

SANTA ROSA COUNTY DISTRICT SCHOOLS

Monthly Financial Statement

Fiscal Year
2011–2012

Month Ending
June 30, 2012

School Board Meeting
Sept. 6, 2012

Enclosed is the Monthly Financial Statement for the Santa Rosa County School District. Included is data that is helpful in evaluating the financial condition at a given point in time.

As always, please feel free to question the data or make suggestions that would improve the usefulness of this document.

Below are explanations that you may find helpful.

All revenue and expenditures listed are on a "cash basis" only. We recognize that generally accepted accounting principles require the use of the modified accrual basis of accounting for governmental funds. This means that revenues are recognized when they become both measurable and available to finance expenditures of the fiscal period. Expenditures are generally recognized when the related liability is incurred and the transaction or event is expected to draw upon current spendable resources. We feel the best way to measure and compare from month to month and to make it easier to understand, we have opted to show literally on a cash basis the figures showing revenue and expenditures. We hope it helps the casual user in comparing the operation of the school system year to year and generally give an idea of where the district is financially at any given point in time.
