Future Programs

2016-2017

3-Square (after school dinner program)

Providing healthy food after school allows children to be fully engaged in the activities at their afterschool program. Afterschool meals are increasingly important because more and more children are spending long hours in afterschool programs while their parents are working. The children require more than a snack to sustain them throughout the afternoon and early evening. In some cases, the food a child receives at an afterschool program might be their only meal until the next school day.
