RE: Santa Rosa County School District School Health Policy and Procedures Manual Sections  
Revisions

Dear School Board Members and Superintendent Wyrosdick,

Our partner health care professionals, Angela Lay, R.N. (Pediatric Services of America Director) and Leslie Adams, R.N. (Florida Department of Health School Health Coordinator) recognized the need to update our district School Health Policy and Procedures Manual. These are the policies and procedures our health technicians, school health nurses and schools follow to address the health care needs of our students.

Since this document is so large, it was decided to update several sections each year. Attached you will find the three sections updated by our health care professionals this year: 1) Head Lice policy, 2) Medication Policy, and 3) Communicable Diseases Policy.

Thank you in advance for your attention and consideration in approving these revised sections to the School Health Policy and Procedures Manual.

Sincerely

Sherry Smith
