Career and College Night is open to students and their parents from Santa Rosa High School, March 10th, in the Russell Center.

At SRHS, we want to help our fellow students and families in Santa Rosa County by offering this college and career information on a video of the event posted to our website below starting March 13th.

This video production is being created by our newly developed Media Production Class (ITV). The students are participating in an experiential learning activity as a public service to the Santa Rosa School District. **Check us out starting March 13th.**
