# Lesson Status Reports

You are viewing Lesson Status reports for [All Programs - Combined ⌄] ❓

Lesson status is the state of lesson completion for trainees; it can be viewed either as a chart or in the table below. By default, the status for the current lesson is displayed as a pie chart. To see the graphical report for a different lesson, click on either the pie or bar chart icon for that lesson under the "Chart" column. The selected lesson will then be displayed in the chart and be highlighted by a yellow bar in the table. To see a list of the trainees in a specific report, click on the status report of interest (e.g. Completed or In Progress), and a new report page will be displayed.

Select the way report data will be displayed: ○ Percent Employees ⦿ Number Employees

All Programs - Combined, Lesson: Intro to Security Awareness
Lesson Status (# employees)

Completed, 1.38K

Not Started, 1.57K

In Progress, 34

🥧 Not Started   🥧 In Progress   🥧 Completed

Total number of trainees: 2990
