Dear Dr. Barber and School Board Members,

We are requesting approval to initiate the AAA School Safety Patrol Program at S. S. Dixon Intermediate School. The program will allow fifth grade students to assist school staff in maintaining safety on campus. For example, students will be assigned a hallway and location to monitor and promote safe practices in the hallways. Students will always be under adult supervision.

We are hoping to give our students voice, responsibility, and leadership experiences through this hands on, practical program. The AAA School Safety Patrol Program will take place before and after school and will not interrupt instructional minutes.

The AAA School Safety Patrol Program requires approval by the school board.

Respectfully,  
Missy Floyd

Principal

Our students will be productive, successful contributors to society.
