Dear Colleagues

In August 2010 the U.S. Department of Education announced Florida as one of ten state winners of the Race to the Top (RTTT) Phase 2 Competition. This competitive grant brought $700 million to the state to implement a broad range of strategies designed to improve the lowest performing schools, reward teachers, and increase the academic achievement of our students. The RTTT monies were to be used over a timespan of four years.

Santa Rosa Professional Educators (SRPE) and Santa Rosa District Schools (SRDS) began working together several years ago to cultivate an inventive instructional evaluation instrument. In accordance to F.S.1012.34, it was our collective intent to create an electronic based document that would meet state requirements and local needs. The focus of this instructional evaluation system is to improve the quality of instruction in order to advance student growth and academic achievement. The accomplished aim was to establish an evaluation system comprised of components which include gathering data, sharing information, and providing opportunities for professional growth. The success of this system relied on collaborative conversations and professional development. The evaluation system chosen by Santa Rosa School District is based on the research compiled by Dr. Robert Marzano in **The Art and Science of Teaching**. Both parties strived to develop a document that reflected evidence of instructional accountability of the Florida Educators Accomplished Practices with application of Marzano's theories. Theories which were meant to enhance instruction for students by assisting teachers in continuous quality improvement of their professional skills. Additionally, we formulated a document that encompassed student learning growth segments, school-wide parent and student involvement, and deliberate practices.

The prevailing challenge has been to link student growth data on statewide assessments to teacher performance. We have been aware of the need to effectively utilize the value added measures formula. We aimed to be reasonable, while applying practical measures for the instructional personnel that are affected by this process or development of this instrument.

This is a fluid document that is always in transitional state. The main success in our district has been Santa Rosa District's continued willingness to keep open dialogue, along with the recognition of the needed transparency in this process with Santa Rosa Professional Educators.

Sincerely,

Rhonda Chavers

Rhonda Chavers

President and Chief Negotiator

Santa Rosa Professional Educators

Santa Rosa County District Schools
Teacher Evaluation System

Assurances

In accordance with all state statutes, rules and laws, the Santa Rosa County School District shall:

- For the purpose of increasing student academic performance by improving the quality of instructional, administrative, and supervisory services in our schools, all instructional personnel will be given the opportunity to review their class rosters for accuracy and to correct any mistakes at the end of the twice during the school year. This is done through the district RVT process after FTE reporting periods three and four.
- Ensure that all evaluators are those individuals who are responsible for supervising the employee. This may include the assistant principal, peers, district staff, department heads, grade level chairpersons or team leaders. If input is provided by personnel other than the principal, those persons will be identified and must be trained in evaluation practices.
- Train all new administrators annually on the evaluation system. This will include training on the observation process including viewing clips of effective teaching, practicing marking and totaling the evaluation instrument, reviewing the surveys used and data collected, and the writing and evaluation of the Professional Development Plan. Administrators who used the system the previous year will receive a review of the evaluation system. New teachers will be trained during new employee orientation. Experienced teachers will receive updates and reviews of the system each during pre-planning by the site-based administrator.
- Provide timely feedback to instructional personnel with specific feedback reasons for any marks that are developing or "needs improvement" for those in their first three years. Additionally, any marks of "not using" must include specific reasons for the rating and specific feedback on how to improve. Best practices suggest providing feedback to the individual within forty-eight hours of a formal and informal observation.
- Analyze evaluation data with instructional personnel to determine professional development needs for the teacher and analyze student needs to determine area of instructional need.
- Require participation in specific professional development programs by those who have been evaluated as less than effective.
- In accordance with s. 1012.34(3)(c), F.S., evaluators will submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
- Submit the written report to the employee no later than 10 days after the evaluation takes place or completed.
- Discuss the written evaluation report with the employee.
- Ensure all employees have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
- Provide evidence that its evaluation procedures for notification of unsatisfactory performance comply with the requirements outlined in s. 1012.34(4), F.S.
- Comply with the requirement that the district school superintendent shall annually notify the Department of any instructional personnel who receive two consecutive unsatisfactory evaluations and shall notify the Department of any instructional personnel who are given written notice3 by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34(5), F.S.

Santa Rosa County District Schools
Teacher Evaluation System

Explanation of Terms

Academic Performance- Term which includes student learning growth, achievement level, and learning gains.

Artifacts – Copies of student work or teacher produced products that are used to support learning in the classroom.

Assessment – Measurement of student achievement.

CELLA – Comprehensive English Language Learners Assessment

Deliberate Practice – Implementing specific research-based strategies to target student growth.

Design Questions – There are nine design questions used in Robert Marzano's The Art and Science of Teaching. These questions help organize the key strategies in Domain One that are part of his model.

Developing – This is a final overall evaluation category which is above "unsatisfactory" but below "effective". It is to be used with Level I and Level II teachers. The "developing" rating would not result in performance pay.

Domains – There are four domains as part of Robert Marzano's The Art and Science of Teaching. Domain one is the largest area of his organization model.

Effective – This is a final overall evaluation category just below "Highly Effective". This rating would qualify for performance pay.

End of Course Exam (EOC): Assessment administered at the end of a course of study. Typically, this will be at the end of a semester or yearlong course. EOCs may be developed and required by the state for specific courses or may be locally developed for courses that do not have a state EOC associated with them.

Florida Standards Alternative Assessment (FSAA) – This is the test used to measure learning gains with our most challenged ESE students. The results from this test will be used to measure our ESE teachers.

Florida State Assessment (FSA) – This is a major test used to measure student performance in the State of Florida core area classes.

Florida Educator Accomplished Practices (FEAPs) – These are the practices identified by Florida Department of Education, which all teachers are expected to demonstrate as professional educators. The evaluation system (Marzano Model) is designed to measure these practices.

Highly Effective – This is the highest category on the overall teacher evaluation system. This rating would qualify the teacher for performance pay.

Instructional Assignment: The type of instructional support an instructor provides for students. It is defined by 1 of 4 types:

Direct: An assessment is tied directly to a course. For example, a student is in a reading course and takes the state reading assessment. The instructor serves as the primary instructor responsible for the course standards. The student academic performance data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

Student Support Instructors: This includes instructors that provide academic support for specific students within a course but are not the responsible instructor. The student academic performance data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

School Wide: This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school. The data used is based upon all school academic performance measurements that have been approved and are appropriate for the assignment.

District: This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators for the district. The data used is based upon all school academic performance measurements that have been approved and are appropriate for the assignment.

Instructional Personnel – Any teacher in the school district. This includes not only classroom teachers, but also media, guidance, deans, TSAs, liaisons.

Job Code: Each employment position is assigned a job code which describes their job title and the students included in their student performance portion of their evaluation. Each job code is classified as receiving a "C" for Class wide Score (these instructors have a student roster indicating the specific students that will count as part of their student performance score) "S" for School wide Score, or "D" for Districtwide score for calculating the instructor's student performance score.

Key Strategies – These are the basic measurements used in the Marzano model of The Art and Science of Teaching.

Lesson Segments – This is how a lesson is divided in the Marzano Model, The Art and Science of Teaching. Lessons can be one of three types: Involving routine events, addressing content or enacted on the spot. Many lessons have a combination of these segments.

Marzano, Robert – A leading authority in the field of teacher evaluation and observations. His model, The Art and Science of Teaching, provides the philosophy of our evaluation system.

~~**Peer Assistant Program** – The district provides a mentor (trained veteran teacher) to help the teacher work on their Professional Improvement Plan.~~

Needs Improvement – This is a final overall evaluation rating. It is above "unsatisfactory" but below "effective." It does not qualify for performance pay. ~~For teachers at Level III – IV, this rating replaces "developing" as a rating.~~

Observation (Formal) – At least thirty minutes in length, scheduled and preceded by a meeting between teacher and administrator, and followed up by a post-conference.

Observation (Informal) – Between five and ten minutes in length, not scheduled, (but during the scheduled ~~work day~~workday), and no pre- or post-conference required. Each teacher should receive one informal observation each quarter of the school year and during scheduled work time.

Peer Assistant Program - Mentor/Coach– The district provides a mentor/coach (trained veteran teacher) to help the teacher work on their Professional Improvement Plan.

~~**Peer Assistant Program** – The district provides a mentor (trained veteran teacher) to help the teacher work on their Professional Improvement Plan.~~

Performance Level – Refers to how a student does on the state assessment such as FSA.

Pre-Observation Conference – Meeting between teacher and administrator to discuss the upcoming formal observation and what the lesson is designed to cover

Post-Observation Conference –Meeting held within forty-eight hours of a formal observation. Teacher brings self-evaluation to this meeting and the administrator reviews his/her notes from the observation. The purpose of this meeting is to help the teacher become more effective.

Professional Development Competency Program (PDCP) – this is the district program for alternative certification teachers.

Proficiency ~~Level (2)~~ Scale Teacher – This outlines the graduated expectations of performance of a teacher as they move from Instructional Personnel I to Instructional Personnel IV.

Tally – Refers to each recording by the administrator during observations or interactions with teachers. The total of these tally marks is used along with the proficiency scale to determine a teacher's effectiveness in the classroom.

Not Using– This is a Marzano term. This is the lowest rating on the FEAPS portion of the evaluations system.

Unsatisfactory- The lowest overall rating on the teacher evaluation system. It does not qualify for performance pay.

WIDA – World Class Instructional Design and Assessment – This is the assessment used for all ELL students.

Santa Rosa County District Schools
Instructional Evaluation System

Overview of System

To complete the writing and construction of the Instructional Evaluation System the Santa Rosa County District Schools appointed a committee of teachers and administrators. This committee included:

Debbie Anderson, Deputy Director, Exceptional Student Education
Bonni Billings, ESE Elementary Teacher, Holley Navarre Primary School
Michele Brown, Academic Intervention Specialist, Pea Ridge Elementary
Conni Carnley, Asst. Superintendent of Human Resources
Rhonda Chavers, President, Santa Rosa Professional Educators
Susan Crawford, Language Arts TeacherEnglish Teacher, Central School
Dustin Coleman, Deputy Director, Exceptional Student Education
David Godwin, Mathematics Teacher, Pace High School
David Gunter, Director, Middle School Education
Nancy Haupt, Principal, SS Dixon Primary School
Alanna Langham, Elementary Intervention Teacher, W.H. Rhodes Elementary School
Josh McGrew, Principal, Oriole Beach Elementary School
Amanda Makar, Assistant Principal, Hobbs Middle School
BJ Price, Director, Human Resources
Dr. Tonya Shepherd, Principal, Avalon Middle School
Kasie Windfelder, Principal, Navarre High School
Floyd Smith, Director, Middle School Education
Jason Weeks, Principal, Gulf Breeze High SchoolDirector, High School Education
Liz West,   Director, Human Resources
Cathy Wray, ESE Teacher, Milton High School

Philosophy

The purpose of the teacher evaluation system is to improve student learning and to guide professional development for teachers. In selecting the Marzano model over other options, Santa Rosa District Schools preferred the focus on classroom strategies and behavior. This approach best fits the philosophy of the Santa Rosa County District School system. In this model more than 75% of the section of the evaluation the administrator completes on the teacher focuses on what happens in the classroom. Dr. Marzano's model divides the art of teaching into four domains: Domain (1) – Classroom Strategies, Domain (2) – Planning and Preparing, Domain (3) – Reflecting on Teaching, and Domain (4) – Collegiality and Professionalism. This model is summarized in **Attachment "A"**. The legislative requirements of the Student Success Act require the evaluation system to measure the Florida Educator Accomplished Practices (FEAPs) adopted in January 2011. A copy of the FEAPs is included as **Attachment "B"**. To document that Dr. Marzano's model measures the FEAPs, a crosswalk has been developed which is included in this document as **Attachment "C"**.

Teacher Levels

For purposes of grouping teachers together so the observation process is as efficient as possible, Santa Rosa County District School has divided its teachers into one of four levels.

Instructional Personnel I – Beginning teachers in their first year of teaching, teachers with a break in service, and any veteran teacher new to in Santa Rosa County District Schools; these teachers will be formally observed once in the fall and once in the spring and an overall evaluation will be given near the end of each semester.

Instructional Personnel II – Teachers in the second and third year of teaching with an effective or highly effective evaluation; teachers will receive two formal observations (one in the fall and one in the spring) and an overall evaluation in the spring.

Instructional Personnel III – Teachers in the fourth through ninth year of teaching with an effective or highly effective evaluation; these teachers will be formally observed once during the school year and receive an overall evaluation in the spring.

6

Instructional Personnel IV – Teachers with more than nine years of teaching with an effective or highly effective evaluation; these teachers do not have to be formally observed during a school year unless their certificate is up for renewal. During that year, they will receive one formal observation. These teachers receive an overall evaluation in the spring. IP IV instructors that do not require a formal observation will have their overall observation scores based upon the informal observations conducted during the current school year.

*The Instructional Levels are included in **Attachment "D".**

*Veteran teachers new to Santa Rosa District School will be required to have two formal observations during their first year in the district.

* Every teacher, regardless of category, should be informally observed at least once every nine weeks during the school year (See "Informal Observations/Interactions".)

*Instructional personnel must have the minimum number of Effective or Highly Effective overall evaluations ratings to move from one IP level to the next. If an instructor, regardless of IP level, receives a Needs Improvement or Unsatisfactory Evaluation rating, he/she will be placed on Professional Improvement Plan (see Attachment O) and is not eligible to move forward in the Instructional Level system. Failure to satisfactorily complete the Professional Improvement Plan may result in termination of the employee. Any IP Level IV instructor who receives a Needs Improvement or Unsatisfactory overall evaluation rating will be required to have a formal observation for the current year regardless of their certificate renewal date.

Observations
It is the philosophy of the Santa Rosa County District Schools that school administrators should be proactive in their approach to teacher observations and interactions. Administrators should spend as much time as possible in the classrooms observing teachers interacting with students. To enable the administrator to manage the observation process in an efficient effective manner, the observation tool will be digitized, and the administrator should use this format of recording observations electronically. Each teacher will be observed and evaluated by their school principal unless the principal delegates that responsibility to an assistant principal. If the principal does delegate this responsibility the principal will still be responsible for reviewing the evaluation before it is finalized.

An administrator's marks must be based on what the administrator witnesses during a formal or informal observation or during pre/post observation conferences.

Observation Ratings
When completing each section of the observation, the following ratings will be used:

Innovating 4.0
Applying 3.0
Developing 2.0
Not using 1.0

Not Using is the lowest rating on the FEAPS portion of the Instructional Evaluation System. An overall evaluation of Unsatisfactory does not qualify for a level increase. Any mark below applying on the evaluation instrument must have supporting comments and any mark of Not Using must indicate ways for the employee to improve.

Formal Observations – These are observations that have been mutually agreed upon by the teacher and administrator as to date and time of the observation. They should last at least 30 minutes in length. Each formal observation shall be preceded by a pre-observation conference. Following each formal observation, there shall be a post observation conference which should occur within 48 hours of the observation. In this post observation conference, the teacher will bring a self-assessment of the observation. The administrator and teacher will then review and discuss their perspective on the lesson observed.

Should an administrator determine a formal observation is preferred on a teacher, the administrator will inform the teacher and a mutually agreed upon date and time will be determined for the observation to take place. A teacher who is not required to have formal observations may request that one be done as part of their annual evaluation. Pre and Post

Observation Conferences shall be individual face to face meetings unless the employee waives the face to face meeting in writing to the principal.

Informal Observations/Interactions – These are unscheduled and generally last about five minutes to ten minutes in length. It is within the administrator's authority to decide to stay longer than five minutes if appropriate, but the informal observation should not last longer than 25 minutes. If the administrator feels the need to stay longer than 25 minutes, a formal observation should be scheduled with the classroom teacher. Informal observations/interactions can also take the form of a classroom walkthrough, conversation in the hallway or office, parent conference, or any other setting which allows the administrator to observe the teacher performing their responsibilities.

Every teacher, regardless of category, should be informally observed at least once every nine weeks during the school year. Any observations over the required amount should only be conducted for the purpose of remediating a teaching deficiency and should be noted on a Professional Improvement Plan.

Observation Documents, including the detailed rubric for the Observation Instrument, are included as **Attachment "E"**. These documents are the only observation instruments which will be used by all administrators, all classroom and non-classroom-based teachers for all formal observations.

Domain Weights
Santa Rosa District Schools modifies the Marzano model of 60 elements to address them in 2834 elements and 8 indicators that make up the Santa Rosa District Schools FEAPs Observation Tool (SRDSFOT, See the crosswalk in **Attachment "C"** noting the inclusion of where the Santa Rosa District Schools FEAPs Observation Tool (SRDSFOT) addresses the FEAPS and Marzano elements using a numbered system for the SRDSFOT located in **Attachment "E".**) An effort was made to keep the percentage of elements measured by each domain near the Marzano model. The Santa Rosa County District Schools version includes the following percentage of total elements (2834) included in each Domain:

Domain I	Classroom Strategies and Behaviors	8079%	(21 27 of 28 34 elements)
Domain II	Planning and Preparing	99%	(3 of 28 34 elements)
Domain III	Reflection on Teaching	23%	(1 of 28 34 elements)
Domain IV	Collegiality and Professionalism	99%	(3 of 28 34 elements)

Proficiency Scale for all Instructional Personnel Levels I thru IV
This scale will be used as part of the Marzano model when completing Section III of the teacher evaluation.

Proficiency Scale for Santa Rosa County District Schools
All Levels of Instructional Personnel

IPI	Innovating (4)	Applying (3)	Developing (2)	Not Using (1)
D1: D2: D3: D4:	At least 5560% at Level 4 And 0% at Level 1	At least 5060% at Level 3 or higher	Less than 5060% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 5050% at Level 1

IPII	Innovating (4)	Applying (3)	Developing (2)	Not Using (1)
D1: D2: D3: D4:	At least 6565% at Level 4 And 0% at Level 1	At least 6065% at Level 3 or higher	Less than 6065% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 5050% at Level 1

IPIII	Innovating (4)	Applying (3)	Developing (2)	Not Using (1)
D1: D2: D3: D4:	At least 7570% at Level 4 And 0% at Level 1	At least 70% at Level 3 or higher	Less than 70% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1

IPIV	Innovating (4)	Applying (3)	Developing (2)	Not Using (1)
D1: D2: D3:	At least 8575% at Level 4 And 0% at Level 1	At least 8075% at Level 3 or higher	Less than 8075% at Level 3 or higher and less than 50% at Level 1	Greater than or equal to 50% at Level 1

This Proficiency Scale for Santa Rosa County District Schools All Levels of Instructional ~~personnel~~ Personnel is also included as **Attachment "F"**.

<u>Evaluation Instrument Organization</u>
The Santa Rosa County District Schools Teacher Evaluation Instrument is organized into six sections. These sections are listed below including the assigned percentages for each and a timeline for that section.

<u>Self-Assessment:</u>
In this section the employee will complete a self-assessment regarding their performance of the FEAPs. The self-assessment will not be counted toward the final evaluation score. This should be completed by the end of the First Nine Weeks.

~~Verify Assignments~~Verify Assignments:
By the end of the first nine weeks, the employee will verify and review their job code, teaching assignment, and teaching location with their administrator.
~~In this section the employee will complete demographic data and review their teaching assignment and teaching location. They will also verify the assessments/percentages to be used in their annual evaluation.~~

<u>Surveys: (Counts as 10% of the overall Instructional Evaluation Rating)</u>
This section will include two surveys – Parent and Student. These surveys will be conducted near the end of each school year. The school wide results from the end of the year survey will be used on the teacher evaluation. In these surveys, the parents and the students will answer questions concerning their school. In order to address the reading comprehension level of the students, the student surveys will be divided into three levels: Elementary and Middle, High. A copy of each survey is included as **Attachment "G"**. Each survey will count 5% of the teacher evaluation for **a total of 10% of the overall evaluation**. These surveys were constructed with the help of EducatorReady, a division of the Studer Group. The Studer Group is also responsible for conducting the surveys and providing the results. Their consultants will also provide feedback and discussion with district level administrators regarding survey results. More information about the Studer Group and the services they provide are included in **Attachment "H"**. The data from the end of the year surveys should be available by June 1 of each school year.

Head Start and Pre-K students will not complete a student survey. Teachers of these students will count parent survey results as 10% of their evaluation. The parents of students at Santa Rosa Adult School and Locklin Technical Center will not complete surveys. Teachers of these students will count student survey results as 10% of their evaluation.

The Studer Group's research with surveys is based on a 5.0 scale: 1=Strongly Disagree, 2=Disagree, 3=Neutral, 4=Agree, 5=Strongly Agree. The Studer Group believes changing the scale would not support the research conducted on surveys. The state of Florida's evaluation system is based on a 4.0 scale: 1= Highly Effective, 2=Effective, 3= Needs Improvement, 4= Unsatisfactory. In order to use the results of the Studer surveys (student, parent, employee and principal) we will use the following conversion scale.

Studer Group School Wide Survey Results	Evaluation Score
4.00 – 5.00	Highly Effective (4.0)
2.75 - 3.99	Effective (3.0)
2.00 – 2.74	Needs Improvement (2.0)
Below 2.00	Unsatisfactory (1.0)

<u>Professional Development Plan: (Counts as 20% of the overall Instructional Evaluation Rating)</u>
Every educator in the Santa Rosa County District School system is required to complete a Professional Development Plan. These plans are initiated by the end of the first quarter of the school year. The administrator will evaluate the Professional Development Plan. This section of the evaluation should be completed by June 1 of each school year. **This section will count** 20% of the overall teacher evaluation. Best practice is that the professional development plan be individualized for specific growth of the individual teacher. See Section II in **Attachment "O"** (Sample Evaluation) of the Evaluation Instrument for a copy of the Professional Development Plan.

<u>Administrator's Evaluation of the Florida Educator Accomplished Practices (FEAPs)</u>

9

This section of the evaluation is where the administrator is measuring the teacher's implementation of the Florida Educators Accomplished Practices. This section is based on the Marzano model and will total the data collected from formal and informal observations and other teacher interactions to determine performance level. **This section counts as 5035% of the overall evaluation and should be completed by June 1 of each school year.** All observations will be completed two weeks prior to the end of the school year. See Section III of the Evaluation Instrument in **Attachment "O"** (Sample Evaluation) to see a copy of how this section is totaled.

Student Performance

This section will count 5035% of the total teacher evaluation. This section will be completed as soon as the data has been received and appropriately processed according to the negotiated method. It is to all employee's benefit that this process is completed in a timely manner. We will use up to three years of data available when calculating scores. This section will count the full 3550% for all teachers regardless of the number of years of data available. The assessments and assignment of assessment scores reflect the current legislative requirements based upon the students that teachers serve with regard to their instructional assignment. An employee's assignment is identified by a job code. Each job code is classified as receiving a "C" for Class wide Score (these instructors have a student roster indicating the specific students that will count as part of their student performance score), "S" for Schoolwide Score, or "D" for Districtwide score for calculating the instructor's student performance score (**See Attachment "I"**). Each job code is further identified by type regarding the instructional services they provide, and which students count as part of the instructor's student performance score. The types of instructional; assignments are as follows:

Direct: An assessment is tied directly to a course. For example, a student is in a reading course and takes the state readingend of year assessment. The instructor serves as the primary instructor responsible for the course standards. The student academic performance data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

Student Support Instructors: This includes instructors that provide academic support for specific students within a course but are not the responsible instructor. The student academic performance data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

School Wide: This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school. The data used is based upon all school academic performance data that have been approved and are appropriate for the assignment.

District: This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators for the district. The data used is based upon all school academic performance data that have been approved and are appropriate for the assignment.

Santa Rosa County District Schools Guidelines for Local Assessments, Board Approved 8/21/2014, describes the selection process, development, administration, and scoring of local assessments.

Each course assigned to an instructor will have an associated assessment. For all courses that have a state assessment provided, that assessment will be used. For all other courses, a local End of Course or End of Year assessment will be developed/determined. All students scheduled for a course will take the assessment associated with the course. Each student will receive an assessment "Raw Score" which will utilize a conversion scale that has been developed based upon specific content that will return a "Scaled Score" of a 1, 2, 3 or 4. (**See Attachment "J"**)

Students who are identified due to special considerations such as SWD (Students with Disabilities), ELL (English Language Learners), or students at alternative schools that take local end of course or end of year exams will use an alternate conversion scale to return a scale score of 1, 2, 3 or 4. Each student's scaled score will be used as part of the teacher's student performance score unless they have been removed from the Roster Verification Tool due to failure to meet the following minimum attendance requirements:

For a year-long course: The student must be present for both Survey 2 & 3 in the same instructor's course and be membership (enrolled) in the class for a minimum of 90% of the number of days the course/section is scheduled to meet and have less than 10 days of absences during each semester. A teacher may remove up to 30% of their enrolled students.

For semester courses: the student must be in membership (enrolled) during the FTE Survey period of the course and a minimum of 90% of the number of days a course/section is scheduled to meet and have less than 10 days of absences during the semester. A teacher may remove up to 30% of their enrolled students.

*It is the responsibility of the instructor to complete the RVT process and determine which students will be included in their evaluation. This is not a task to be completed by administration or any other designee.

Courses that have an associated assessment that returns a required VAM score for the teacher will utilize a scale to convert the VAM score to a 1, 2, 3, or 4. Each student assigned to the teacher in the course will receive the teacher's scaled VAM score as their converted assessment score. There are no alternative scales associated with the VAM score since the VAM calculation takes into consideration student factors that can impact student academic performance.

Once students receive a converted scale score, each student's score for a specific instructor's course will be added together. The sum of the student's scores which are associated with an instructor will be divided by the total number of student scores included in the sum. The result will equate to the instructor's overall student performance score. The instructor's overall student performance score will count as 3550% of the instructor's overall evaluation score.

If an instructor has fewer than ten (10) students, their student performance score will be either classroom or schoolwide, whichever is greater.

An example of an instructor's student performance calculation is included in **Attachment "K"** as well as a flow chart showing the process of including student scores in an instructor's student academic performance score.

Attachment "L" Provides a list of Student Academic Performance Measures utilized in the calculation of student performance.

The "Santa Rosa County District Schools Guidelines for Local Assessments", Board Approved 8/21/2014, describes the selection process, development, administration, and scoring of local assessments. This document will be reviewed annually.

Overall Evaluation
This section totals the scores for student performance, and the FEAPs and identifies an overall annual evaluation. This section will be completed as soon as the data has been received and appropriately processed according to the negotiated method. It is to all employee's benefit that this process is completed in a timely manner. In the event of a delay in completing this section, instructional personnel will be notified as to the reason for the delay and provided an anticipated completion date.

The administrator must provide access to a copy of the evaluation to the teacher within 10 days of the completion of the evaluation. The administrator will be available to discuss the overall evaluation with the teacher at an agreed upon meeting time. The teacher shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.

To determine the overall evaluation, each section will be totaled and weighted using the assigned percentages. The total evaluation will use the following ratings to determine the overall evaluation:

Highly Effective 4.00 – 3.50
Effective 3.49 – 2.25
Needs Improvement 2.24 – 1.75
Unsatisfactory Below 1.75

The Santa Rosa District Schools will continue to work to improve the electronic version of this Instructional Evaluation. A sample of the Santa Rosa District Schools Evaluation Document is located in **Attachment "O"** along with a completed sample.

Instructional Personnel I – First Semester Evaluation
All first-year teachers, teachers with a break in service, and teachers new to Santa Rosa County District Schools will be assigned as Instructional Personnel Level I. This level requires two evaluations – one at the end of the first semester and one at the end of the school year. The second evaluation will use the instrument as all other instructional levels

and include ~~Section IV with student performance~~ survey data.~~ ~~ The first evaluation is different due to the fact that the evaluation takes place in the middle of the school year.~~ ~~ A separate instrument is used for First Semester Evaluations. This evaluation will not count toward the final overall evaluation. **See Attachment "P"** for a copy of the First Semester Evaluation Form. It includes ~~and~~ a section measuring the Accomplished Practices using the modified Marzano model (~~50~~80%) and student performance (~~50~~20%).

~~In addition to the two evaluations for first year teachers they also go through our Professional Orientation Program. As part of this process they are assigned a support team of three members: an administrator, peer educator and another educator. This team meets several times during the year, helps the new teacher build and maintain a portfolio documenting their work on the accomplished practices and conducts a minimum of six formal observations and four informal.~~

Teachers on Leave of Absence, Interim Teachers, Teachers Working Less Than Full Time, Evaluation Assignment Date
An evaluation will be completed on teachers who are on a leave of absence or interim teachers if they work a minimum of ~~99~~45 days during the school year.~~ ~~ If they work less than ~~99~~45 days during a school year, no annual evaluation will be completed.

If a part-time teacher works the equivalent of 3.75 hours or less per day, an annual evaluation is not required, but is an option if requested by the teacher.~~ ~~ If a part-time teacher works the equivalent of more than 3.75 hours per day, an annual evaluation will be required.

In circumstances in which an instructor has a different year-long teaching assignment for FTE Survey 2 & 3, the instructor's student performance data and stakeholder survey data will be determined based upon the teaching assignment they are assigned to for a minimum of 99 days.

Professional Improvement Plan/Peer Assistance Program
Any returning teacher who receives an overall evaluation rating of ~~n~~Needs ~~i~~Improvement or ~~u~~Unsatisfactory the previous year will be placed on a Professional Improvement Plan and receive assistance through our Peer Assistance Program. A teacher may be placed on a Professional Improvement Plan if there are areas on the FEAPs that are being performed at the Developing or Not Using level.~~ ~~ This improvement plan will identify deficiencies in performance and outline a plan for improvement.~~ ~~ The teacher needing assistance will select a ~~peer~~ mentor/coach from a district approved list.~~ ~~ This mentor/coach will not work at the school site of the teacher needing assistance.~~ ~~ This ~~peer~~ mentor/coach will be given release time to work with the teacher when planning and observing the teacher during classroom instruction.~~ ~~ The ~~peer~~ mentor/coach will not be involved in the evaluation process and will help the teacher meet the goals of the Professional Improvement Plan.~~ ~~ Teachers who are identified by the principal as in need of a Professional Improvement Plan may be placed on one at any time during the school year.~~ ~~ These plans should be specific in the nature of the area(s) of improvement and ~~should~~ will be limited to ~~less than the length of a school year~~90 calendar days.~~ ~~ See **Attachment "M"** for a copy of the Professional Improvement Plan.

Currently the District Mentor/Coach ~~Teacher~~ Program provides ~~initial mentor training for new mentors as well as~~ annual training for ~~all district~~ ~~M~~mentors.~~ ~~ ~~Initial training consists of an online 12 hour module (BEACON Learning Center) and is a requirement to be a Mentor Teacher. The online module provides an introductory research based model for mentoring.~~ ~~ Annual Mentor/Coach Training is provided by District staff and consultants for 1-2 days each year to share best practices in mentoring, review surveys provided by mentees, plan ~~New Employee Orientation~~SPARK curriculum, and to provide face-to-face training for district-wide initiatives.~~ ~~ In addition, online book studies are offered to Mentor/Coach Teachers to provide follow up in areas of interest.~~ ~~

Notification of Unsatisfactory Performance
If an employee who holds a professional service contract as provided in s.1012.33 is not performing his/her duties in a satisfactory manner, the evaluator shall notify the employee in writing of such determination.~~ ~~ The notice must describe such unsatisfactory performance and include notice of the following procedural requirements:

1. Upon delivery of a notice of unsatisfactory performance, the evaluator must confer with the employee who holds a Professional Service Contract, make recommendations with respect to specific areas of unsatisfactory performance, and provide assistance in helping to correct deficiencies within a prescribed period of time.

2. The employee who holds a professional service contract shall be placed on performance probation and governed by the provisions of this section for 90 calendar days following the receipt of the notice of unsatisfactory performance to demonstrate corrective action.~~ ~~ School holidays and school vacation periods are not counted when calculating the 90-calendar-day period.~~ ~~ During the 90 calendar days, the employee who holds a

professional service contract must be evaluated periodically and apprised of progress achieved and must be provided assistance and in-service training opportunities to help correct the noted performance deficiencies. At any time during the 90 calendar days, the employee who holds a Professional Service Contract may request a transfer to another appropriate position with a different supervising administrator; however, if a transfer is granted pursuant to ss. 1012.27(1) and 1012.28(6), it does not extend the period for correcting performance deficiencies. Within 14 days after the close of the 90 calendar days, the evaluator must evaluate whether the performance deficiencies have been corrected and forward a recommendation to the district school superintendent. Within 14 days after receiving the evaluator's recommendation, the district school superintendent must notify the employee who holds a professional service contract in writing whether the performance deficiencies have been satisfactorily corrected and whether the district school superintendent will recommend that the district school board continue or terminate his or her employment contract. If the employee wishes to contest the district school superintendent's recommendation, the employee must, within 15 days after receipt of the district school superintendent's recommendation, submit a written request for a hearing. The hearing shall be conducted at the district school board's election in accordance with one of the following procedures:

a. A direct hearing conducted by the district school board within 60 days after receipt of the written appeal. The hearing shall be conducted in accordance with the provisions of ss.120.560 and 120.57. A majority vote of the membership of the district school board shall be required to sustain the district school superintendent's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment; or

b. A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings of the Department of Management Services. The hearing shall be conducted within 60 days after receipt of the written appeal in accordance with chapter 120. The recommendation of the administrative law judge shall be made to the district school board. A majority vote of the membership of the district school board shall be required to sustain or change the administrative law judge's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment.

Employment
Beginning July 1, 2011, annual ~~contracts~~ and Professional Service contracts will not be offered to teachers who have received two consecutive annual performance evaluation ratings of unsatisfactory, two annual performance evaluation ratings of unsatisfactory within a 3-year period, or three consecutive annual performance evaluation ratings of needs improvement, or a combination of needs improvement and unsatisfactory under s.1012.34.

~~A Professional Service Contract shall not be renewed if the teacher receives two consecutive annual performance evaluation ratings of unsatisfactory under s.1012.34, two annual performance evaluation ratings of unsatisfactory within a 3-year period under s.1012.34, or three consecutive annual performance evaluation ratings of needs improvement or a combination of needs improvement and unsatisfactory under s.1012.34.~~

Training Requirement for Administrators and Teachers
New administrators will be trained annually on the evaluation system. This will include training on the observation process including viewing clips of effective teaching, practicing marking and totaling the evaluation instrument. Administrators who used the system the previous year will receive a review of the evaluation system. Experienced and new teachers will receive updates and reviews of the system during pre-planning by the site-based administrator.

LEARNING AND PERFORMANCE MANAGEMENT

Domain 1: Classroom Strategies and Behaviors

Domain 1 is based on the Art and Science of Teaching Framework and identifies the 41 elements or instructional categories that happen in the classroom. The 41 instructional categories are organized into 9 Design Questions (DQs) and further grouped into 3 Lesson Segments to define the Observation and Feedback Protocol.

Lesson Segment Involving Routine Events

Lesson Segment Addressing Content

Lesson Segment Enacted on the Spot

DQ1: Communicating Learning Goals and Feedback
1. Providing Rigorous Learning Goals and Performance Scales (Rubrics)
2. Tracking Student Progress
3. Celebrating Success

DQ6: Establishing Rules and Procedures
4. Establishing Classroom Routines
5. Organizing the Physical Layout of the Classroom

DQ2: Helping Students Interact with New Knowledge
6. Identifying Critical Content
7. Organizing Students to Interact with New Content
8. Previewing New Content
9. Chunking Content into "Digestible Bites"
10. Helping Students Process New Content
11. Helping Students Elaborate on New Content
12. Helping Students Record and Represent Knowledge
13. Helping Students Reflect on Learning

DQ3: Helping Students Practice and Deepen New Knowledge
14. Reviewing Content
15. Organizing Students to Practice and Deepen Knowledge
16. Using Homework
17. Helping Students Examine Similarities and Differences
18. Helping Students Examine Their Reasoning
19. Helping Students Practice Skills, Strategies, and Processes
20. Helping Students Revise Knowledge

DQ4: Helping Students Generate and Test Hypotheses
21. Organizing Students for Cognitively Complex Tasks
22. Engaging Students in Cognitively Complex Tasks Involving Hypothesis Generation and Testing
23. Providing Resources and Guidance for Cognitively Complex Tasks

DQ5: Engaging Students
24. Noticing When Students are Not Engaged
25. Using Academic Games
26. Managing Response Rates
27. Using Physical Movement
28. Maintaining a Lively Pace
29. Demonstrating Intensity and Enthusiasm
30. Using Friendly Controversy
31. Providing Opportunities for Students to Talk about Themselves
32. Presenting Unusual or Intriguing Information

DQ7: Recognizing Adherence to Rules and Procedures
33. Demonstrating "Withitness"
34. Applying Consequences for Lack of Adherence to Rules and Procedures
35. Acknowledging Adherence to Rules and Procedures

DQ8: Establishing and Maintaining Effective Relationships with Students
36. Understanding Students' Interests and Backgrounds
37. Using Verbal and Nonverbal Behaviors that Indicate Affection for Students
38. Displaying Objectivity and Control

DQ9: Communicating High Expectations for All Students
39. Demonstrating Value and Respect for Low Expectancy Students
40. Asking Questions of Low Expectancy Students
41. Probing Incorrect Answers with Low Expectancy Students

Note: DQ refers to Design Question in the Marzano Art and Science of Teaching Framework. The 9 DQs organize the 41 elements in Domain 1.

The final Design Question, DQ10: Developing Effective Lessons Organized into a Cohesive Unit, is contained in Domain 2: Planning and Preparing.

Florida Educator Accomplished Practices

Florida Educator Accomplished Practices (FEAPs)

Reference Sheet

1. INSTRUCTIONAL DESIGN & LESSON PLANNING

Applying concepts from human development and learning theories, the effective educator consistently:

a. Aligns instruction with state-adopted standards at the appropriate level of rigor;
b. Sequences lessons and concepts to ensure coherence and required prior knowledge;
c. Designs instruction for students to achieve mastery;
d. Selects appropriate formative assessments to monitor learning;
e. Uses diagnostic student data to plan lessons
f. Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies.

2. LEARNING ENVIRONMENT

To maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative, the effective educator consistently:

a. Organizes, allocates, and manages the resources of time, space, and attention;
b. Manages individual and class behaviors through a well-planned management system;
c. Conveys high expectations to all students;
d. Respects students' cultural, linguistic and family background;
e. Models clear, acceptable oral and written communication skills;
f. Maintains a climate of openness, inquiry, fairness and support;
g. Integrates current information and communication technologies;
h. Adapts the learning environment to accommodate the differing needs and diversity of students; and
i. Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals.

3. INSTRUCTIONAL DELIVERY & FACILITATION

The effective educator consistently utilizes a deep and comprehensive knowledge of the subject taught to:

a. Deliver engaging and challenging lessons;
b. Deepen and enrich students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter;
b.c. Identify gaps in students' subject matter knowledge;
c.d. Modify instruction to respond to preconceptions and misconceptions
e. Relate and integrate the subject matter with other disciplines and life experiences;
f. Employ higher-order questioning techniques;
g. Apply varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding;
d.h. Differentiate instruction based on an assessment of student learning needs and recognition of individual differences in students;
e.i. Support, encourage and provide immediate and specific feedback to students to promote student achievement.
j. Utilize student feedback to monitor instructional needs and to adjust instruction.

4. ASSESSMENT

The effective educator consistently:

a. Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process;
b. Designs and aligns formative and summative assessments that match learning objectives and lead to mastery;
c. Uses a variety of assessment tools to monitor student progress, achievement, and learning gains;
d. Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge;
e. Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s); and
f. Applies technology to organize and integrate assessment information.

5. CONTINUOUS PROFESSIONAL IMPROVEMENT

The effective educator consistently:

a. Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs
b. Examines and uses data-informed research to improve instruction and student achievement;
c. Uses a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, adjust planning and continuously improve the effectiveness of the lessons.
d. Collaborates with the home, school and larger communities to foster communication and to support student learning and continuous improvement.
e. Engages in targeted professional growth and opportunities and reflective practices.
f. Implements knowledge and skill learned in professional development in the teaching and learning process.

6. PROFESSIONAL RESPONSIBILITY & ETHICAL CONDUCT

Understanding that educators are held to a high moral standard in a community, the effective educator adheres to the Code of Ethics and the Principles of Professional Conduct of the Education Profession of Florida, pursuant to State Board of Education Rules 6B-1.001 and
6B-1.006, F.A.C., and fulfills the expected obligations to students, the public and the education profession.

Rulemaking Authority 1004.04, 1004.85, 1012.225, 1012.34, 1012.56 FS Law Implemented 1004.04, 1004.85, 1012.225, 1012.34, 1012.56 FS. History New 7-2-98; Amended 12-17-10.

Attachment D

Santa Rosa County District Instructional Levels

Santa Rosa County District Schools

Teacher Evaluation System

Instructional Personnel Levels I thru IV

Instructional Personnel II

Teachers in the 2nd and 3rd year of their teaching career with an effective or highly effective evaluation. Teachers will receive two formal observations (one in the fall and one in the spring) and **one overall evaluation** in the spring.

Instructional Personnel III

Teachers in the 4th thru 9th year of their teaching career with an effective or highly effective evaluation. These teachers will be formally observed once during the school year and receive **one overall evaluation** in the spring.

Instructional Personnel

Teachers with more than 9 years teaching experience with an effective or highly effective evaluation. These teachers do not have to be formally observed during a school year unless their certificate is up for renewal. During that year, they will require one formal observation. Teachers will receive **one overall evaluation** in the spring.

Instructional Personnel I

All teachers in their first year of teaching, teachers with a break in service, and any veteran teachers new to in Santa Rosa County District Schools. These teachers will be formally observed once in the fall and once in the spring and an **evaluation** will be given near the **end of each semester**.

Teachers new to Santa Rosa County District Schools enter here.

Observation Documents

Name of Teacher _____   Name of Administrator _____

Planning Conference Date _____   Observation Date _____   Post Conference Date _____

Please attach any appropriate lesson plans, activity schedules, assessments, scoring guides, and/or rubrics to this document. Please be prepared to discuss the following questions in preparation for the planning conference.

Classroom Demographics
1. Briefly describe the students in your classroom or workspace (e.g. number of students, gender, special needs, reading levels, etc.)
Answer:
Routine Events
2. What are your learning goals for this lesson or activity?
Answer:
3. What will you do to establish or maintain an orderly learning environment?
Answer:
Content
4. What will you do to help students effectively interact with new knowledge?
Answer:
Enacted on the Spot
5. What will you do to engage students in the lesson or activity?
Answer:
6. How will this lesson or activity be organized as part of a cohesive unit?
Answer:

Pre-Observation Conference

Formatted: Font: (Default) Tahoma

Observation Conference

Evaluator:	■ Face - to - Face	Instructor: PETER COTTONTAIL

Classroom Demographics

OPTIONAL QUESTION: Briefly describe the students in your classroom or workspace (e.g. number of students, gender, special needs, reading levels, etc.)

1

Routine Events

What are your learning goals or targets for this lesson or activity?

2

What will you do to establish or maintain an orderly learning environment?

3

Addressing Content

What instructional strategy or strategies will you use to teach the lesson?

4

Enacted on the Spot

What will you do to engage students in the lesson or activity?

5

How will you monitor student progress?

6

Santa Rosa District Schools
Observation Instrument

Name of Teacher _____ Name of Administrator _____

Informal Observation _____ Formal Observation _____

Domain 1- Classroom Strategies and Behaviors (~~21~~27 elements)				
Routine Events (5 elements)				
What does the teacher do to establish and communicate learning goals, track student progress, celebrate success, establish rules and procedures, and organize the physical layout of the classroom?				
1. ~~P~~Providing ~~clear~~ **Rigorous l**~~L~~earning ~~g~~**G**oals and Performance ~~s~~**S**cales ~~to measure those goals~~ (~~e.g. the~~~~e.g. the~~ teacher provides ~~or reminds students about a specific learning goal~~ rigorous learning goals and/or targets, both of which are embedded in a performance scale that includes application of knowledge.)	I (4)	A (3)	D (2)	N (1)
2. **Tracking s**~~s~~**S**tudent ~~p~~**P**rogress (e.g. ~~using formative assessment, the teacher helps students chart their individual and group progress on a learning goal)~~the teacher facilitates tracking of student progress on one or more learning goals and/or targets using a formative approach to assessment.)	I (4)	A (3)	D (2)	N (1)
3. **Celebrating Success** (e.g. the teacher ~~helps students acknowledge and celebrate their current status on a learning goal as well as acknowledge gain)~~provides students with recognition of their current status and their knowledge gain relative to the learning goal or target.)	I (4)	A (3)	D (2)	N (1)
4. **Establishing ~~and Maintaining~~ Classroom ~~Rules and Procedures~~ (Routines** (e.g. the teacher ~~reviews expectations regarding rules and procedures to ensure effective execution)~~ establishes expectations regarding rules and procedures that facilitate students working individually, in groups, and as a class.)	I (4)	A (3)	D (2)	N (1)
5. **Organizing the Physical Layout of the Classroom** (e.g. the teacher organizes the classroom to facilitate movement and ~~focus on~~support learning.)	I (4)	A (3)	D (2)	N (1)
Addressing Content (~~7~~10 elements)				
What will the teacher do to help students ~~to~~ effectively interact with new knowledge?				
6. **Identifying Critical ~~Information (~~Content** (e.g. the teacher continuously ~~indicates the importance of upcoming information)~~identifies accurate critical content during a lesson or part of a lesson that portrays a clear progression of information that leads to deeper understanding of the content.)	I (4)	A (3)	D (2)	N (1)
7. **Organizing Students to Interact with New ~~Knowledge~~ (Content** (e.g. the teacher organizes students into ~~small~~appropriate groups to facilitate the processing of new ~~information~~content.)	I (4)	A (3)	D (2)	N (1)
8. **Previewing New Content** (e.g. the teacher engages students in previewing activities that require students to access prior knowledge and analyze new content.)	I (4)	A (3)	D (2)	N (1)
9. **Chunking Content into "Digestible Bites"** (e.g. the teacher breaks the content into small chunks of information that can be easily processed by students to generate a clear conclusion.)	I (4)	A (3)	D (2)	N (1)
10. **Helping Students Process New Content** (e.g. the teacher systematically engages student groups in processing and generating conclusions about new content.)	I (4)	A (3)	D (2)	N (1)
What will the teacher do to help students deepen and practice their understanding of new knowledge?				
14. **Reviewing Content** (e.g. the teacher ~~begins with a brief review of content and reteaches when necessary~~engages students in a brief review of content that highlights the cumulative nature of the content.)	I (4)	A (3)	D (2)	N (1)
15. **Organizing ~~s~~S**tudents to ~~p~~**P**ractice and ~~d~~**D**eepen ~~k~~**K**nowledge (e.g. the teacher organizes and guides grouping in ways that appropriately facilitate practicing and deepening knowledge.~~students into small groups to deepen knowledge of content~~)	I (4)	A (3)	D (2)	N (1)
17. **Helping Students Examine Similarities and Differences** (e.g. the teacher ~~facilitates activities that students to examine similarities and differences to help deepen their understanding)~~helps students deepen their knowledge by examining similarities and differences.)	I (4)	A (3)	D (2)	N (1)
18. **Helping Students Examine ~~Errors~~ Their~~in~~ Reasoning** (e.g. the teacher helps students ~~examine their own reasoning with logic and evidence to support their claims)~~produce and defend claims by examining their own reasoning or the logic of presented information, processes, and procedures.)	I (4)	A (3)	D (2)	N (1)
19. **Helping Students ~~p~~Practice Skills, Strategies, and Process~~es~~** (e.g. when the content involves a skill, strategy or process, the teacher engages students in practice activities ~~to practices skills, strategies, or processes independently or with guided practice)~~that help them develop fluency and alternative ways of executing procedures.)	I (4)	A (3)	D (2)	N (1)
Enacted ~~on~~ the Spot (~~9~~12 ~~elements~~elements)				
What will the teacher do to engage students?				
24. **Noticing When Students are ~~n~~Not Engaged** (e.g. the teacher scans the rooms, ~~noticing when students are not engaged and takes action to re-engage students)~~ not paying attention or not cognitively engaged and takes overt action.)	I (4)	A (3)	D (2)	N (1)
25. **Using Academic Games** (e.g. the teacher uses academic games to cognitively engage or re-engage students.)	I (4)	A (3)	D (2)	N (1)

26. Managing Response Rates (e.g. the teacher uses response-rate techniques to maintain student engagement in questionsthrough questioning processes.)	I (4)	A (3)	D (2)	N (1)
27. Uses Using Physical Movement (e.g. the teacher uses physical movement to maintain student engagement in content.)	I (4)	A (3)	D (2)	N (1)
28. Maintaining a Lively Pace (e.g. the teacher uses pacing techniques to maintain students' engagement in content.)	I (4)	A (3)	D (2)	N (1)
32. Presenting Unusual or Intriguing Information (e.g. the teacher uses unusual or intriguing and relevant information about the content to enhance cognitive engagement.)	I (4)	A (3)	D (2)	N (1)
What will the teacher do to recognize and acknowledge adherence or lack of adherence to rules and procedures?				
33. Demonstrating "Withitness" (e.g. the teacher uses behaviors associated with "Withitness" to maintain adherence to rules and procedures.)	I (4)	A (3)	D (2)	N (1)
34. Applying Consequences for Lack of Adherence to Rules and Procedures (e.g. the teacher consistently and fairly applies consequences for now not following rules and procedures.)	I (4)	A (3)	D (2)	N (1)
35. Acknowledging Adherence to Rules and Procedures (e.g. the teacher consistently and fairly acknowledges adherence to rules and procedures.)	I (4)	A (3)	D (2)	N (1)
What does the teacher do to establish and maintain effective relationships with students?				
38. Displaying Objectivity and Control (e.g. the teacher behaves in an objective and controlled manner to demonstrate a commitment to students and academic rigor.)	I (4)	A (3)	D (2)	N (1)
What does the teacher do to communicate high expectations for all students?				
369. Demonstrating value Value and respect Respect for all All students Students (e.g. the teacher demonstrates the same positive effective tone with low -expectancy students as with high-expectancy studentsexhibits behaviors that demonstrate value and respect for all students' thinking regarding the content.)	I (4)	A (3)	D (3)	N (1)
40. Asking Questions of all All Students Requiring Higher Order Thinking Skills (e.g. the teacher engages asks questions of all students with questions of the same frequency and depth)	I (4)	A (3)	D (2)	N (1)

Domain II – Planning and Preparing (3 elements)

Planning and preparing for lessons

What does the teacher do to **plan and prepare lessons** with a deep understanding of content?

I (4)	A (3)	D (3)	N (1)
Organizes lessons within a unit so that students move from an understanding to applying the content through consistent authentic tasks.	Organizes lessons within a unit so that students move from a surface to deeper understanding but does not require students to apply the content in authentic tasks.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Planning and preparing for use of materials and technology.

What does the teacher do to **plan and prepare for the use of traditional resources and /or technologies** such as interactive whiteboards, digital devices, etc.?

I (4)	A (3)	D (3)	N (1)
Identifies the available resources and /or technologies that can enhance student understanding and the manner in which they will be used.	Identifies the available resources and /or technologies that can enhance student understanding but does not identify the manner in which they will be used.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Planning and preparing for special needs of students.

What does the teacher do to plan and prepare for the special needs of students?

I (4)	A (3)	D (3)	N (1)
Identifies the special needs of students and the adaptions that will be made to meet those needs.	Identifies the special needs of students but does not articulate the adaptations that will be made to meet these needs.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Domain III – ~~Planning and Preparing~~ Reflecting on Teaching (1 ~~3~~ elements)

Evaluating personal performance

What does the teacher do to **evaluate the effectiveness of individual lessons and units?**

I (4)	A (3)	D (3)	N (1)
Determines how effective a lesson or unit was in terms of enhancing student achievement and consistently identifies causes of successes and failures.	Determines how effective a lesson or unit was in terms of enhancing student achievement but does not accurately identify causes of success and failure on a consistent basis.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Domain IV – Collegiality and Professionalism (3 elements)

Promoting a positive environment

What does the teacher do to **promote positive interactions with colleagues?**

I (4)	A (3)	D (3)	N (1)
Interacts with other colleagues in appositive manner to promote and support students learning and seeks help and mentorship from colleagues regarding specific classroom strategies and behaviors.	Interacts with other colleagues in a positive manner to promote and support student learning and seeks help and mentorship from colleagues.	Interacts with other colleagues in a positive manner.	Makes no attempt to perform this activity.

What does the teacher do to **promote positive interactions with students and parents?**

I (4)	A (3)	D (3)	N (1)
Interacts with students and parents in a positive manner to foster learning and promote positive relationships and helps extinguish negative conversations about students and parents.	Interacts with students and parents in a positive manner to foster learning and promote positive ~~relationships, but~~ relationships but does not help extinguish negative conversations about students and parents.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

What does the teacher do to **adhere to district and school rules and procedures?**

I (4)	A (3)	D (3)	N (1)
Is aware of district and school rules and procedures and adheres to them without prompting.	Adheres to rules and procedures.	Adheres to a rule or procedure after being prompted.	Makes no attempt to adhere to a rule or procedure after being prompted.

Domain 1: Classroom Strategies and Behaviors
Segments Involving Routine Events (5 elements)
Element 1: Providing Rigorous Learning Goals and Performance Scales (Rubrics)
The teacher provides a clearly rigorous stated learning goals or targets, both of which are embedded in a performance scale that includes application of knowledge. accompanied by scale or rubric that describes levels of performance relative to the learning goal.

Teacher Evidence	Student Evidence
Teacher has a learning goal or target posted so that all students can see.for student reference.	Students can explain the learning goal for the lesson.
The learning goal is a clear statement of knowledge or information as opposed to an activity or assignment.	Students can explain how their current activities relate to the learning goal.
Teacher makes reference to the learning goal throughout the lesson.	Students can explain the meaning of the levels of performance articulated in the scale or rubric from simple to complex.
Teacher has a scale or rubric that relates to the learning goal posted so that all students can see it.builds a progression of knowledge from simple to complex.	Student artifacts demonstrate students know the learning goal or target.
Teacher has goals or targets at the appropriate level of rigor.	

Innovating	Applying	Developing	Not Using
Adapts and creates new strategies for unique student needs and situations. Provides rigorous learning goals and performance scales or rubrics and monitors for evidence of the extent to which all the students understand the learning goal and/or targets and levels of performance.	Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance and monitors students' understanding of the learning goal and the levels of performance. Provides rigorous learning goals and performance scales or rubrics and monitors for evidence of the extent to which the majority of students understand the learning goal and/or targets and levels of performance.	Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance. Provides rigorous learning goals and performance scales or rubrics that describe levels of performance, but the majority of the students are either not monitored or displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 2: Tracking Student Progress

The teacher facilitates tracking of student progress on one or more learning goals using a formative approach to assessment.

Teacher Evidence	Student Evidence
Teacher helps students track their individual progress on the learning goal.	Students can describe their status relative to the learning goal using the scale or rubric.
Teacher assigns scores using a scale or rubric that depicts student status relative to the learning goal.	Students systematically update their status on the learning goal.
Teacher uses formal and informal means to assign scores to students.	Students take some responsibility for providing evidence in reference to their progress on the scale.
Teacher charts the progress of the entire class on the learning goal.	Artifacts and data support that students are making progress toward a learning goal.

Innovating	Applying	Developing	Not Using
Adapts and creates new strategies for unique student needs and situations.Facilitates tracking of student progress towards learning goals and/or	Facilitates tracking of student progress towards learning goals and/or targets using a formative approach to assessment and monitors the extent to which a	Facilitates tracking of student progress towards learning goals and/or targets, using a formative approach to assessment, but the majority of students are	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

61

targets using a formative approach to assessment and monitors for evidence of the extent to which all students understand their level of performance.	majority of the students understand their level of performance.	either not monitored for or not displaying the desired effect of the strategy.	

Element 3: Celebrating Success
-*The teacher provides students with recognition of their current status and their knowledge relative to the learning goal.*

Teacher Evidence	Student Evidence
Teacher acknowledges students who have achieved a certain score on the scale or rubric.	Students show signs of pride regarding their accomplishments in the class.
Teacher acknowledges students who have made gains in their knowledge and skill relative to the learning goal.	When asked, students say they want to continue to make progress.
Teacher acknowledges and celebrates the final status and progress of the entire class.	
Teacher uses a variety of ways to celebrate success, such as (1) show of hands, (2) certification of success, (3) parent notification and (4) round of applause.	

Innovating	Applying	Developing	Not Using
~~Adapts and creates new strategies for unique student needs and situations.~~Provides students with recognition of their status and their knowledge gain relative to the learning goal and monitors for evidence of the extent to which all students are motivated to enhance their status.	Provides students with recognition of their current status and their knowledge gain relative to the learning goal and monitors for evidence of the extent to which the majority of the students are motivated to enhance their status.	Provides students with recognition of their current status and their knowledge gain relative to the learning goal, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 4: Establishing and Maintaining Classroom Rules and Procedures
The teacher ~~reviews~~ establishes expectations regarding rules and procedures ~~to ensure their effective execution~~that facilitate students working individually, in groups, and as a whole class.

Teacher Evidence	Student Evidence
Teachers involves students in designing classroom routines and procedures.	Students follow clear routines during class.
Teacher uses classroom meeting to review and process rules and procedures.	Students can describe established rules and procedures.
Teacher reminds students of rules and procedures.	Students describe the classroom as an orderly place.
Teacher asks students to restate or explain rules and procedures.	
Teacher provides cues or signals when a rule or procedure should be used.	Students regulate their own behavior.
Teacher focuses on procedures for students working individually or in small groups.	

Innovating	Applying	Developing	Not Using
~~Adapts and creates new strategies for unique student needs and situations.~~ Establishes expectations regarding rules and procedures and monitors for the extent to which all students understand rules and procedures.	Establishes ~~and reviews~~ expectations regarding rules and procedures and monitors for the extent to which the majority of students understand the rules and procedures.	Establishes ~~and reviews~~ expectations regarding rules and procedures, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

63

Element 5: Organizing the Physical Layout of the classroom
The teacher organizes the physical layout of the classroom to facilitate movement and focus on learning.

Teacher Evidence	Student Evidence
The physical layout of the classroom has clear traffic patterns.	Students move easily about the classroom.
The physical layout of the classroom provides easy access to materials and centers.	Students make use of materials and learning centers.
The classroom is decorated in a way that enhances student learning, including (1) bulletin boards that relate to current content and (2) student work on display.	Students attend to examples of their work that are displayed.
	Students attend to information on the bulletin boards.
	Students can easily focus on instruction.
	Students can easily access technology.
	Transition time is minimized due to layout of classroom.

Innovating	Applying	Developing	Not Using
~~Adapts and creates new strategies for unique student needs and situations.~~Organizes the physical layout of the classroom to facilitate movement and support learning and monitors for evidence of the extent to which all students have easy access to materials in an environment that supports learning.	Organizes the physical layout of the classroom to facilitate movement and support ~~and focus on~~ learning and monitors the ~~impact~~ extent to which the majority of students have access to materials in an ~~of the~~ environment that ~~on~~ supports ~~student~~ learning.	Organizes the physical layout of the classroom to facilitate movement and ~~focus~~ support ~~on~~ learning, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Segments Addressing Content: (7 10 Elements)
 Element 6: Identifying Critical InformationContent
The teacher continuously identifies accurate critical content during a lesson or part of a lesson that portrays a clear progression of information that leads to a deeper understanding of the content. as involving important information to which students should pay particular   attention.

Teacher Evidence	Student Evidence
Teacher highlights critical content that portrays a clear progression of information related to standards and goals.	Students can describe the level of importance of the information presented in class and can explain why it is important to pay attention to the content.
Teacher identifies differences between the critical and noncritical content.	Formative data show students attend to the critical content (e.g. questioning, artifacts).
Teacher cues the importance of upcoming information in some indirect fashion, using (1) tone of voice, (2) body position, or (3) level of excitement.	
Teacher integrates cross curricular connections to content.	

65

Innovating	Applying	Developing	Not Using
Signals to students critical versus non-critical content and portrays a clear progression of information and monitors for evidence of the extent to which all students are attending to critical versus non-critical content.	Signals to students critical versus non-critical content and portrays a clear progression of information and monitors for evidence of the extent to which the majority of students are attending to critical versus non-critical content.	Signals to students critical versus non-critical content and portrays a clear progression of information, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 7: Organizing Students to Interact with New KnowledgeContent
The teacher organizes students into appropriate small groups to facilitate the processing of new informationcontent.

Teacher Evidence	Student Evidence
Teacher has established routines for student grouping and student interaction in groups for the express purpose of processing new content.	Students move to groups in an orderly fashion.Students move and work within groups with an organized purpose.
Teacher organizes students into ad hoc groups for the lesson using (1) dyads, (2) triads, or (3) small groups up to about 5.Teacher provides guidance on one or more conative skills: Becoming aware of the power of interpretations Avoiding negative thinking Taking various perspectives Interacting responsibly Handling controversy and conflict resolution	Students appear to understand expectations about appropriate behavior in groups in that they (1) respect opinions of others, (2) add their perspective to discussions, and (3) ask and answer questions. Students understand expectations about appropriate behavior in groups in that they (1) have an awareness of the power of interpretations, (2) avoid negative thinking, (3) take various perspectives, (4) interact responsibly, (5) appear to know how to handle controversy and conflict resolution, (6) actively ask and answer questions about the content, (7) add their perspectives to discussions and, (8) attend to the cognitive skill(s).
Teacher provides guidance on one or more cognitive skills appropriate to the lesson.	Students attend to the cognitive skills.
Teacher organizes students into ad hoc groups for the lesson.	

Innovating	Applying	Developing	Not Using
Organizes students into appropriate groups to facilitate the processing of new content and monitors for the extent to which all students process in groups.	Organizes students into appropriate groups to facilitate the processing of new content and monitors for the extent to which the majority of students process in groups.	Organizes students into appropriate groups to facilitate the processing of new content but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 8: Previewing New Content
The teacher engages students in previewing activities that require students to access prior knowledge and analyze new content.

Teacher Evidence	Student Evidence
Teacher uses preview questions before reading.	When asked, student can explain linkages with prior knowledge.
Teacher uses K-W-L strategy or a variation of it.	When asked, students make predictions about upcoming content.
Teacher provides an advanced organizer, such as an outline or graphic organizer.	When asked, students can provide a purpose for what they are about to learn.
Teacher has students brainstorm.	Students cognitively engage in previewing activities.

Teacher uses an anticipation guide.	Students can identify basic relationships between prior content and upcoming content.
Teacher uses a motivational hook or launching activity such as presenting anecdotes or a short selection from a video.	Students can explain how prior standards or new goals link to the new content.
Teacher uses a word splash activity to connect vocabulary to upcoming content.	
When necessary, the teacher reteaches basic information or skills.	
Teacher uses digital resources to help students make linkages.	
Teacher uses strategies associated with a flipped classroom.	

Innovating	Applying	Developing	Not Using
Engages students in previewing activities that require students to access prior knowledge and analyze new content and monitors for evidence of the extent to which all students access prior knowledge and analyze new content.	Engages students in previewing activities that require students to access prior knowledge and analyze new content and monitors for evidence of the extent to which the majority of students access prior knowledge and analyze new content.	Engages students in previewing activities that require students to access prior knowledge and analyze new content, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 9: Chunking Content into "Digestible Bites"
The teacher breaks the content into small chunks (i.e. digestible bites) of information that can be easily processed by students to generate a clear conclusion.

Teacher Evidence	Student Evidence
During a verbal presentation, the teacher stops at strategic points.	Students can explain why the teacher is stopping at various points.
While utilizing multi-media, the teacher stops at strategic points.	Students appear to know what is expected of them when the teacher stops at strategic points.
While providing a demonstration, the teacher stops at strategic points.	Students can explain clear conclusions about chunks of content.
While students are reading information or stories orally as a class, the teacher stops at strategic points.	
Teacher uses appropriate questioning to determine if content chunks are appropriate.	
Teacher uses formative data to break content into appropriate chunks.	

Innovating	Applying	Developing	Not Using
Breaks input experiences into small chunks based on student needs and monitors for evidence of the extent to which the chunks are appropriate for all students.	Breaks input experiences into small chunks based on student needs and monitors for evidence of the extent to which the chunks are appropriate for a majority of students.	Breaks input experiences into small chunks based on student needs, but a majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 10: Helping Students Process New Content
The teacher systematically engages student groups in processing and generating conclusions about new content.

Teacher Evidence	Student Evidence
Teacher employs formal group processing strategies like jigsaw, reciprocal teaching, and concept attainment.	Students can explain what they have just learned.

Teacher uses informal strategies to engage group members in actively processing by using predictions, associations, paraphrasing, verbal summarizing, and questioning.	Students volunteer predictions.
Teacher facilitates group members in generating conclusions.	Students voluntarily ask clarification questions.
	Groups are actively discussing the content (1) Group member ask each other and answer questions about the information (2) Group members make predictions about what they expect next.
	Students generate conclusions about the new content.
	Students can verbally summarize or restate the new information.

Innovating	Applying	Developing	Not Using
Engages student groups in processing new content to generate conclusions and monitors for the extent to which the processing enhances student understanding for all students.	Engages student groups in processing new content to generate conclusions and monitors for the extent to which the processing enhances student understanding for the majority of students.	Engages student groups in processing new content to generate conclusions, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 14: Review Content

*The ~~Teacher~~ teacher engages students in a brief review of content that highlights the cumulative nature of the content.~~critical information.~~

Teacher Evidence	Student Evidence
Teacher begins the lesson with a brief review of content.	Students can describe the previous content on which new lesson is based.
Teacher uses specific strategies to review information, including (1) summaries, (2) problems that must be solved using previous information, (3) questions that require a review of content, (4) demonstration, (5) brief practice test or exercise, and (6) warm up activity.	Student responses to class activities indicate that they recall previous content with artifacts, pretests, and warm up activities.
When necessary, the teacher reteaches basic information or skills.	

Innovating	Applying	Developing	Not Using
Engages students in a brief review that highlights the cumulative nature of the content and monitors for evidence of the extent to which all students can recall critical content.	Engages students in a brief review that highlights the cumulative nature of the content and monitors for evidence of the extent to which the majority of students can recall critical content.	Engages students in a brief review that highlights the cumulative nature of the content, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

~~Teacher Evidence~~	~~Student Evidence~~
~~Teacher begins the lesson by explaining why upcoming content is important and cues the importance of upcoming information in some indirect fashion (tone of voice, body position, or level of excitement.~~	~~Students can describe the level of importance of the information presented in class and can explain why it is important to pay attention to the content.~~

Teacher begins the lesson with a brief review of content and uses specific strategies to review the information (summary, problem to be solved, questions, demonstration, brief test or exercise.	Students can describe the previous content on which the new lesson is based and respond to class activities that indicate they recall previous content.
When necessary, the teacher reteaches basic information or skills.	Students visibly adjust their level of engagement.
	Students can describe how hard they tried.

Innovating	Applying	Developing	Not Using
Engages students in reflecting on their own learning process and monitors the extent to which students assess their learning.	Engages students in reflecting on their own learning process.	Uses strategy incorrectly or with parts missing.	Strategy was called for but was not exhibited.
Signals to students which content is critical versus noncritical, engages students in a brief review of content that highlights the critical information, and monitors the extent to which students can recall and describe the previous content.	Signals to students which content is critical versus noncritical and engages students in a review of content that highlights the critical information.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.

Begins lessons by reviewing prior learning and explaining why upcoming content is important.	Begins lessons by reviewing prior learning.	Begins lessons with an inadequate or unrelated review of prior learning.	Strategy was called for but not exhibited.
IP cues the importance of upcoming information in some direct and indirect fashion (tone of voice, body position, level of excitement).	IP announces the importance of upcoming.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.
Students are consistently asked and are able to explain why the content is important.	Students are able to state why the content is important.	Students can occasionally explain why the content is important.	Students are unable to explain why the content is important.

Element 7: Organizing Students to Interact with New Knowledge

The teacher organizes students into small groups to facilitate the processing of new information.

Teacher Evidence	Student Evidence
Teacher has established routines for student grouping and student interaction in groups.	Students move to groups in an orderly fashion.
Teacher organizes students into ad hoc groups for the lesson using (1) dyads, (2) triads, or (3) small groups up to about 5.	Students appear to understand expectations about appropriate behavior in groups in that they (1) respect opinions of others, (2) add their perspective to discussions, and (3) ask and answer questions.

Innovating	Applying	Developing	Not Using
The teacher has established routines for student grouping and student interaction in groups and students demonstrate an understanding of those routines.	Teacher has established routines for student grouping and student interaction in groups.	Teacher has no established routines for student grouping and student interaction in groups.	Strategy was called for but not exhibited.

Students demonstrate an understanding about expectations for appropriate behavior in groups (respect opinions of others, add their perspective to discussions, ask and answer questions.	Students demonstrate an understanding about expectations about appropriate behavior in groups.	Students understand expectations about appropriate behavior.	Students do not demonstrate an understanding of expectations about appropriate behavior in groups.

Element 15: Organizing Students to Practice and Deepen Knowledge
The teacher ~~uses~~ organizes and guides grouping in ways that appropriately facilitate practicing and deepening knowledge.

Teacher Evidence	Student Evidence
Teacher organizes students into groups with the expressed idea of deepening their knowledge of content.	Students explain how the group work supports their learning.
Teacher organizes students into groups with the expressed idea of practicing a skill, strategy, or process.	While in groups, students interact in explicit ways to deepen their knowledge of informational content or practice a skill, strategy, or process: (1) Students actively ask and answer questions about the content, and (2) students add their perspective to discussions.
Teacher provides guidance regarding group interactions.	Students move and work within groups with an organized purpose.
Teacher provides guidance on one or more conative skills, (1) becoming aware of the power of interpretations, (2) avoiding negative thinking, (3) taking various perspectives, (4) interacting responsibly, and (5) handling controversy and conflict resolution.	Students express conative skills, (1) awareness of the power of interpretations, (2) avoid negative thinking, (3) take various perspectives, (4) interact responsibly, and (5) handle controversy and conflict resolution.
Teacher provides guidance on one or more cognitive skills appropriate for the lesson.	Students attend to the cognitive skill (s).

Innovating	Applying	Developing	Not Using
Organizes students into groups that appropriately facilitate practicing and deepening knowledge and monitors for evidence of the extent to which the group work extends the learning of all students.	Organizes students into groups that appropriately facilitate practicing and deepening knowledge and monitors for evidence of the extent to which the group work extends the learning of the majority of students.	Organizes students into groups that appropriately facilitate practicing and deepening knowledge, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.
Innovating	Applying	Developing	Not Using
Organizes students into groups to practice and deepen their knowledge and monitors the extent to which the group work extends their knowledge.	Organizes students into groups to practice and deepen their knowledge.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.
Adapts and creates new strategies for unique student needs and situations.	Organizes students into small groups to facilitate the processing of new knowledge and monitors group processing.	Organizes students into small groups to facilitate the processing of new knowledge.	Strategy was called for but not exhibited.

Element 17: **Helping Students Examine Similarities and Differences.**

*When ~~the~~ presenting content ~~is informational~~, the teacher helps students deepen their knowledge by examining similarities and differences.

Teacher Evidence	Student Evidence
Teacher engages students in activities that require students to examine similarities and differences ~~between content~~, such as (1) comparison activities, (2) classifying activities, (3) analogy activities, ~~and~~ (4) metaphor activities , (5) identifying basic relationships between ideas that deepen knowledge and, (6) generating and manipulating mental images that deepen knowledge.	Students can create analogies and/or metaphors that reflect their depth of understanding.
Teacher asks students to summarize what they have learned from the activity.	~~Student responses indicate that they have deepened their understanding.~~ Student comparison and classification activities reflect their depth of understanding.
Teacher asks students to linguistically and non-linguistically represent similarities and differences.	~~Students can explain similarities and differences.~~ Student artifacts indicate that student knowledge has been extended as a result of the activity.
Teacher asks students to explain how the activity has added to their understanding.	Student responses indicate that they have deepened their understanding.
Teacher asks students to draw conclusions after the examination of similarities and differences.	Students can present evidence to support their explanation of similarities and differences.
Teacher facilitates the use of digital resources to find credible and relevant information to support examination of similarities and differences.	Students navigate digital resources to find credible and relevant information to support similarities and differences.

Innovating	Applying	Developing	Not Using
~~Adapts and creates new strategies for unique student needs and situations.~~ Engages students in activities that require them to examine similarities and differences related to content and monitors for evidence of the extent to which it deepens understanding for all students.	~~When content is informational, engages students in activities that require them to examine similarities and monitors the extent to which the students are deepening their knowledge~~ Engages students in activities that require them to examine similarities and differences related to content and monitors for evidence of the extent to which it deepens understanding for the majority of students.	~~When content is informational, engages students in activities that require them to examine similarities and differences or uses strategy incorrectly or with parts missing.~~ Engages students in activities that require them to examine similarities and differences related to content, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	~~Strategy was called for but not exhibited~~ Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 18: **Helping Students Examine Errors in Reasoning.**

*~~When content is informational, the teacher helps students deepen their knowledge by examining their own reasoning of the logic of the information as presented to them.~~*The teacher helps students produce and defend claims by examining their own reasoning or the logic of presented information, processes, and procedures.*

Teacher Evidence	Student Evidence
Teacher asks students to examine information for errors or informal fallacies in content or in their own reasoning such as (1) faulty logic, (2) attacks, (3) weak reference and (4) misinformation.	Students can describe errors or informal fallacies in content.
Teacher asks students to examine and analyze the strength of support presented for a claim in content or in their own reasoning by evaluating (1) clarity of the claim statement, (2) evidence for the claim presented and (3) qualifiers presented showing exceptions to the claim.	Students can explain the overall structure of an argument presented to support a claim.
Teacher asks students to examine logic of errors in procedural knowledge.	Students artifacts indicate students can identify errors in reasoning or make and support a claim.
Teacher asks students to analyze errors to identify more efficient ways to execute processes.	Students navigate digital resources to find credible and relevant information to support examination of errors in reasoning.
Teacher facilitates the use of digital sources to find credible and relevant information to support examination of errors in reasoning.	Student artifacts indicate students take various perspectives by identifying the reasoning behind multiple perspectives.
Teacher involves students in taking various perspectives by identifying the reasoning behind multiple perspectives.	

Innovating	Applying	Developing	Not Using
~~When content is informational, engages students in activities that require them to examine their own reasoning or the logic of information as presented to them and monitors the extent to which students are deepening their knowledge.~~Engages students in activities that require them to examine their own reasoning or the logic of information as presented to them and monitors for evidence of the extent to which it deepens the understanding for all students.	~~When content is informational, engages students in activities that require them to examine their own reasoning or the logic of informational as presented.~~Engages students in activities that require them to examine their own reasoning or the logic of information as presented to them and monitors for evidence of the extent to which it deepens the understanding for the majority of students.	~~Uses strategy incorrectly or with parts missing.~~Engages students in activities that require them to examine their own reasoning or the logic of information as presented to them, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	~~Strategy was called for but not exhibited.~~Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 19: **Helping students Practice Skills, Strategies and Processes**

When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.

Teacher Evidence	Student Evidence
Teacher engages students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process, utilizing either (1) guided practice if students cannot perform the skill, strategy, or process independently, or (2) independent practice if students can perform the skill strategy, or process independently.	Students perform the skill, strategy, or process with increased confidence.
Teacher guides students to generate and manipulate mental models for skills, strategies, and processes.	Students perform the skill, strategy, or process with increased competence.
Teacher employs "worked examples."	Student artifacts or formative data show fluency and accuracy is increasing.
Teacher provides opportunity for practice immediately prior to assessing skills, strategies, and processes.	Students can explain mental models.
Teacher models the skill, strategy, or process.	

Innovating	Applying	Developing	Not Using
When content is a skill, strategy, or process, engages students in practice activities and monitors the extent to which the practice is increasing student fluency.When content involves a skill, strategy, or process, engages students in practice activities and monitors for evidence of the extent to which it increases fluency or deepens understanding for all the students.	When content is a skill, strategy or process, engages students in practice activitiesWhen content involves a skill, strategy, or process, engages students in practice activities and monitors for evidence of the extent to which it increases fluency or deepens understanding for the majority of students.	Uses strategy incorrectly or with parts missing.When content involves a skill, strategy, or process, engages students in practice activities, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Strategy was called for but not exhibited.Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Segments Enacted on the Spot (7 12 elements)
Element 24: Noticing wWhen sStudents are nNot eEngaged.
The teacher scans the room, making note of when and notices when students are not paying attention or cognitively engaged and takes overt action.

Teacher Evidence	Student Evidence
Teacher notices when specific students or groups of students are not paying attention or cognitively engaged.	Students appear aware of the fact that the teacher is taking note of their level of engagement.
Teacher notices when the energy level in the room is low or students are not participating.	Students try to increase their level of engagement when the teacher uses engagement strategies.
Teacher takes action or uses specific strategies to re-engage students.	Students explain that the teacher expects high levels of engagement.
	Students report that the teacher notices when students are not engaged.

Innovating	Applying	Developing	Not Using

73

~~Adapts and creates new strategies for unique student needs and situations.~~Scans the room and notices when students are not engaged and takes action and monitors for evidence of the extent to which all students re-engage.	Scans the room ~~making note of~~and notices when students are not engaged and ~~taking~~ takes action and monitors ~~for evidence of~~ the extent to which the majority of students re-engage.	Scans the room~~, making note of~~ and notices when students are not engaged and ~~taking~~ takes action, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	~~Strategy was called for but not exhibited.~~ Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Formatting annotations (right margin): Formatted: Font: 9 pt (×10)

Element 25: Using Academic Games

The teacher uses academic games to cognitively engage or re-engage students.

Teacher Evidence	Student Evidence
Teacher uses academic games that focus on or reinforce important concepts.	Students engage in the games with some enthusiasm.
Teacher uses academic games that create generalizations or test principles.	Students can explain how the games keep their interest and help them learn or remember content.
Teacher uses structured, inconsequential competition games such as Jeopardy or Family Feud.	Students appear to take various perspectives when engaged in academic games.
Teacher develops impromptu games such as making a game out of which answer might be correct for a given question.	Students interact responsibly during academic games.
Teacher uses friendly competition along with classroom games.	Students handle controversy and conflict during academic games.
Teacher develops conative skills during academic games such as taking various perspectives, interacting responsibly, and handling controversy and conflict.	

Innovating	Applying	Developing	Not Using
Uses academic games to maintain student engagement and monitors for evidence of the extent to which these activities enhance student engagement for all students.	Uses academic games to maintain student engagement and monitors for evidence of the extent to which these activities enhance student engagement for the majority of students.	Uses academic games to maintain student engagement, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 26: Managing Response Rates
*The teacher uses response-rate techniques to maintain student engagement ~~in questions~~ through questioning process~~es~~.

Teacher Evidence	Student Evidence
Teacher uses appropriate wait time.	Multiple students or the entire class respond to questions the teacher poses.
Teacher uses a variety of activities that require all students to respond such as response cards, hand signals, choral responses.	Students can describe their thinking about specific questions the teacher poses.
Teacher uses technology to keep track of students' responses.	Students engage or re-engage in response to teacher's use of questioning techniques.
Teacher use response chaining.	
Teacher increases response rates by requiring students to back up responses with evidence.	

Innovating	Applying	Developing	Not Using
~~Adapts and creates new strategies for unique student needs and situations.~~ Uses response rate techniques to maintain student engagement through questioning processes and monitors for evidence of the extent to which these activities enhance student engagement for all students.	Uses response rate techniques to maintain student engagement ~~in though questions~~ questioning processes and monitors ~~for evidence of~~ the extent to which the ~~techniques keep students engaged.~~ these activities enhance student engagement for the majority of students.	Uses response rate techniques to maintain student engagement ~~in questions~~ through questioning processes, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	~~Strategy was called for but not exhibited.~~ Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 27: Using Physical Movement
*The teacher uses physical movement to maintain student engagement in content.

Teacher Evidence	Student Evidence
Teacher has students stand up and stretch or do related activities when their energy is low.	Students engage in the physical activities the teacher designs.
Teacher uses activities that require students to physically move to respond to questions, such as (1) vote with your feet or (2) go to the part of the room that represents the answer you agree.	Students can explain how the physical movement keeps their interest and helps them learn.
Teacher has students physically act out or model content to increase energy and engagement.	Student behavior shows physical movement strategies increase cognitive engagement.
Teacher uses give one, get one activities that require students to move about the room.	
Teacher facilitates movement to learning stations or to work with other students.	
Teacher has students move after brief chunks of content engagement.	

Innovating	Applying	Developing	Not Using

Adapts and creates new strategies for unique student needs and situations.Uses physical movement to maintain student engagement and monitors for evidence of the extent to which these activities enhance student engagement for all students.	Uses physical movement to maintain student engagement and monitors for evidence the extent to which these activities enhance student engagement for the majority of students..	Uses physical movement to maintain student engagement, but the majority of students are either not monitored for or not displaying the desired effect of the strategy, or use strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 28: Maintaining a Lively Pace

*The teacher uses pacing techniques to maintain students' engagement in content.

Teacher Evidence	Student Evidence
Teacher employee crisp transitions from one activity to another.	Students quickly adapt to transition and re-engage when a new activity is begun.
Teacher alters pace appropriately (i.e., speeds up and slows down based on the learners).	When asked about the pace of the class, students describe it as neither too fast nor too slow.
Teacher balances a lively pace with the need for adequate time to respond to specific activities and assignments.	Students stay engaged when the pace of the class is not too fast or not too slow.

Innovating	Applying	Developing	Not Using
Uses pacing techniques to maintain students' engagement and monitors for evidence of the extent to which these techniques activities enhance student engagement for all students. keep students engage.	Uses pacing techniques to maintain students' engagement and monitors for evidence of the extent to which these activities enhance student engagement for the majority of students.	Uses strategy incorrectly or with parts missing. Uses pacing techniques to maintain student engagement, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Strategy was called for but not exhibited. Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

32. Presenting Unusual or Intriguing Information

*The teacher uses unusual or intriguing and relevant information about the content to enhance cognitive engagement.

Teacher Evidence	Student Evidence
Teacher systematically provides interesting facts and details about the content.	Student attention increases when unusual information is presented about the content.
Teachers encourages students to identify interesting information about the content.	Students explain how the unusual information makes them more interested in the content.
Teacher engages students in activities like "Believe it or not" about the content.	Students explain how the unusual information deepens their understanding of the content.
Teacher uses guest speakers and various digital resources (e.g. media clips) to provide unusual information about the content.	

Innovating	Applying	Developing	Not Using
Uses unusual or intriguing and relevant information about the content and monitors for evidence of the extent to which these activities enhance student engagement for all students.	Uses unusual or intriguing and relevant information about the content and monitors for evidence of the extent to which these activities enhance student engagement for the majority of students.	Uses unusual or intriguing and relevant information about the content, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 33: Demonstrating "Withitness"

*The teacher uses behaviors associated with "Withitness" to maintain adherence to rules and procedures.

Teacher Evidence	Student Evidence
Teacher physically occupies all quadrants of the room.	Students recognize that the teacher is aware of their behavior.
Teacher scans the entire room making eye contact with all students.	Students describe the teacher as "aware of what is going on" or "has eyes on the back of his/her head."
Teacher recognizes potential sources of disruption and deals with them immediately.	Students interact responsibly.
Teacher proactively addresses inflammatory situations.	

Innovating	Applying	Developing	Not Using
Uses behaviors associated with "Withitness" and monitors for evidence of the extent to which it ~~the effect~~affects ~~on~~ students' behavior for all students.	Uses behaviors associated with "Withitness" and monitors for evidence of the extent to which it affects student behavior of the majority of students.	~~Uses strategy incorrectly or with parts missing.~~Uses behaviors associated with "Withitness", but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	~~Strategy was called for but not exhibited.~~Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.
~~Continuously scans the classroom, recognizing and proactively addressing potential disruptions.~~	~~Recognizes the potential sources of disruption, and deals with them appropriately.~~	~~Recognizes potential sources of disruption yet deals with them inconsistently.~~	~~Does not recognize potential sources of disruption.~~

Element 34: **Applying Consequences for Lack of Adherence to Rules and Procedures**
*The teacher consistently and fairly applies consequences for not following rules and procedures.

Teacher Evidence	Student Evidence
Teacher provides nonverbal signals when students' behavior is not appropriate, such as (1) eye contact, (2) proximity, (3) a tap on the desk, (4) shaking head "no".	Students cease inappropriate behavior when the teacher signals.
Teacher provides verbal signals when students' behavior is not appropriate, such as (1) telling students to stop or (2) telling students that their behavior is in violation of a rule or procedure.	Students accept consequences as part of the way class is conducted.
Teacher uses group contingency consequences when appropriate (i. e., whole group must demonstrate a specific behavior).	Students describe the teacher as fair in application of rules.
Teacher involves the home when appropriate (i.e., behavior).	
Teacher uses direct cost consequences when appropriate (e.g., student must fix something he or she has broken).	

Innovating	Applying	Developing	Not Using
Consistently and fairly Aapplies consequences for not following rules and procedures consistently and fairly and monitors for evidence of the extent to which all students follow rules and proceduresare followed.	Consistently and fairly Aapplies consequences for not following rules and procedures consistently and fairly and monitors the evidence of the extent to which the majority of students follow rules and procedures.	Uses strategy incorrectly or with parts missing.Consistently and fairly applies consequences for not following rules and procedures, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Strategy was called for but not exhibited.Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 35: **Acknowledging Adherence to Rules and Procedures**
*The teacher consistently and fairly acknowledges adherence to rules and procedures.

Teacher Evidence	Student Evidence
Teacher provides nonverbal signals that a rule or procedure has been followed, such as a (1) smile, (2) nod of head, or (3) high five.	Students appear appreciative of the teacher acknowledging their positive behavior.
Teacher gives verbal cues that a rule or procedure has been followed, such as (1) thanking students for following a rule or procedure or (2) describing student behaviors that adhere to rule or procedure.	Students describe teacher as appreciative of their good behavior.
Teacher notifies the home when a rule or procedure has been followed (positive home contact).	The number of students adhering to rules and procedure increases.
Teacher uses tangible recognition when a rule or procedure has been followed, such as (1) a certificate of merit or (2) token economics.	Students say that the teacher fairly and consistently acknowledges adherence to rules and procedures.

Innovating	Applying	Developing	Not Using

Consistently and fairly Aacknowledges adherence to rules and procedures consistently and fairly and monitors for evidence the extent to which all students follow rules and procedures.new actions affect students' behavior.	Consistently and fairly Aacknowledges adherence to rules and procedures consistently and fairly and monitors for evidence the extent to which the majority of students follow rules and procedures.	Uses strategy incorrectly or with parts missing.Consistently and fairly acknowledges adherence to rules and procedures, but the majority of students are either no monitored for or not displaying the desired effect of the strategy.	Strategy was call for but not exhibiteUses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

38. Displaying Objectivity and Control

*The teacher behaves in an objective and controlled manner to demonstrate a commitment to students and academic rigor.

Teacher Evidence	Student Evidence
Teacher does not exhibit extremes in positive or negative emotions.	Students describe the teacher as not becoming distracted by interruptions in the class.
Teacher does not allow distractions to change the focus on academic rigor.	Students are settled by the teacher's calm demeanor.
Teacher addresses inflammatory issues and events in a calm and controlled manner.	Students describe the teacher as in control of himself/herself and in control of the class.
Teacher interacts with all students in the same calm and controlled fashion.	Students say that the teacher does not hold grudges or take things personally.
Teacher does not demonstrate personal offense at student misbehavior.	

Innovating	Applying	Developing	Not Using
Behaves in an objective and controlled manner and monitors for evidence of the effect on the classroom climate for all students.	Behaves in an objective and controlled manner and monitors for evidence of the effect on the classroom climate for the majority of students.	Behaves in an objective and controlled manner, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Element 39: Demonstrating Value and Respect for all Students.
*The teacher exhibits behaviors that demonstrate value and respect for all students.

Teacher Evidence	Student Evidence
The teacher provides students with nonverbal indications that they are valued and respected (1) eye contact, (2) smiling and (3) appropriate physical contact.	Students say that the teacher cares for all students.
The teacher provides students with verbal indicators that they are valued and respected (playful dialogue, addressing students in a manner they view as respectful.)	Students treat each other with respect.
Teacher does not allow negative comments about other students.	Students avoid negative thinking about their thoughts and actions

Innovating	Applying	Developing	Not Using

Exhibits behaviors that demonstrate value and respect for all students thinking and monitors for evidence of the impact on all students.	Exhibits behaviors that demonstrate value and respect for all students thinking and monitors for evidence of the impact on the majority of students.	Uses strategy incorrectly or with parts missing.Exhibits behaviors that demonstrate value and respect for all students thinking, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Strategy was called for, but not exhibited. Uses strategy incorrectly or with parts missing or strategy was called for but not exhibited.
Provides all students with positive verbal or non-verbal indications that are valued and respected and monitors student impact (eye contact, smile, appropriate physical contact, playful dialogue, addressing students in a manner they view as respectful).	Provides all students with positive verbal or non-verbal indications that they are valued and respected.	Inconsistently provides students with positive verbal or non-verbal indications that they are valued and respected.	Does not provide students with positive verbal or non-verbal indications that they are valued and respected.

Element 40: Asking Questions of all Students Requiring Higher Order Thinking Skills
The teacher engages all students with questions of the same frequency and depth.

Teacher Evidence	Student Evidence
Teacher makes sure all students questions are answered at the same rate.	Students say the teacher expects everyone to participate.
Teacher makes sure all students are asked challenging questions at the same rate.	Students say the teacher asks difficult questions of every student.

Innovating	Applying	Developing	Not Using
Engages all levels of students with questions requiring higher order thinking skills and monitors impact on students.Asks higher order questions of all students with the same frequency and depth and monitors for evidence of the quality of participation of all students.	Engages all levels of students with questions requiring higher order thinking skills.Asks higher order questions of all students with the same frequency and depth and monitors for evidence of the quality of participation of the majority of students.	Uses strategy incorrectly or with parts missing. Asks higher order questions of all students with the same frequency and depth, but the majority of students are either not monitored for or not displaying the desired effect of the strategy.	Strategy was called for, but not exhibitedUses strategy incorrectly or with parts missing or strategy was called for but not exhibited.

Planning and Preparing for Lessons and Units (3 elements)

Element 2: Planning and Preparing for Lessons within a Unit that Progress toward a Deep Understanding and Transfer of Content
The teacher organizes lessons within units to progress toward a deep understanding of content.

Planning Evidence	Teacher Evidence
Plans illustrate how learning will move from an understanding of foundational content to application of information in authentic ways.	The teacher can describe how lessons within the unit progress toward deep understanding and transfer of content.
Plans incorporate student choice and initiative.	The teacher can describe how students will make choices and take initiative.
Plans provide for extension of learning.	The teacher can describe how learning will be extended.

Innovating	Applying	Developing	Not Using
Organizes lessons within a unit so that students move from an understanding to applying the content through consistent authentic tasks.	Organizes lessons within a unit so that students move from surface to deeper understanding of content but does not require students to apply the content in authentic tasks.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Element 4: Planning and Preparing for the Use of Available Materials and Technology for Upcoming Units and Lessons
The teacher identifies the available material and technologies for upcoming units and lessons.

Planning Evidence	Teacher Evidence
The plan outlines resources within the classroom, school, and community that will be used to enhance students' understanding of the content.	The teacher can describe the resources within the classroom, school, and community that will be used to enhance students' understanding of the content.
The plan identifies available technology that will be used (e.g., interactive whiteboards, response systems, voting technologies, one to one computers, social networking sites, blogs, wikis, and discussion boards).	The teacher can describe the technology that will be used.
The plan identifies how the technology will be used to enhance student learning.	The teacher can articulate how the technology will be used to enhance student learning.

Innovating	Applying	Developing	Not Using
Identifies the available resources and /or technologies that can enhance student understanding and the manner in which they will be used.	Identifies the available Resources and/or technologies that can enhance student understanding but does not identify the manner in which they will be used.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Element 6: Planning and Preparing for the Special Needs of All Students
What does the teacher do to plan and prepare for the special needs of all students?

Planning Evidence	Teacher Evidence
The plan identifies the accommodations and modifications that are made for ELL students, students with Disabilities, and students who come from home environments that offer little support for schooling within a lesson or unit of instruction.	The teacher can describe the accommodations and modifications that are made for ELL students, Students with Disabilities, and students who come from home environments that offer little support for schooling within a lesson or unit of instruction.

Innovating	Applying	Developing	Not Using
Identifies the special needs of students and the adaptations that will be made to meet these needs.	Identifies the special needs of students but does not articulate the adaptations that will be made to meet these needs.	Attempts to perform this activity but does not actually complete or follow through with	Makes no attempt to perform this activity.

Domain 3: Reflecting on Teaching

Element 2: Evaluating the Effectiveness of Individual Lessons and Units
What does the teacher do to evaluate the effectiveness of individual lessons and units?

Teacher Evidence
The teacher gathers and keeps records of his/her evaluations of individual lessons and units.
The teacher can explain the alignment of the assessment tasks and the learning goals.
The teacher can explain how the assessment tasks help track student progress toward the learning goals.

Innovating	Applying	Developing	Not Using
Determines how effective a lesson or unit was in terms of enhancing student achievement and consistently identifies cases of successes and failures.	Determines how effective a lesson or unit was in terms of enhancing student achievement but does not identify causes of success and failure on a consistent basis.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Domain 4: Collegiality and Professionalism
Promoting a Positive Environment (2 elements)
Element 1: Promoting Positive Interactions about Colleagues
The teacher interacts with other teachers in a positive manner to promote student learning and seeks help and input from colleagues regarding specific classroom strategies and behaviors.

Teacher Evidence
The teacher works cooperatively with appropriate school personnel to address issues that impact student learning.
The teacher establishes working relationship that demonstrate integrity, confidentiality, respect, flexibility, fairness and trust.
The teacher can describe situation in which he or she interacts positively with colleagues to promote and support student learning.
The teacher can describe situations in which he or she helped extinguish negative conversations about other teachers.
The teacher keeps track of specific situations during which he or she has sought mentorship from others.
The teacher actively seeks help and input in Professional Learning Community meetings.
The teacher actively seeks help and input from appropriate school personnel to address issues that impact instruction.
The teacher can describe how he or she seeks input from colleagues regarding issues that impact instruction.

Innovating	Applying	Developing	Not Using
Interacts with other colleagues in a positive manner to promote and support students learning, and seeks help and/or mentorship from colleagues regarding specific classroom strategies and behaviors.	Interacts with other colleagues in a positive manner to promote and support student learning and seeks help and mentorship from colleagues.	Interacts with other colleagues in a positive manner.	Makes no attempt to perform this activity.

Promoting a Positive Environment
Element 2: Promoting Positive Interactions about Students and Parents
The teacher interacts with students and parents in a positive manner to foster learning and promote positive home/school relationships.

Teacher Evidence
The teacher fosters collaborative partnerships with parents to enhance student success in a manner that demonstrates integrity, confidentiality, respect, flexibility, fairness, and trust.
The teacher ensures consistent communication with parents regarding expectations, progress, and /or concerns using multiple means and modalities.
The teacher encourages parent involvement in classroom and school activities.
The teacher demonstrates awareness and sensitivity to social, cultural and language backgrounds of families.

The teacher responds to requests for support, assistance and/or clarification promptly.

The teacher can describe instances when he or she interacted positively with students and parents.

Students and parents can describe how the teacher interacted positively with them.

The teacher respects and maintains confidentiality of student/family information.

Innovating	Applying	Developing	Not Using
Interacts with students and parents in a positive manner to foster learning and promote positive relationships and helps extinguish negative conversations about students and parents.	Interacts with students and parents in a positive manner to foster learning and promote positive ~~relationships, but~~relationships but does not help extinguish negative conversations about students and parents.	Attempts to perform this activity but does not actually complete or follow through with these attempts.	Makes no attempt to perform this activity.

Promoting District and School Developments (1 element)
Element 5: Adhering to District and School Rules and Procedures
The teacher is aware of the district and ~~schools~~schools' rules and procedures and adheres to them.

Teacher Evidence
The teacher performs assigned duties.
The teacher follows policies, regulations and procedures.
The teacher maintains accurate records (student progress, completion of assignments, non-instructional records)
The teacher fulfills responsibilities in a timely manner.
The teacher understands legal issues related to students and families.
The teacher demonstrates personal integrity.
The teacher keeps track of specific situations in which he or she adheres to rules and procedures.

Innovating	Applying	Developing	Not Using
Is aware of district and school rules and procedures and adheres to them without prompting.	Adheres to district and school rules or procedures.	Adheres to rules or procedures after being prompted.	Makes no attempt to adhere to rules or procedures after being prompted.

Post Observation Conference

Santa Rosa County District Schools
Post Observation/Self-Assessment Conference Instrument

This instrument will be used by all classroom and non-classroom based teachers for all formal observations.

Name of Teacher _____ Name of Administrator _____

Planning Conference Date _____ Observation Date _____ Post Conference Date _____

The administrator will give consideration to the teacher's self assessment of the lesson and provide written feedback. Please bring student work, assessments, scoring guides, activity schedules, and or rubrics and be prepared to discuss the following questions.

Classroom Demographics
1. Overall, how do you think the lesson or interaction went and why?
Answer:

Routine Events
2. Did students meet or not meet the learning goals or objectives you established for this lesson or activity?
Answer:

3. How effective is the classroom or workspace to maximize student learning or achievement?
Answer:

Content
4. How did the strategies you used to help students to deepen and practice their understanding of new knowledge support student learning?
Answer:

5. How did the strategies you used help students generate and develop new knowledge to support student learning?
Answer:

Enacted on the Spot
Which techniques for engaging students were most successful? Which techniques were not successful?
Answer:

Observation Conference

Evaluator: VELVETEEN RABBIT	■ Face - to - Face	Instructor: PETER COTTONTAIL

■ Waived

Reflection

Overall, how do you think the lesson or interaction went and why?

1

Routine Events

Did the students meet or not meet the learning goals or objectives you established for this lesson or activity?

2

Addressing Content

How did the strategies you used to help the students?

3

Enacted on the Spot

Which techniques for engaging students were most successful? Which techniques were not successful?

Parent and Student Surveys

Santa Rosa County District Schools

Student Surveys – Elementary School

This survey will count as 7.5% of the annual evaluation of teachers and administrators in this school.

Respond to each of the following statements using the following scale:
> Strongly Agree (5)
> Agree (4)
> Neutral (3)
> Disagree (2)
> Strongly Disagree (1)

		Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
1.	Learning is fun at this school.	5	4	3	2	1
2.	I like going to this school each day.	5	4	3	2	1
3.	I enjoy art, music and P.E.	5	4	3	2	1
4.	My teacher cares about me.	5	4	3	2	1
5.	I feel safe at this school.	5	4	3	2	1
6.	The school rules are fair.	5	4	3	2	1
7.	My school is clean.	5	4	3	2	1
8.	My principal is a good leader.	5	4	3	2	1

Santa Rosa County District Schools

Student Surveys – Middle and High School

This survey will count as 7.5% of the annual evaluation of teachers and administrators in this school. (15% for Locklin Technical School and Santa Rosa High/Adult Schools)

Respond to each of the following statements using the following scale:
Strongly Agree (5)
Agree (4)
Neutral (3)
Disagree (2)
Strongly Disagree (1)

1. My learning is important at my school.

2. School rules/disciplines plans are enforced consistently at my school.

3. I regularly receive feedback from school staff about my academic progress.

4. My family is treated with respect at my school.

5. I have opportunities to be successful at my school.

6. **Special area classes such as art, music and P.E. add to my school experience.**
   (This questions is not used for Locklin Technical School, Santa Rosa High/ Adult Schools.)

7. I would recommend my school to others.

8. I feel safe at school.

9. I am recognized for good work and behavior at my school.

10. My school is clean and well maintained.

11. The teachers, staff, and administrators at my school demonstrate genuine concern for students.

12. The principal at my school is an effective leader.

Santa Rosa County District Schools

Parent Survey

This survey will count as 5% of the annual evaluation of teachers and administrators in this school. (10% for T.R. Jackson Pre-K Center)

Respond to each of the following statements using the following scale:

Strongly Agree (5)
Agree (4)
Neutral (3)
Disagree (2)
Strongly Disagree (1)

1.   My child's learning is a high priority at this school.

2.   School rules/discipline plans are enforced consistently at this school.

3.   I regularly receive feedback from school staff on how well my child is learning.

4.   My family is treated with respect at this school.

5.   My child has every opportunity to be successful at this school.

6.   My child has the necessary classroom supplies and equipment for effective learning.

7.   I would recommend this school to other parents.

8.   This school provides a safe environment for my child to learn.

9.   My child is recognized for good work and behavior at this school.

10.   The school is clean and well maintained.

11.   The teachers, staff, and administration at this school demonstrate a genuine concern for my child.

12.   I receive positive phone calls or notes about my child from the school.

13.   I am proud to say I have a student at this school.

14.   The principal at this school is an effective leader.

15.   The principal at this school is approachable and reachable.

16.   The Superintendent of the Santa Rosa County School District is an effective leader.

17. The Superintendent of Santa Rosa County School District makes decisions that are in the best interest of children of the School District.

18. The school provides materials and training to help parents and guardians work with their children to improve their children's achievement.

19. I receive information about the quality of my child's teachers.

20. I receive information about my child's academic progress in school (report cards, test results, progress reports, etc.)

21. I feel the special areas (art, music, and P.E.) available at my child's school help make my child's educational experience more well-rounded.

22. I receive information about the progress of my child's school (the yearly progress review including grade and Adequate Yearly Progress report, etc.).

23. I receive information about the school's parent/guardian involvement policy.

24. Information in the *Santa Rosa County District School's Family Guide* helps me understand my child's school work.

25. I have opportunities for involvement at my child's school.

26. My child has elective opportunities that promote career readiness.

27. My child has opportunities to participate in programs that promote success after graduation.

Elementary Schools (excluding Gulf Breeze Elementary) and King Middle School only.

28. Signing a parent/guardian "compact" (agreement) helps me understand the responsibility that I accept as a parent/guardian to help educate my child.

Open Ended Questions

1. What is working well at your child's school?

2. Is there anything that could be improved at your child's school?

3. Is there anyone at your child's school that you want to recognize for good work?

Studer Group Information

Studer Group/EducatorReady

The Studer Group Education Division called EducatorReady is focused on assisting school district to achieve leadership and teaching excellence. The leaders, Dr. Robin Largue and Dr. Janet Pilcher, have spent their lifetimes researching, leading and developing leaders and teachers. In the past several years they have been piloting Evidence-Based Leadership in several school districts in the United States. Their work is affiliated with the Studer Group, a 2010 Malcolm Baldrige Award recipient. From the research they have gathered with teachers and leaders they have created proven practices with districts that align to Race to the Top Guidelines on developing effective leaders and teachers. A summary of their actions is provided below which has led to increased student engagement and achievement, improved employee engagement, and higher parent satisfaction. Because their work has made improvements in school districts, leaders and teachers have become more energized and results-driven. Their work focuses on schools becoming great places for students to learn, employees to work and parents to send their children to school.

The following summary provides the areas of work by Studer Group/EducatorReady:

EducatorReady.com affiliated with Studer Group	
Leader Evaluation	Superintendents have implemented a measurable and aligned leader evaluation system for themselves, their senior team, district leaders, principals/assistant principals, and managers focusing on four major pillars of excellence: • Quality – student achievement • People – employee engagement • Service – parent satisfaction with schools and leader satisfaction with district services provided • Finance – financial efficiency ratio (cost reduction & savings)
Teacher Evaluation	We have worked with school districts by using a report from a focus group study we implemented with high performing teachers to work with their teacher groups on creating teacher evaluations. The report is free to districts. The teacher evaluations include: • Quality – student achievement • People – student engagement • Service – parent satisfaction • Growth – competency demonstration aligned to Danielson's Framework
Leader Development	We offer districts online and face to face training in the following areas as a way to assist them with achieving goals and measures for student achievement, employee engagement and parent satisfaction: • Professional Conversations: Making Rounds on Employees • Professional Conversations: Recognizing the Five ALWAYS Teaching Actions • Professional Conversations: Having High, Developing and Low Conversations with Employees • Professional Conversations: Gaining Employee Input From Survey Results • Professional Conversations: Answering Tough Questions • Recognizing and Rewarding Employees • Running Effective Meetings • Keeping Employees Informed • Keeping Parents Informed

Teacher Development	We offer districts online and face to face training in the following areas as a way to assist Teachers to engage students in the learning environment to achieve. • PLC 1: Foundations of Five ALWAYS Teaching Actions • PLC 2: Classroom Rules and Procedures • PLC 3: Learning Targets (Targets and Tasks) • PLC 4: Practice and Feedback (Formative Assessment) • PLC 5: Summative Assessments (Grades) • PLC 6: Planning for Students to Achieve
Measurement	We offer three tools to measure progress and outcomes that include an important roll out process for leaders to use to share the information with employees, parents and students and to gain their input to build excellence in the school district. • Employee Engagement – the extent to which employees believe leaders do a good job creating an engaging work environment • Parent Satisfaction – the extent to which parents are satisfied with their child's learning environment and school • Student Engagement – the extent to which students believe teachers care about their learning and create environments that provide them with opportunities to succeed.

Santa Rosa County District Schools
Parent Survey

This survey will count as 7.5% of the annual evaluation of teachers and administrators in this school. (15% for T.R. Jackson Pre K Center)

Respond to each of the following statements using the following scale:

Job Codes/
Scoring Classifications

Job Code Classifications

- **Direct:** An assessment is tied directly to a course. For example, a student is in a reading course and takes the ~~state~~ reading assessment. The instructor serves as the primary instructor responsible for the course standards. The student growth measurement data used in this instructor's student performance evaluation data is limited to the students assigned to the instructor.

- **Student Support Instructors:** This includes instructors that provide academic support for specific students within a course but are not the responsible instructor. The student growth measurement data used in this ~~instructors~~instructor's student performance evaluation data is limited to the students assigned to the instructor.

- **School Wide:** This includes instructional staff that serve/impact the entire student population and/or serve as program facilitators for the school (School-wide program facilitators). The data used is based upon all school growth/achievement measurements that have been approved and are appropriate for the assignment. (Media Specialists, Guidance Counselors, Physical Education Teachers and School Wide Program Facilitators).

- **District:** This includes instructional staff that serve/ impact the entire district student population and/or serve as program facilitators, instructional coaches (i.e.: Teachers on Special Assignment) for the district (District-wide program facilitators). The data used is based upon all school growth/ achievement measurements that have been approved and are appropriate for the assignment.

Student Performance Conversion Scales

Formatted: Centered, Indent: Left: 0.5"

Formatted: Centered, Indent: Left: 0.25"

2 = greater than 1% - 2% overall gain
1 = 0-1% overall gain

SCALE 002
Student Learning Gain
4 = Average increase of 6 months across all domains
3 = Average increase of 4-6 months across all domains
2 = Average increase of 2-4 months across all domains
1 = Average increase of 0-2 months across all domains

SCALE 003
Student Achievement Level
4= student achievement level score 4 or 5
3= student achievement level score of 3
2= student achievement level score of 2
1= student achievement level score of 1

SCALE 004
Value Added Model
4=Positive Value Added score minus one half of standard error equals positive number (+, +)

3=Positive Value Added score minus one half of standard error equals negative number (+,) OR
Negative Value Added score plus one half of standard error equals positive number (-, +)

2=Negative Value Added score plus one half of standard error equals negative number (top 2/3 of scores) (-,)

1=Negative Value Added score plus one half of standard error equals negative number (lower 1/3 of scores) (-,)

SCALE 006
Student Growth
4=Growth of 1 or more levels

3=Maintain at current level OR Maintain proficient range (with decrease of no more than 1 level)

2=Decrease of 1 level in non-proficient range OR
Decrease of 2 or more levels in proficient range OR
Decrease of 1 level which moves student from proficient to non-proficient

1=Decrease of 2 levels in non-proficient range OR
Decrease of 3 or more levels in proficient range

SCALE 007
Student Growth
4=Growth of 1 or more levels or Maintain a level 4
3=Maintain at current level or Maintain proficient range (with a
decrease of no more than 1 level)
2=Decrease of scale score within the non-proficient range or decrease
of 2 or more levels in proficient range OR Decrease of 1 level which
moves student from proficient to non-proficient
1=Decrease of level within the non-proficient range

SCALE 008   Student Achievement Rate
4=86-100% passing rate of students attempting industry certification
3=67- 85% passing rate of students attempting industry certification

113

2=51—66% passing rate of students attempting industry certification
1=50% or less passing rate of students attempting industry certification

SCALE 009   Student Achievement
4=Student Achievement Score of 200-260
3=Student Achievement Score of 190-199
2=Student Achievement Score of 180-189
1=Student Achievement Score of 140-179

SCALE 010   Student Achievement
4= student scoring above proficiency
3= student scoring proficient
2= student scoring below proficiency with increase
1= student scoring below proficiency with no increase

SCALE 011   Student Learning Gain
4 = Average student increase of more than 4.00%
3 = Average student increase of more than 3.00 – 4.0%
2 = Average student increase of 2.00 – 3.0%
1 = Average student increase of less than 2.0%

SCALE 015   Student Achievement
4 = Student scoring proficiency level 4 or 5
3 = Student scoring proficiency level 3
2 = Student scoring proficiency level 2
1 = Student scoring proficiency level 1

SCALE 016   Student Achievement
4 = Student Achievement Score of 398 – 475
3 = Student Achievement Score of 379 – 397
2 = Student Achievement Score of 352 – 378
1 = Student Achievement Score below 352

SCALE 017   Student Achievement
4 = Student Achievement Score of 80 – 100
3 = Student Achievement Score of 60 – 79
2 = Student Achievement Score of 40 – 59
1 = Student Achievement Score of less than 40

SCALE 018   Student Achievement
4 = Student Achievement Score of 70 – 100
3 = Student Achievement Score of 50 – 69
2 = Student Achievement Score of 30 – 49
1 = Student Achievement Score of less than 30

Instructional Evaluation

Santa Rosa County School District

Instructional Evaluation Instrument

Section I: Stakeholder Satisfaction Surveys 10% of Overall Evaluation
This section should be completed by June 1.

Parent and student satisfaction scores are used as part of the evaluation for all instructional staff. In completing parts A and B, the previous year's score and the current year's score are reported. This year's May score is used as part of the evaluation. (IA and IB score)

The Studer Group's research with surveys is based on a 5.0 scale: 1=strongly disagree, 2=disagree, 3=neutral, 4=agree, and 5=strongly agree. The Studer Group believes changing this scale would not support the research conducted on surveys. The State of Florida's Evaluation System is based on a 4.0 scale: 1= Unsatisfactory, 2= Needs Improvement, 3= Effective and 4= Highly Effective. In order to use the results of the Studer surveys (students, parents, employees, and principals) use the following conversion scale:

Studer Group Survey Results	Evaluation Score	
4.00 – 5.00	Highly Effective	(4.0)
2.75 – 3.99	Effective	(3.0)
2.00 – 2.74	Needs Improvement	(2.0)
Below 2.00	Unsatisfactory	(1.0)

A. Parent Satisfaction Survey - 5%
(Parents of students at SRA, LTC, and SRYA will not complete this survey. In these cases the Student Survey results will count 10%)

B. Student Satisfaction Survey - 5%
(Students in VPK and Pre-K will not complete surveys. In these cases the Parent Survey will count 10%)

2022 Score   5.0 Scale   2022 Score   5.0 Scale

Section ~~III~~ II: Instructional Evaluation Instrument/Professional Development Plan

FL Statute 1012.98 requires that all teachers write a professional development goal annually that reflects the needs of currently assigned students as indicated by state assessment data when available. The purpose of the goal is to identify student performance areas that the teacher should address in selecting professional development activities and identifying deliberate practice that will impact student performance. Goals should be tied to School Improvement Plans. The PDP counts as 20% of each teacher's total evaluation.

Self-Assessment (found in PEARS)

> **Goal** Complete prior to the end of the first nine weeks grading period.
>
> **What area/specific training will you be focusing on this year? (text box)**
>
> **Why did you select this training? (Choose all that apply)**

- **Student needs**
- **School focus**
- **Administrator request**
- **My professional needs (Endorsement, change in assignment, etc.)**
- **Self-Assessment in PEARS**
- **Certificate Renewal (SB1108, HB7069, etc.)**

> **What documentation will support your implementation/impact from this training?**

- **Academic student data**
- **Behavioral student data**
- **Administrator observation/walk-through**
- **MyPD transcript**
- **Video recordings**
- **Lesson Plans**
- **Student artifacts**
- **Other**

> **Write a goal statement below that explains your professional learning plan for the 2021-2022 school year based on the information above. (text box)**

Section III II: Instructional Evaluation Instrument/Professional Development Plan

| Formatted: Not Highlight |

Identification of Professional Development Needs Complete prior to the end of the first nine weeks grading period.
Training completed between the dates of May 1, 2021 and April 30, 2022 may be used to meet your professional learning goal needs for this school year.
Mark the one that most closely resembles your status at this time:

- **I have met my professional learning goal needs**
- **I have made plans to meet my professional learning goal needs**
- **I** *need to research/find training to meet my professional learning goal needs.*

| Formatted: Not Highlight |

NOTE: Your first training should be started prior to the beginning of the 2nd 9 weeks to allow time to implement and reflect in the second semester.
Follow-up or additional training may be done during the second semester. Yearlong PD will meet the timeframe for implementation and reflection.

Santa Rosa County District Schools

Section ~~III~~ II: Instructional Evaluation Instrument/Professional Development Plan

Reflection (all text boxes) Complete at end of first semester

  What training did you take to meet your learning goal?

  Explain your implementation of this new information.

  What will you continue to do because of this training?

  Attach supporting documentation of implementation

Outcome Statement: (To be completed prior to June 1.)

What changes have you see due to the implementation of new skills?

Attach supporting documentation of impact.

Plan Completion Rating (Assessed by Administrator)	**Scale**	**Check Rating**
Highly Effective Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. Provides appropriate documentation of implementation and impact (student data, observation, transcript, lesson plans, videos, student work, etc.)	4.0	
Effective Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. Documentation of implementation and impact (student data, observation, transcript, lesson plans, videos, student work, etc.) is inconclusive or vague.	3.0	
Needs Improvement Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. No evidence of implementation or impact (student data, observation, transcript, lesson plans, videos, student work, etc.) is provided.	2.0	
Unsatisfactory Goal may/may not align with current needs (school improvement, student or teacher). No training was completed and therefore no evidence of implementation or impact was provided.	1.0

Instructional
Evaluation

Santa Rosa County School District

Instructional Evaluation Instrument

Section I: Stakeholder Satisfaction Surveys 10% of Overall Evaluation
(This section should be completed by June 1.)

Parent and student satisfaction scores are used as part of the evaluation for all instructional staff. In completing parts A and B, the previous year's score and the current year's score are reported. This year's May score is used as part of the evaluation. (IA and IB score)

The Studer Group's research with surveys is based on a 5.0 scale: 1=strongly disagree, 2=disagree, 3=neutral, 4=agree, and 5=strongly agree. The Studer group believes changing this scale would not support the research conducted on surveys. The State of Florida's Evaluation System is based on a 4.0 scale: 1=Unsatisfactory, 2=needs improvement, 3=effective and 4=highly effective. In order to use the results of the Studer surveys (students, parents, employees, and principals) will use the following conversion scale:

Studer Group Survey Results	Evaluation Score
4.00 – 5.00	Highly Effective (4.0)
2.75 – 3.99	Effective (3.0)
2.00 – 2.74	Needs Improvement (2.0)
Below 2.00	Unsatisfactory (1.0)

A. Parent Satisfaction Survey -   5%
(Parents of students at SRA, LTC, and SRYA will not complete this survey. In these cases the Student Survey results will count 10%.)

B. Student Satisfaction Survey - 10%
(Students in VPK and Pre-K will not complete surveys. In these cases the Parent Survey will Count 10%.)

2022 Score	3.90	5.0 Scale	2022 Score	3.99	5.0 Scale
IA Score	3.00	4.0 Scale	**IB Score**	3.00	4.0 Scale

Teacher's Comments: I am pleased with the student response. More parents responded this year than last year.

Teacher's Signature: Teacher   **Date:** 6/1/XX

Administrator's Comments: Both scores improved – thank you for all you do for our school.

Section ~~III~~ II: Instructional Evaluation Instrument/Professional Development Plan

Self-Assessment (found in PEARS)

Goal Complete prior to the end of the first nine weeks grading period.

What area/specific training will you be focusing on this year? (text box)

Why did you select this training? (Choose all that apply)

- **Student needs**
- **School focus**
- **Administrator request**
- **My professional needs (Endorsement, change in assignment, etc.)**
- **Self-Assessment in PEARS**
- **Certificate Renewal (SB1108, HB7069, etc.)**

What documentation will support your implementation/impact from this training?

- **Academic student data**
- **Behavioral student data**
- **Administrator observation/walk-through**
- **MyPD transcript**
- **Video recordings**
- **Lesson Plans**
- **Student artifacts**
- **Other**

Write a goal statement below that explains your professional learning plan for the 2021-2022 school year based on the information above. (text box)

Santa Rosa County District Schools

Section ~~III~~ II: Instructional Evaluation Instrument/Professional Development Plan

11% of my students (14 students) scored below proficiency (below Level 3) in reading. 3 students were Level 1 and 11 students were Level 2. Of that number, 50% (7 students) were in the Economically Disadvantaged subgroup. Particularly weak areas are Comparisons (80%), Words and Phrases (63%), and Reference and Research (65%).

My goal is for my Level 1 students to score a minimum of Level 2; Level 2 students to score a minimum of Level 3; and Level 3+ students will maintain or increase their proficiency level. This will result in a minimum of 72% of students scoring a Level 3 or above in Reading.

In order to achieve my student needs goal, I will need to take more training to increase student word usage focusing on the areas of need as seen in the identified weak areas.

Identification of Professional Development Needs Complete prior to the end of the first nine weeks grading period.
Training completed between the dates of May 1, 2021 and April 30, 2022 may be used to meet your professional learning goal needs for this school year.
Mark the one that most closely resembles your status at this time:

- **I have met my professional learning goal needs**
- **I have made plans to meet my professional learning goal needs**
- *I need to research/find training to meet my professional learning goal needs.*

NOTE: Your first training should be started prior to the beginning of the 2nd 9 weeks to allow time to implement and reflect in the second semester. Follow-up or additional training may be done during the second semester. Yearlong PD will meet the timeframe for implementation and reflection.

Reflection (all text boxes) Complete at end of first semester

What training did you take to meet your learning goal?

Explain your implementation of this new information.

What will you continue to do because of this training?
Attach supporting documentation of implementation

146

Santa Rosa County District Schools

Section ~~III~~ II: Instructional Evaluation Instrument/Professional Development Plan

Outcome Statement: (To be completed prior to June 1.)

What changes have you seen due to the implementation of new skills?

Attach supporting documentation of impact.

Based on previous FSA scores, my identified Economically Disadvantaged students needed help with Comparisons, Words and Phrases, and Reference and Research. I included reading and vocabulary strategies in my curriculum, along with warm ups/daily oral language skills to emphasize FSA types of questions in the areas that were weak. According to most recent scores, 40% of the identified Economically Disadvantaged students increased their FSA level. Of the 14 students identified at the beginning of the year as Level 1 or Level 2, 11 students were tested on the FSA. Of those identified students, 45% made learning gains. Overall, 53% of my students (total population both Language Arts and Social Studies) made learning gains.

Plan Completion Rating (Assessed by Administrator)	Scale	Check Rating
Highly Effective Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. Provides appropriate documentation of implementation and impact (student data, observation, transcript, lesson plans, videos, student work, etc.)	4.0	X
Effective Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. Documentation of implementation and impact (student data, observation, transcript, lesson plans, videos, student work, etc.) is inconclusive or vague.	3.0	
Needs Improvement Goal aligns with current needs (school improvement, student or teacher). Completed training specific to goal and within timeline to implement and reflect. No evidence of implementation or impact (student data, observation, transcript, lesson plans, videos, student work, etc.) is provided.	2.0	
Unsatisfactory Goal may/may not align with current needs (school improvement, student or teacher). No training was completed and therefore no evidence of implementation or impact was provided.	1.0
