2. Santa Rosa County District Schools Fiscal Update

For a complete word for word transcript, please see the video. The following has been condensed.

Jim Hamilton, Consultant with Rutledge Ecenia gave an fiscal update on the school district:

- *In the October analysis, we deducted the revenue of projected enrollment growth as a cost to provide services to those projected new students. Subsequent FTE reporting revealed that student enrollment was lower than what was projected. That money will not be distributed after the Third Calculation, and the dollars already received will be deducted from future FEFP distributions, which is why the Superintendent wisely had the Board establish a reserve fund to repay the unearned dollars already received. The way the October analysis treated the cost of growth had the same impact on revenue available for bargaining as the enrollment shortfall will have. Therefore, the October analysis remains relatively accurate. The analysis also deducted the revenue required to be spent for district categorical funds, since that revenue would not be available for discretionary spending, including negotiated raises for any bargaining unit.*
- *The distribution of any new increased district revenue must be determined by the Superintendent and School Board as prescribed by the appropriations process. If additional dollars are requested or needed, those dollars will have to come from expenditure cuts to other programs within the district. The School Board cannot create new revenue without a voter approved referendum. The School Board does not have independent taxing authority.*
- *Additionally, it is critical to the district's fiscal stability that it maintains at least its current Financial Condition Ratio of 5.13%. That is just over the minimum level of 5% for the state Budget Stabilization Fund that the state requires itself to maintain.*

3. Revenue FTE Comparison

For a complete word for word transcript, please see the video. The following has been condensed.

Susan McCole, Assistant Superintendent for Finance gave an update on FTE Comparison with the surrounding school districts.

    - *Escambia - 40,046*
    - *Okaloosa - 34,017*
    - *Bay - 27, 874*
    - *Walton - 12,199*
- *Total Major Differences in AFR Revenue*
    - *Escambia - $48,076,155*
    - *Okaloosa - $48,349,436*
    - *Bay - $42,059,088*
    - *Walton - $47,934,304*

Dr. Barber stated that the State of Florida has a mathematical model that has to be used for projections. In the end, the State of Florida Department of Education tells the district what the projections will be.

For a complete word for word transcript, please see the video. The following has been condensed.

Statement from Dr. Barber:

Thank you, Dr. Hamilton and Mrs. McCole, for your review of the Florida Education Finance Program and its impact on the funding for Santa Rosa County. It is vitally important that our stakeholders, including the taxpayers of our county and especially the 3,500 educators who work in our school district to understand our current funding and how that impacts the very important work we do.

I want to highlight a few points that have been made and provide some additional clarification, particularly to our bargaining units. Currently, we are in negotiations with the Santa Rosa Professional Educators Association, the bargaining agent that represents the teachers. There have been 6 sessions that have occurred thus far, but no agreement has been reached. This is disappointing to me and the school board, because we were hopeful there would be an agreement and teachers could have their raises before Christmas.
I want to dispel any false narratives that have been shared by some. I want to provide accurate and complete information to all our employees. The information provided by Dr. Hamilton and Mrs. McCole is just that: accurate and thorough. It is free of distortion.

My first point:
Florida Statute 447.309 and best practice requires that both the superintendent and the school board prepare, propose and reach a settlement through the collective bargaining process and we remain a unified team to accomplish that goal.

My second point: School boards cannot make a settlement offer that would put the district in a financial crisis. As you heard Dr. Hamilton say, it is critical to the district's financial stability that the district maintain at least its current financial condition of 5.13%. That is just over the minimum level of 5% for the state Budget Stabilization Funds the state requires. Recently, the school district received a Standard and Poor's A+ Credit rating. To maintain that credit rating, the district was advised to maintain a minimum financial condition ratio of at least 5%.

It is important to note that even though the funding for Santa Rosa County presents the board with many financial challenges, over the last 3 years, this school board has provided an accumulated average raise of 12% to teachers. In fact, in 2019-2020, the average teacher salary was 1.06% below the state average. During the 2022-2023 school year, the average teacher salary improved to 1.01% above the state average.

Now let's talk about the present.
For the 2023-2024 school year, Dr. Hamilton and Mrs. McCole have both reported the district received an increase of 3.8% that is not already committed to other mandated expenses. During negotiations, the school board has authorized an offer of a 3.1% average raise for teachers this year. With increased costs for substitutes, custodial services, instructional materials, and Worker's Compensation, along with many other increased costs, the school board still managed to offer a 3.1% raise. To accomplish this the staff and I did exactly what Dr. Hamilton advised. We could not create new revenue. We cut expenses. When many other districts offered only the teacher salary increase allocation, the staff and this school board found a way to give more. The current offer accomplished two things: It allows the school board to provide the highest salary and benefits possible, while maintaining a stable financial condition ratio of at least 5%. This information is public record and can easily be verified.

I hope the information shared by Dr. Hamilton and Mrs. McCole, along with the clarification provided by me, will give our employees reassurance that even with the limited unencumbered funding we received, the school board and I are committed to prioritizing the highest wages possible for our employees while maintaining financial stability.

4. Library Media Updates

<u>For a complete word for word transcript, please see the video. The following has been condensed.</u>

Ruth Witter, Instructional Technology Specialist, Library Media presented Library Media Updates:

- *Library Access Levels*
    - *The implementation of library access levels for students and*

families was integrated into the Focus parent portal. As of 12-13-23, there were 30,072 student enrollments with 52 students having limited library access and none having no access to both school and classroom libraries with a consistent percentage distribution.

- *Ongoing Review*
  - *As previously mentioned, our libraries undergo a continuous review process to ensure that their collections remain relevant and appropriate. In our last update, we specifically addressed adult fiction.*
  - *Our team has expanded our continuous review beyond adult fiction. This includes:*
    - *Books that are included on the state list from various school districts in Florida*
    - *Books that were rejected in Beanstack*
    - *Books that have not been in circulation for a period of five years.*
- *Ongoing Review - What is next?*
  - *Leveraging the power of technology can be an asset to our current approach. Alongside our conventional methods of analysis, integrating technology into our process can enhance the efficiency of our reviewing efforts.*
  - *We anticipate that one of two technology solutions will be of assistance. The first option being a spreadsheet capable of matching titles with review efforts. The second alternative involves creating an interface, or API, that integrates directly with our library catalog.*
- *Online Document*
  - *In preparation for our review committees, we are enhancing the online reconsideration document by adopting a more efficient and organized format. This adjustment will enable us to streamline file storage, assign tasks, gather community input and leverage project management principles all within a unified platform.*
- *Feet on the ground in Tallahassee*
  - *I recently visited the Legislature in Tallahassee. During my visit I had the opportunity to engage with our legislators and policy writers.*
- *Upcoming District Reading and Celebrations and Challenges*
  - *Celebrate Literacy Week, Florida: January 22-26, 2024*
  - *Read Across Santa Rosa: March 2-6, 2024. This is our first ever Beanstack District reading challenge. This challenge will take place during Read Across America Week. Schools will read as a community effort and the winning school will receive a banner for display at their school.*
  - *Battle of the Books: April 26, 2024*

E. Recognitions/Resolutions/Proclamations

We have 11 of our schools that received an A rating. We have 6 of our schools that improved a whole letter grade. There were a couple of schools that missed an A by one point.

INSTRUCTIONAL MATERIALS SELECTION 4.21*+

All classroom instructional materials, used in the Santa Rosa County School District including State-adopted single source textbooks, instructional aids, and other supplementary materials, for the first time shall undergo an evaluation. This evaluation shall determine the suitability of the materials for information being taught in the classroom in relationship to State standards, curriculum frameworks, and district programs, as well as with state and district performance standards.

I. Evaluation of Instructional Materials. The Superintendent shall establish a District Review Committee and develop procedures for the review and evaluation of instructional materials. The District Review Committee will include content area teachers, one or more parents of children at content grade level and district personnel. Meetings of the District review committee convened for the purpose of ranking, eliminating, or selecting instructional materials for recommendation to the School Board must be noticed and open to the public in accordance with s. 286.011 F.S. The staff involved in this process shall recommend to the Superintendent the instructional materials that address the goals and objectives for adopted courses of study and the course descriptions established by State Board Rule as well as the state and district performance standards for submission to the Board for adoption. The instructional materials shall be from the State-adopted instructional materials list if there has been a State adoption or from publishers and other resources if there has not been a State adoption.

The petitioner(s) shall be notified in writing of the date and time of the hearing at least seven (7) days prior to the hearing. The hearing must provide sufficient procedural protections to allow each petitioner an

adequate and fair opportunity to be heard and present evidence to the hearing officer.

5. The contested material shall be made available to the public online at least seven (7) days before the hearing.

6. The decision of the School Board, after convening a hearing, shall be final and not subject to further review or petition.

Artificial Intelligence Acceptable Use 4.24+

I. Introduction

It is the policy of Santa Rosa School District to:

A. Support the use of technology to improve teaching and learning, and to support innovations throughout the educational system.

B. With artificial intelligence (AI) technology shifting from providing access to instructional resources and capturing data to automating decisions about teaching and learning processes and detecting patterns in data it is necessary for there to be an increase in the level of responsibilities a person may delegate to a computer system.

C. Since AI systems could lead to bias in how patterns are detected and unfairness in how decisions are automated, it is essential for the District to develop this policy in how AI is developed for and used in education.

D. This policy outlines the acceptable use of AI tools and applications within Santa Rosa County Schools to ensure their safe, ethical, and responsible use.

E. It is the District's responsibility to educate and train students to utilize AI in an ethical and educational way. The District is not banning teacher or student use of AI, but each teacher and student needs to be aware of the limitations and guidelines of its usage.

1. Teachers may allow the use of AI for curriculum purposes. For example AI programs may assist students with providing clarifications of information or explanations of ideas and concepts. AI may also be helpful for students with generating ideas, topics and writing prompts.

F. Teachers and staff need to be aware and understand:

1. Generative AI is not a substitute for human creativity, judgement and creation.
2. Supervisors must be notified when AI is being used to complete a task.
3. Require analyzation to protect against violation of IP, Privacy and District Policy

4. Require peer review of accuracy, appropriateness or bias (depending on the nature of the work)
5. Do not allow AI to learn passwords, confidential, proprietary or sensitive district data
6. Do not upload employee or student records, names, addresses, etc.,
7. Do not integrate AI tools with District software
8. Do not use AI for employment decisions about applicants or employees
9. Do not use AI tools specifically prohibited or (if applicable) not approved lists

G. Students Responsible Use –

1. When using AI programs students need to be aware that they are potentially sharing personal data with AI bots. Further information they may be uploading may also be invading others' privacy.
2. AI programs can have implicit bias, and even present incorrect information. Students should acknowledge that AI is not always factually accurate, nor seen as a credible source, and should be able to provide evidence to support its claims. All users must also be aware of the potential for bias and discrimination in AI tools and applications.
3. If a student is using an AI program they need to think critically and be sure to fact-check using primary sources.
4. AP, IB and Dual Enrollment college and university classes may have additional restrictions and limitations regarding the use of AI.
5. Academic integrity means that Chat GPT cannot be used for essays or other papers submitted. Should AI be used in any capacity, the student must acknowledge the use of AI related to their school work: attributing AI text, image, multimedia, etc. when using them in your school work. The use of AI could be subject to the Academic Dishonesty Policy.
6. Students are not permitted to use AI programs to avoid doing their own work.
7. Students may not use AI when your teacher has expressly forbidden it's use.
8. Student access to certain websites using AI may be granted, however privacy guidelines and age restrictions must be considered prior to allowing the usage.

H. Any misuse of AI tools and applications, such as hacking or altering data, is strictly prohibited.

I. Students using AI software with a personal device and/or personal credentials should be aware that the platforms they are uploading information to is collecting various forms of data and their privacy may not be protected.

4. Any entity receiving PII pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Further, the entity must enter into a written agreement with the Board delineating its responsibilities in safeguarding the disclosed information. The declaration of a health or safety emergency shall include the need for specific personally identifiable student information, the time requirements for the information, and the parties to whom the information is disclosed who are responsible for utilizing the information to deal with the emergency.

XIX. Transfer of Student Records. District, upon receiving a written request for another school, public or private, within or out of State, shall transfer within ~~three (3)~~ <u>five (5)</u> school days the records of the student.

A. The records to be transferred shall include:

   b. The threat ~~assessment~~ management team has made a determination that the non-threat finding must be retained in order to ensure the continued safety of the school community or to ensure the well-being of the student. Such determination and reasoning for maintaining the record must be documented with the non- threat finding. When this determination is made, the threat ~~assessment~~ management team must re-evaluate the decision on an annual basis to determine if the record is no longer useful. The student's age and length of time since the original assessment must be considered in those evaluations.

XX. Reporting of information in any student database shall comply with these safeguards.

A. Data reported to the Florida Department of Education shall not disclose a student's name or identity unless required by Florida Statutes;

B. To facilitate the processing of student scholarship, college admission and other applications; and

C. For other purposes when consent of the parent or adult student is granted.

XXII. Required use of online educational services by students and parents. In order to protect a student's PII from potential misuse and in order to protect students from data mining or targeting for marketing or other commercial purposes, the Board requires the review and approval of any online educational service that students or their parents are required to use as part of a school activity (1) regardless of whether

there is a written agreement governing student use, (2) whether or not the online educational service is free, and (3) even if the use of the online educational service is unique to specific classes or courses. The following requirements also apply to online educational services:

D. A law enforcement agency shall, within 48 hours, notify the district school superintendent when its employee is arrested for a felony or a misdemeanor involving the abuse of a minor child or the sale or possession of a controlled substance. Within 24 hours after such notification, the school principal or designee shall notify parents of enrolled students who had direct contact with the employee and include, at a minimum, the name and specific charges against the employee.

II. Investigation

The Superintendent shall immediately investigate any allegation of misconduct by an employee that affects the health, safety or welfare of a student regardless of whether the person resigned or was terminated before the conclusion of the investigation. The Superintendent shall notify the department of the result of the investigation and whether the misconduct warranted termination, regardless of whether the person resigned or was terminated before the conclusion of the investigation.

A. An employee who is alleged to have committed such misconduct shall

be reassigned to a position not requiring direct contact with students pending the outcome of the investigation.

B. Information related to the alleged misconduct shall be considered confidential until the investigation is concluded with a finding to proceed or not to proceed with disciplinary action or charges and the subject of the complaint has been notified of the finding.

C. The Superintendent shall report alleged misconduct to the Department of Education as required by Florida Statutes. The Superintendent shall report alleged misconduct of educational support employees, instructional personnel or school administrator who engage in conduct that would be considered disqualifying pursuant to Section 1012.315, Florida Statutes or any allegation of sexual misconduct with a student. Failure to report such conduct to the Department or law enforcement forfeits the Superintendent's salary for up to one year.

D. The School District shall notify the parents of a student affected by an educator's violation of the district's Standards of Ethical Conduct. This notice must be provided to the parent within thirty (30) days of knowledge of the incident and inform the parent of:

1. The nature of the misconduct,

2. If the District reported the misconduct to the department in accordance with Section 1012.796, Florida Statutes,

3. The sanctions imposed against the employee, if any, and

4. The support the school district will make available to the student in response to the employee's misconduct.

III. Legally Sufficient Complaint

The Superintendent shall file any legally sufficient complaint with the Department of Education within thirty (30) days after the date the District became aware of the subject matter of the complaint. A complaint is considered to be legally sufficient if it contains ultimate facts that show that an instructional or administrative employee has committed a violation as provided in 1012.795, F.S., and defined by State Board of Education rule.

IV. Resignation or Retirement in Lieu of Termination

If the Superintendent determines that misconduct by an educational support

employee, instructional staff member or an administrator who holds a certificate issued by the Florida Department of Education affects the health, safety, or welfare of a student and the misconduct warrants termination, the staff member may resign or be terminated the Superintendent shall report the misconduct to the Department of Education as required.

V. Employment Reference

The Board, Superintendent, or any other ~~A~~ representative of the School District shall not enter into a confidentiality agreement regarding terminated or dismissed educational support employees, instructional personnel or school administrators, or educational support, instructional personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health, safety, or welfare of a student, and may not provide an employment reference or discuss the performance of an employee with a prospective employer in an educational setting without disclosing the person's misconduct that affected the health, safety or welfare of a student. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by educational support, instructional personnel or school administrators which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

VI. Notification

The policies and procedures for reporting alleged misconduct by employees that affects the health, safety or welfare of a student shall be posted in a prominent place at each school and on each school's website. The notice shall include the name of the person to whom the report is made and the consequences for misconduct.

VII. Protection from Liability

A. Any individual who reports in good faith any act of child abuse, abandonment or neglect to the Department of Children and Family Services or any law enforcement agency shall be immune from any civil or criminal liability that might result from such action.

B. An employer who discloses information about a current or former employee to a prospective employer, at the employee's request or at the prospective employer's request, shall be immune from civil liability for such disclosure as provided by Florida Statute.

VIII. False or Incorrect Report

The Superintendent, a Board member or any District official shall not sign and/or transmit any report regarding employee misconduct to a state official that he/she knows to be false or incorrect. An individual who knowingly makes a false or incorrect report shall be subject to disciplinary action as prescribed by Florida Statute.

ONLINE EDUCATIONAL SERVICES AGREEMENTS/CONTRACTS 7.85*+

The District is committed to maintaining the privacy and security of student data and teacher and principal data and will follow all applicable laws and regulations for the handling and storage of this data in the District and when disclosing or releasing it to others, including, but not limited to, third-party contractors. The District adopts this policy to implement the requirements of state and federal privacy laws, including FERPA and its implementing regulations, the Children's Online Privacy Protection Act (COPPA), 15 U.S.C. §§6501-6506, 20 U.S.C. Section 1232g(a)(4) and personally identifiable information ("PII") as defined in 34 CFR §99.3, and Section 1002.22, F.S., F.A.C. §6A-1.0955~~0~~(9) as well as to align the District's data privacy and security practices.

This procedure is required whether or not there is a written agreement governing student use, and whether or not the online educational service is free. This procedure is required even if the use of the online educational service is unique to specific classes or courses. Prior to entering into an online educational services agreement, the following review and approval procedure shall be followed.

1. Definitions:

a. "Commercial or marketing purpose" means the sale of student data; or its use or disclosure for purposes of receiving remuneration, whether directly or indirectly; the use of student data for advertising purposes, or to develop, improve, or market products or services to students.

b. "Contract or other written agreement" means a binding agreement between an educational agency and a third-party, which includes, but is not limited to, an agreement created in electronic form and signed with an electronic or digital signature or a click-wrap agreement that is used with software licenses, downloaded, and/or online applications and transactions for educational technologies and other technologies in which a user must agree to terms and conditions prior to using the product or service.

c. "Disclose" or "disclosure" means to permit access to, or the release, transfer, or other communication of personally identifiable information by any means, including oral, written, or electronic, whether intended or unintended.

d. "Education records" means an education record as defined in the Family Educational Rights and Privacy Act and its implementing regulations, 20 USC Section 1232g and 34 CFR Part 99, respectively.

e. "Educational agency" means a school district, school, or charter school.

f. "Eligible student" means a student who is eighteen years or older.

g. “Online educational service” means computer software, mobile applications (apps), and web-based tools that students or parents are required to use and access through the internet and as part of a school activity or function. Examples include online services that students or parents use to access class readings, assignments, or videos, to view learning progression, or to complete assignments. This does not include online services that students or parents may use in their personal capacity or to online services that districts or schools may use to which students or parents do not have access, such as a district student information system.

h. "Parent" means a parent, legal guardian, or person in parental relation to a student.

i. “Personally identifiable information” or “PII” as applied to student data means information that can be used to distinguish or trace a student’s identity either directly or indirectly through linkages with other information, as defined in 34 CFR §99.3. PII includes, but is not limited to direct identifiers (such as a student’s or other family member’s name), indirect identifiers (such as a student’s date of birth, place of birth, or mother’s maiden name), and other personal identifiers (such as a student’s social security number or Florida Education Identifier (FLEID) number). PII also includes information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. It also includes data as applied to teacher or principal data.

j. "Principal" means a building principal subject to annual performance evaluation review

k. "Release" has the same meaning as disclosure or disclose.

l. "Student" means any person who is or has been in attendance in a district school and regarding whom the District maintains education records.

m. "Student data" means personally identifiable information (PII) from the student records of an educational agency.

n. "Teacher" means a teacher subject to annual performance evaluation review

o. "Teacher or principal data" means personally identifiable information from the records of an educational agency relating to the annual professional performance reviews of classroom teachers or principals that is confidential and not subject to release pursuant to 1012.31, F.S.

p. "Third-party contractor/service provider/vendor" means any person or entity, other than an educational agency, whether public or private, that receives student data or teacher or principal data from an educational agency pursuant to a contract or other written agreement for purposes of providing services to the educational agency, including but not limited to data management or storage services, conducting studies for or on behalf of the educational agency, or audit or evaluation of publicly funded programs. This term will include an educational partnership organization that receives student and/or teacher or principal data from a school district to carry out its responsibilities and is not an educational agency, and a not-for-profit corporation or other nonprofit organization, other than an educational agency. The term does not include the Florida Department of Education or the Department's contractors and subcontractors.

q. "Unauthorized disclosure" or "unauthorized release" means any disclosure or release not permitted by federal or state statute or regulation, any lawful contract or written agreement, or that does not respond to a lawful order of a court or tribunal or other lawful order.

2. Data Collection Transparency and Restrictions

As part of its commitment to maintaining the privacy and security of student data and teacher and principal data, the District will take steps to minimize its collection, processing, and transmission of PII. Additionally, the District will:

a. Not sell PII nor use or disclose it for any marketing or commercial purpose or facilitate its use or disclosure by any other party for any marketing or commercial purpose or permit another party to do so.

b. Ensure that it has provisions in its contracts with third-party contractors or in separate data sharing and confidentiality agreements that require the confidentiality of shared student data or teacher or principal data be maintained in accordance with law, regulation, and District policy.

c. Any agreement for online educational services shall contain an explicit prohibition against sharing or selling a student's PII for commercial purposes without providing parents a means to either consent or disapprove.

d. This disclosure prohibition does not prevent the purchase, merger, or other type of acquisition of a third party provider or online educational service by another entity, provided that the successor entity continues to be subject to the provisions of this rule with respect to previously acquired PII.

e. If student PII will be collected by the online educational service, the Superintendent shall establish procedures for notifying parents and eligible students of information that will be collected, how it will be used, when and how it will be destroyed, and the terms of re-disclosure, if any.

3. Data Protection and Terms of Service

Prior to submitting any online services agreement or contract to the School Board for approval, the Superintendent, or designee shall:

a. Designate a person or persons responsible for the review and approval of online educational services that are required for students to use.

b. Ensure the online educational service's terms of service and privacy comply with state and federal privacy laws, including FERPA and its implementing regulations, the Children's Online Privacy Protection Act (COPPA), 15 U.S.C. ss. 6501-6506, and Section 1002.22, F.S.

c. Ensure the Online Educational Services Agreement contains an explicit prohibition against sharing or selling a student's PII for commercial purposes without providing parents a means to either consent or disapprove. (This disclosure prohibition does not prevent the purchase, merger, or other type of acquisition of a third party provider or online educational service by another entity, provided that the successor entity continues to be subject to the provisions of this policy with respect to previously acquired PII.

d. Establish procedures for notifying parents and eligible students if student PII will be collected by the online educational service on how it will be collected, how it will be used, when and how it will be destroyed, and the terms of re-disclosure, if any.

e. Ensure the service or application is inventoried and evaluated, and supports the schools' and districts broader mission and goals.

4. District Data Privacy

The District will protect the privacy of PII by:

a. Ensuring that every use and disclosure of PII by the District benefits students and the District by considering, among other criteria, whether the use and/or disclosure will:

b. Improve academic achievement;

c. Empower parents and students with information; and/or

d. Advance efficient and effective school operations.

e. Not including PII in public reports or other public documents.

5. The District affords all protections under FERPA and the Individuals with Disabilities Education Act and their implementing regulations to parents or eligible students, where applicable.

6. Click-Wrap Agreements

Periodically, District staff may wish to use software, applications, or other technologies in which the user must "click" a button or box to agree to certain online terms of service prior to using the software, application, or other technology. These are known as "click-wrap agreements" and are considered legally binding "contracts or other written agreements".

a. District staff are prohibited from using software, applications, or other technologies pursuant to a click-wrap agreement in which the third-party contractor receives student data or teacher or principal data from the District unless they have received prior approval from the Superintendent, or designee.

b. The District will develop and implement procedures requiring prior review and approval for staff use of any software, applications, or other technologies pursuant to click-wrap agreements.

7. Notice:

For any online educational service that a student is required to use, the district will provide notice on its website of the PII information that may be collected, how it will be used, when it will be destroyed and the terms of re-disclosure. This notice will include a link to the online educational service's terms of service and privacy policy, if publicly available.

8. Compliance:

Pursuant to this policy any online educational service provided through a Third-party vendor or Third-party service provider must be School Board approved. An employee's failure to follow this policy may result in disciplinary proceedings, up to and including termination.

9. Parent/Guardian Notice:

a. The use of any non-approved online educational software, web-based tools or mobile applications on district provided devices may result in the student's PII being disclosed and not protected.

b. Students shall only use School Board approved online educational software, web-based tools or mobile applications on district provided devices. The use of any non-approved online educational software, web-based tools or mobile applications on district provided devices may result in disciplinary proceedings, up to and including expulsion.

Michael / Miller-

Please see the following email that Bobby and I spoke about on time extension, you will also see Joey's email noting that an extension is expected. The substantial walk through technically was on October 2nd, they were being very lenient with us since we had put so much focus on OBE. Actually turning it over 30 days early.

Let me know if you need anything further.
Thank you.

Bobby –

Due to the delay in permitting expectations, we were forced to take on new work in the interim until the permit was secured. Once the permit and a NTP was issued, we attempted to re-schedule subcontractors and re-task our staff to the project as originally intended. This led to a slow startup that was originally prepared to begin in full force. The work we procured while waiting for the permit execution took away from our abilities to begin this project immediately. For these reasons we are requesting an additional 96 days to extend our Substantial Completion Date to 23 August 2023.

This is our request for a time extension on Test Kitchen. We will have no issues making this date.
Thank you.

CAUTION!!! This Message originated OUTSIDE the district. CAUTION!!!

Joy,

Good News! – We have a permit for Test Kitchen! YAY!!
Bad News! – It was issued 2 days ago! HUH?!! I never received any emails from it nor did it say the permit was issued when I looked at it yesterday or the day before.

Anyway – you officially have a notice to proceed.

Please let me know what, if any, changes need to be addressed in your construction schedule and help me by declaring an official finish date that we can add/remove days to as we need to comply with the contract and any change orders. Also any thing else we need from you on the startup documents per the specifications.

Also – let me know how you want to schedule bi-weekly on-site OAC meetings?

As of right now, the website says the permit is still pending for Oriole Beach. I'll be checking it twice a day now.
