Dr. Barber,

On June 18, 2020, the School Board received a thorough Phase III report concerning the proposed school site located within the Whisper Creek subdivision. Based upon several factors, including but not limited to, costs associated with site improvements, future site maintenance costs due to potential erosion, and removal of excessive amounts of unsuitable soils; Superintendent Wyrosdick recommended, and the Board unanimously approved, that final design for a school on this site be halted and that another parcel be purchased to serve as a school site. While the property is not conducive to be used as a school site, it could serve as a site for homes.

I am seeking direction from the Board concerning the possibility of declaring the property surplus and then listing it for sale.

Please feel free to contact me if you should have any questions or concerns related to this request.

Sincerely,

Joseph Harrell  
Assistant Superintendent for Administrative Services
