A and B, the previous year's score and the current year's score are reported. This year's May score is used as part of the evaluation. (IA and IB score)

The Studer Group's research with surveys is based on a 5.0 scale: 1=strongly disagree, 2=disagree, 3=neutral, 4=agree, and 5=strongly agree. The Studer group believes changing this scale would not support the research conducted on surveys. The State of Florida's Evaluation System is based on a 4.0 scale: 1=Unsatisfactory, 2=needs improvement, 3=effective and 4=highly effective. In order to use the results of the Studer surveys (students, parents, employees, and principals) will use the following conversion scale:

#### Studer Group Survey Results

4.00 – 5.00

2.75 – 3.99

2.00 – 2.74

Below 2.00

#### Evaluation Score

Highly Effective (4.0)

Effective (3.0)

Needs Improvement (2.0)

Unsatisfactory (1.0)

#### **A. Parent Satisfaction Survey – 5%**

(Parents of students at SRA, LTC, and SRYA will not complete this survey. In these cases the student survey results will count 10%.)

2012 Score

5.0 Scale

IA Score

4.0 Scale

#### **B. Student Satisfaction Survey – 5%**

(Students in VPK and Pre-K will not complete surveys. In these cases the parent survey will count 10%.)

2012 Score

5.0 Scale

IB Score

4.0 Scale

**Santa Rosa District Schools**  
**Section III: Instructional Evaluation Instrument/Professional Development Plan**

FL Statute 1012.98 requires that all teachers write a professional development goal annually that reflects the needs of currently assigned students as indicated by state assessment data when available. The purpose of the goal is to identify student performance areas that the teacher should address in selecting professional development activities and identifying deliberate practice that will impact student performance. Goals should be tied to School Improvement Plans. The PDP counts as 10% of each teacher's total evaluation.

**Student Needs Goal Statement** (Classroom teachers must write a goal that addresses a need based on current state assessment and School Improvement Plan data. Non-Classroom teachers must align goals to classroom teacher, school improvement or district data.)

**Teacher Needs Goal Statement** (The teacher goal statement should identify teacher needs to ensure that the student performance goal is met.)

**Projected Professional Development** (should align with student needs, could include teacher certification and teacher professional improvement needs)

**Deliberate Practice** (include literacy practice related to school goal)  
(Deliberate Practice is the implementation of research-based strategies that are aligned with the projected professional development that has been identified.)

**Santa Rosa District Schools**  
**Section III: Instructional Evaluation Instrument/Professional Development Plan**

**Outcome Statement:** Briefly describe your goal, actions taken, and student performance data results.

<b>Plan Completion Rating</b> (Assessed by administrator.)	<b>Scale</b>	<b>Check Rating</b>
<b>Highly Effective</b> (PDP goal is data driven and aligns with current student data needs, and/or school improvement needs/completed a minimum of 15 hours of projected professional development related to the student data needs indicated, with appropriate artifacts of deliberate practice related to outcome statement)	4.0	
<b>Effective</b> (PDP goal is data driven and aligns with current student data needs, completed 12 – 14 hours of projected professional development related to the student data needs indicated, with appropriate artifacts of deliberate practice related to outcome statement)	3.0	
<b>Needs Improvement</b> (did not meet all expectations/completed 7 – 11 hours of projected professional development with limited or inappropriate artifacts of deliberate practice related to outcome statement)	2.0	
<b>Unsatisfactory</b> (did not meet expectations/projected professional development 1 – 6 hours completed and limited appropriate artifacts of deliberate practice related to outcome statement)	1.0	

**Professional development activities may include, but are not limited to:**

Learning Communities

Lesson Study

Online Training

Face to Face Training

College Coursework

## Santa Rosa School District Instructional Evaluation Instrument

### Section II: Stakeholder Satisfaction Surveys – 10% of Overall Evaluation

*This section should be completed by June 1.*

Parent and student satisfaction scores are used as part of the evaluation for all instructional staff. In completing parts A and B, the previous year's score and the current year's score are reported. This year's May score is used as part of the evaluation. (IA and IB score)

The Studer Group's research with surveys is based on a 5.0 scale: 1=strongly disagree, 2=disagree, 3=neutral, 4=agree, and 5=strongly agree. The Studer group believes changing this scale would not support the research conducted on surveys. The State of Florida's Evaluation System is based on a 4.0 scale: 1=Unsatisfactory, 2=needs improvement, 3=effective and 4=highly effective. In order to use the results of the Studer surveys (students, parents, employees, and principals) will use the following conversion scale:

#### Studer Group Survey Results

4.00 – 5.00

2.75 – 3.99

2.00 – 2.74

Below 2.00

#### Evaluation Score

Highly Effective (4.0)

Effective (3.0)

Needs Improvement (2.0)

Unsatisfactory (1.0)

#### **A. Parent Satisfaction Survey – 5%**

(Parents of students at SRA, LTC, and SRYA will not complete this survey. In these cases the student survey results will count 10%.)

2012 Score

3.90

5.0 Scale

IA Score

3.00

4.0 Scale

#### **B. Student Satisfaction Survey – 5%**

(Students in VPK and Pre-K will not complete surveys. In these cases the parent survey will count 10%.)

Administrator's Comments: Both scores improved – thank you for all you do for our school.

Administrator's Signature: Administrator Date: 6/1/XX

**Santa Rosa District Schools**  
**Section III: Instructional Evaluation Instrument/Professional Development Plan**

FL Statute 1012.98 requires that all teachers write a professional development goal annually that reflects the needs of currently assigned students as indicated by state assessment data when available. The purpose of the goal is to identify student performance areas that the teacher should address in selecting professional development activities and identifying deliberate practice that will impact student performance. Goals should be tied to School Improvement Plans. The PDP counts as 10% of each teacher's total evaluation.

**Student Needs Goal Statement** (Classroom teachers must write a goal that addresses a need based on current state assessment and School Improvement Plan data. Non-Classroom teachers must align goals to classroom teacher, school improvement or district data.)

11% of my students (14 students) scored below proficiency (below Level 3) in reading. 3 students were Level 1 and 11 students were Level 2. Of that number, 50% (7 students) were in the Economically Disadvantaged subgroup. Particularly weak areas are Comparisons (80%), Words and Phrases (63%), and Reference and Research (65%).

My goal is for my Level 1 students to score a minimum of Level 2; Level 2 students to score a minimum of Level 3; and Level 3+ students will maintain or increase their proficiency level. This will result in a minimum of 72% of students scoring a Level 3 or above in Reading.

**Teacher Needs Goal Statement** (The teacher goal statement should identify teacher needs to ensure that the student performance goal is met.)

In order to achieve my student needs goal, I will need to take more training to increase student word usage focusing on the areas of need as seen in the identified weak areas.

**Projected Professional Development** (should align with student needs, could include teacher certification and teacher professional improvement needs)

Assessment training,  
 data training,  
 MyAccess! Training/leadership training,  
 Pearson/Successnet textbook training,  
 RTI Training,

**Deliberate Practice** (include literacy practice related to school goal) (Deliberate Practice is the implementation of research-based strategies that are aligned with the projected professional development that has been identified.)

Increase reading strategies in language arts curriculum;  
 increase vocabulary strategies in language arts curriculum;  
 Use Daily Oral Language Skills Transparencies to emphasize the FSA types of questions (informational, reference and research skills, etc.);  
 Use "FSA Specifications-Reading" to emphasize FSA questions – with particular emphasis on the weak areas already identified;

**Santa Rosa District Schools**  
**Section III: Instructional Evaluation Instrument/Professional Development Plan**

**Outcome Statement:** Briefly describe your goal, actions taken, and student performance data results.

Based on previous FSA scores, my identified Economically Disadvantaged students needed help with Comparisons, Words and Phrases, and Reference and Research. I included reading and vocabulary strategies in my curriculum, along with warm ups/daily oral language skills to emphasize FSA types of questions in the areas that were weak. According to most recent scores, 40% of the identified Economically Disadvantaged students increased their FSA level. Of the 14 students identified at the beginning of the year as Level 1 or Level 2, 11 students were tested on the FSA. Of those identified students, 45% made learning gains. Overall, 53% of my students (total population both Language Arts and Social Studies) made learning gains.

<b>Plan Completion Rating</b> (Assessed by administrator.)	<b>Scale</b>	<b>Check Rating</b>
<b>Highly Effective</b> (PDP goal is data driven and aligns with current student data needs, and/or school improvement needs/completed a minimum of 15 hours of projected professional development related to the student data needs indicated, with appropriate artifacts of deliberate practice related to outcome statement)	4.0	X
<b>Effective</b> (PDP goal is data driven and aligns with current student data needs, completed 12 – 14 hours of projected professional development related to the student data needs indicated, with appropriate artifacts of deliberate practice related to outcome statement)	3.0	
<b>Needs Improvement</b> (did not meet all expectations/completed 7 – 11 hours of projected professional development with limited or inappropriate artifacts of deliberate practice related to outcome statement)	2.0	
<b>Unsatisfactory</b> (did not meet expectations/projected professional development, 1- 6 hours completed and limited appropriate artifacts of deliberate practice related to outcome statement)	1.0	

**Professional development activities may include, but are not limited to:**

Learning Communities  
 Lesson Study  
 Online Training  
 Face to Face Training  
 College Coursework  
 Conferences /Seminars  
 Action Research  
 Mentoring Hours (District Mentors Only)

# First Semester Evaluation Sample

## SAMPLE

### Santa Rosa School District Instructional Evaluation Instrument

#### Instructional Personnel I – First Semester Evaluation

All teachers new to the Santa Rosa District Schools (Instructional Personnel I) are required to complete two evaluations. The first of these should be completed before the end of the first semester and the second evaluation should be completed near the end of the school year.

#### Part A: Successful Initiation of the Professional Development Plan - Administrator Rating (20% of Evaluation)

After reviewing the teacher's PDP goals and the progress made to date, the administrator determines a rating.

Administrator Rating of PDP	Check One		20%
	HE (4.0)	X	
	E (3.0)		
	D (2.0)		
	U (1.0)		

#### Part B: Florida Educator's Accomplished Practices - Marzano Model - 80% of Evaluation

##### Method of Data Collection:

##### Dates/Notes:

Formal Observations	10/10/11, 11/3/11
Informal Observations	9/26/11, 11/30/11
Meetings	8/15/11, 8/17/11, 9/15/11, 10/1/11
Artifacts	Review lesson plans
Others	Open house, fall festival, parent conference (11/1/11)

Domain I – 48%	Check One		48%
	HE (4.0)		
	E (3.0)	X	
	D (2.0)		
	U (1.0)		

Domain II – 14%	Check One		14%
	HE (4.0)	X	
	E (3.0)		
	D (2.0)		
	U (1.0)		

Domain III – 4%	Check One		4%
	HE (4.0)		
	E (3.0)		
	D (2.0)	X	
	U (1.0)		

Domain IV – 14%	Check One		14%
	HE (4.0)	X	
	E (3.0)		
	D (2.0)		
	U (1.0)
