RE: Discovery Education
Streaming 2017-2018 School
Year

Please find attached a copy of the Discovery Education Streaming Contract in the amount of \$117,789.00. The purpose of this streaming contract is for all schools to have access to a comprehensive digital solution that supplements instruction across all K-12 curricular areas. The contract along with "Exhibit A" are provided. Exhibit A provides a list of schools and the streaming services they receive.

It is recommended that the board approve the streaming renewal.

Michael Thorpe
