C. Approval of Minutes

1. Approval of School Board Meeting Minutes of June 6, 2019

Motion to Approve was moved by Wei Ueberschaer, Seconded by Linda Sanborn. Motion Passed by a Vote of 5 - 0.

D. Oral Written Communications

Superintendent Wyrosdick addressed the recent State Attorney's investigation of athletic supplements at Milton High School. He passed a letter to each Board member and presented it by reading as follows:

"Dear Board Members:

Recently the State Attorney's office issued a review of their investigation concerning matters of coaching supplements and volunteers mainly at Milton High School. I and my staff have worked directly with the State Attorney's office to provide the most thorough and accurate review of these allegations. The review from the State Attorney's office validated our ongoing investigation and assisted in substantiating our work. In our review we have not found intentional actions which would be violations of law. We appreciate greatly the work done by the Office of the State Attorney.

Where the State Attorney's office focused on violations of law our investigation is centered on school board policy, administrative policy and management practice including direct communication of the school

district and staff. The direction I gave my staff over the past 8 weeks is to review actions of employees based on board and administrative policy and communication from and to district staff. This work has been voluminous generating hundreds of pages of written notes, archived information and artifacts. Although our work is not done, I have drafted 4 action steps to make certain we are operating appropriately.

1. Manage this work robustly as if each school site may have gaps in addressing board policy and administrative procedures appropriately. This would include addressing policy and procedure of ensuring board policy is implemented correctly.

2. As of Monday, I am calling for a stand down of all approval of volunteers until we review and re-train administrative personnel.

3. A stand down of all credentialing of volunteer and school board employed coaches until a full status report can be created for each school site. These programs may begin again after each program has been reviewed and validated as operating within school board policy and Florida law. Each school site will be re-trained in administrative policy and process for engaging in this work.

4. A full review of the process of assigning coaching or instructional supplements by each grade level director. After the review, each administrative personnel will be re-trained in this administrative work. Additionally, the process of reviewing assigned supplements prior to board approval will be addressed to ensure supplements will be appropriate to the task and person.

5. A review of all policy and management procedures to eliminate any potential gaps that may exist.

It is important to share with the board although the report by the State Attorney's office has concluded, ours has not. We will continue the review of possible violations of policy (not law as this was the responsibility of the State Attorney) until I am assured we have been thorough. At the end of our review, we will provide a report to the board. As is appropriate, both in timing and by infraction, I may bring to the board recommendations of discipline. These may come before the end of the investigation if appropriate or they may come at the end.

In conclusion, because this investigation is ongoing I will not make additional comments regarding specific items either in the summary or the investigation dialog. I thank the board for their patience and support as we work through this issue. I am confident we will refine our work and it will accurately reflect the direction of the board and the needs of our students.

Sincerely,

*Tim Wyrosdick
Superintendent of Schools"*

School Board Attorney Paul Green asked to speak to an item that

Superintendent Wyrosdick mentioned; that this is an ongoing investigation. Mr. Green noted that the Board may be required to hear evidence as a determiner of disciplinary action. He advised that the Board not comment on specifics at this time since that may prejudice an employee's situation or possibly cause a Board member to be removed from hearing evidence in the situation.
